

## Distribution of Survey Response by County

This report contains a distribution by county of the responses to selected questions in the equine survey. The goal of this report is to determine if there are differences in characteristics and practices among New Hampshire horse owners in different counties.

For questions that have multiple responses (for example, “What breeds of equine do you own?”) only the most frequently reported values are included in this report. Many of the figures in this report present average values. All “average” values included in this report refer to the five percent trimmed mean of the observations, which is obtained by removing the lowest five percent and the highest five percent of the observations and solving for the mean or arithmetic average. This procedure was used because of the presence of extremely high values in the data; in this case, the mean overstates the “typical” or average value, and the use of the trimmed mean is recommended.

## A. Equine Breeds

|                        |                   |
|------------------------|-------------------|
| A1. Light-horse breeds | Figures 1 to 10   |
| A2. Race-horse breeds  | Figures 11 and 12 |
| A3. Work-horse breeds  | Figures 13 and 14 |
| A4. Pony breeds        | Figures 15 and 16 |
| A5. Donkeys and mules  | Figures 17 and 18 |

Figure 1 Number of Quarterhorses by county

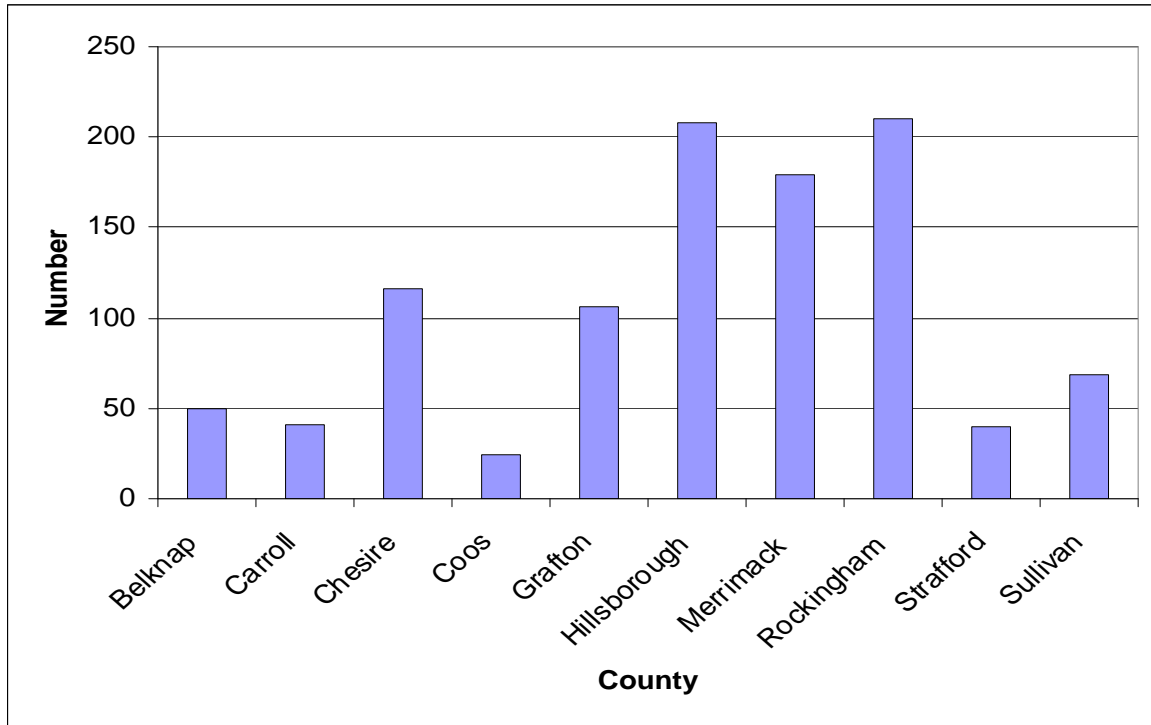

Figure 2 Number of Morgan horses by county

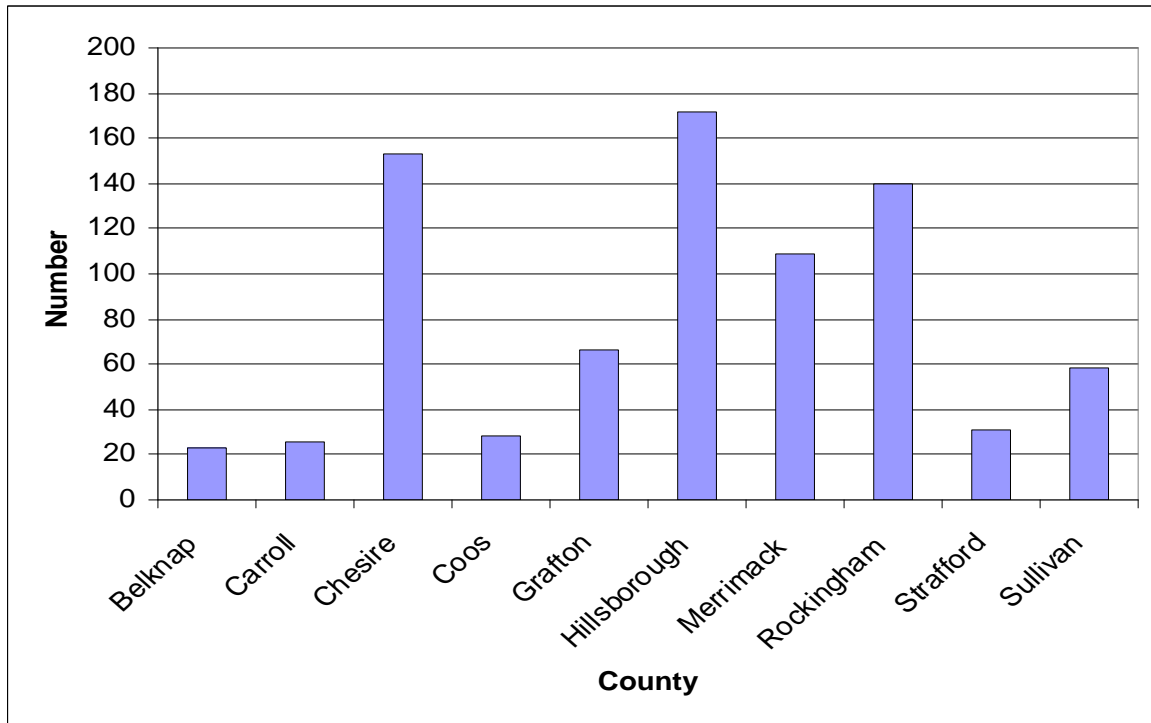

Figure 3 Number of light-horse crossbreds by county

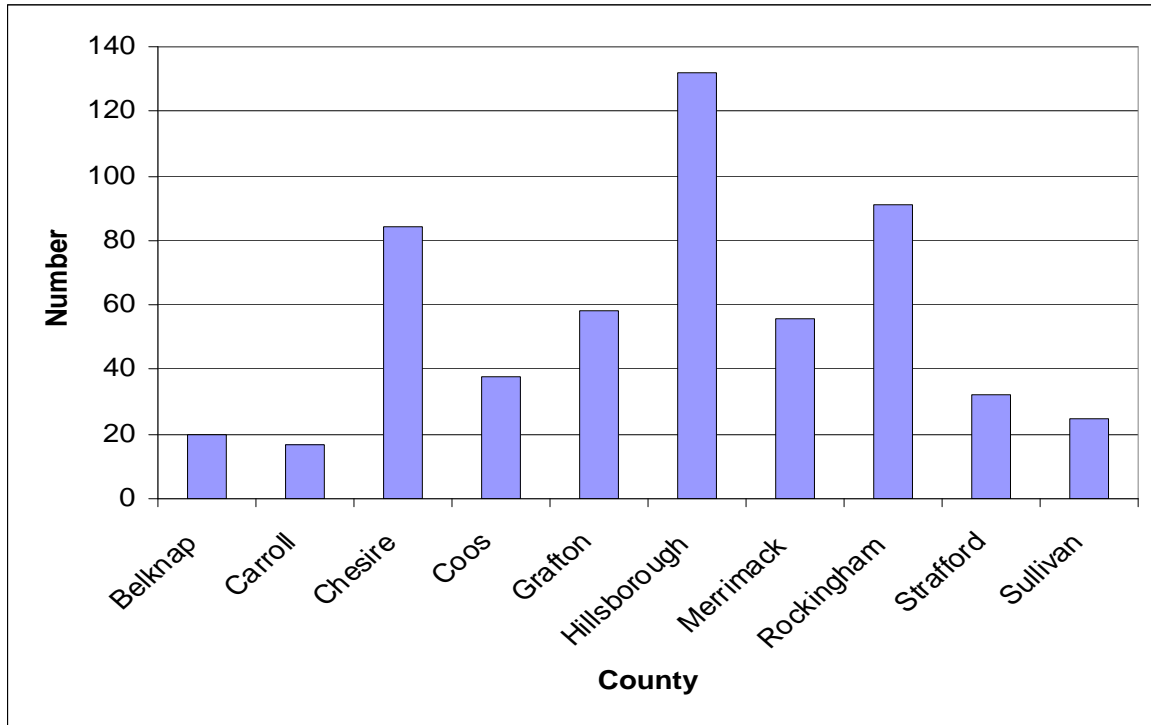

Figure 4 Number of Warmblood horses by county

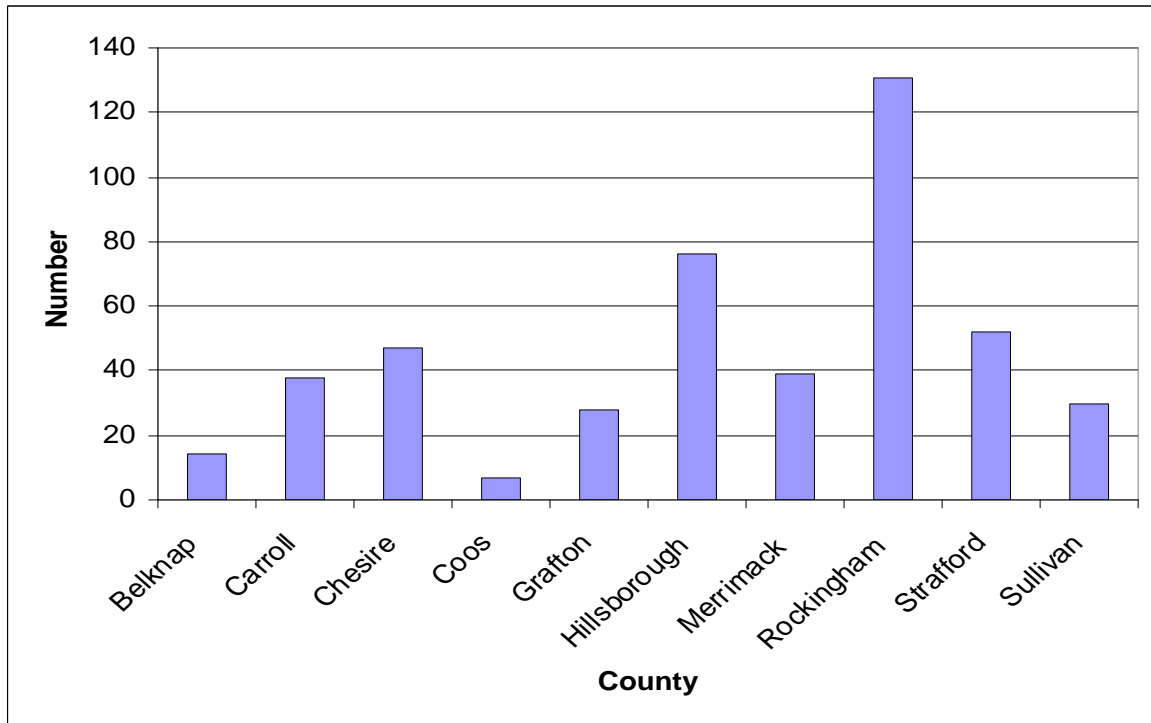

Figure 5 Number of Pinto horses by county

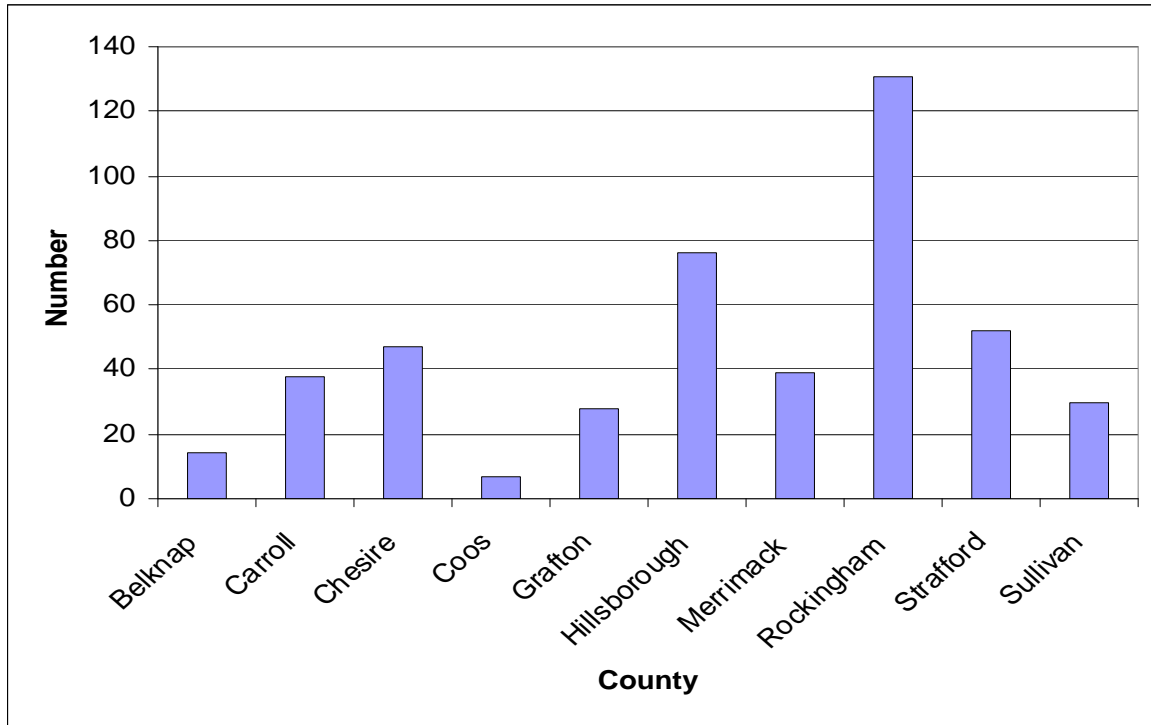

Figure 6 Number of Arabian horses by county

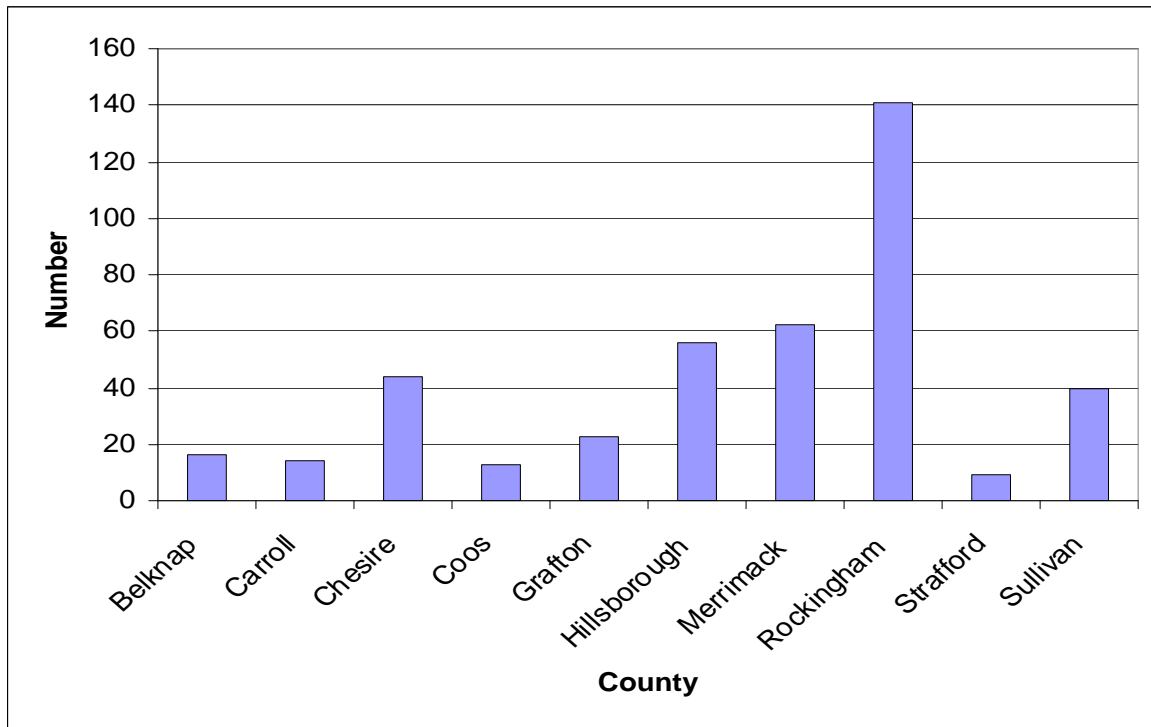

Figure 7 Number of Miniature horses by county

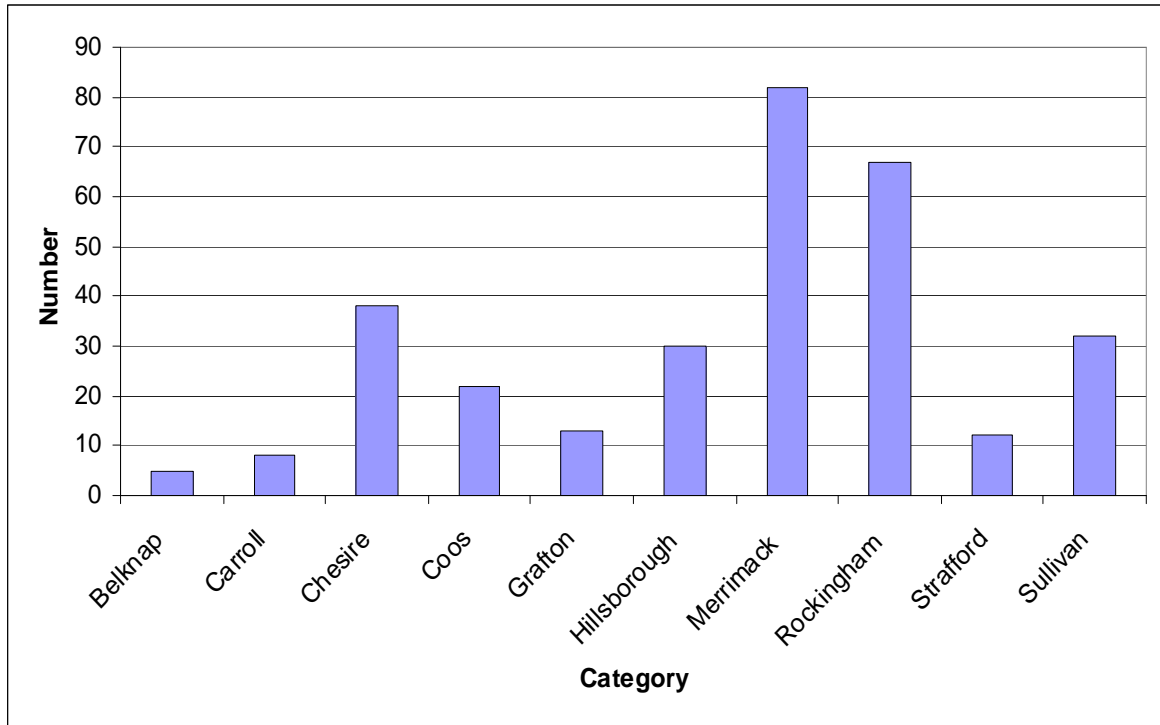

Figure 8 Number of Half Arabian horses by county

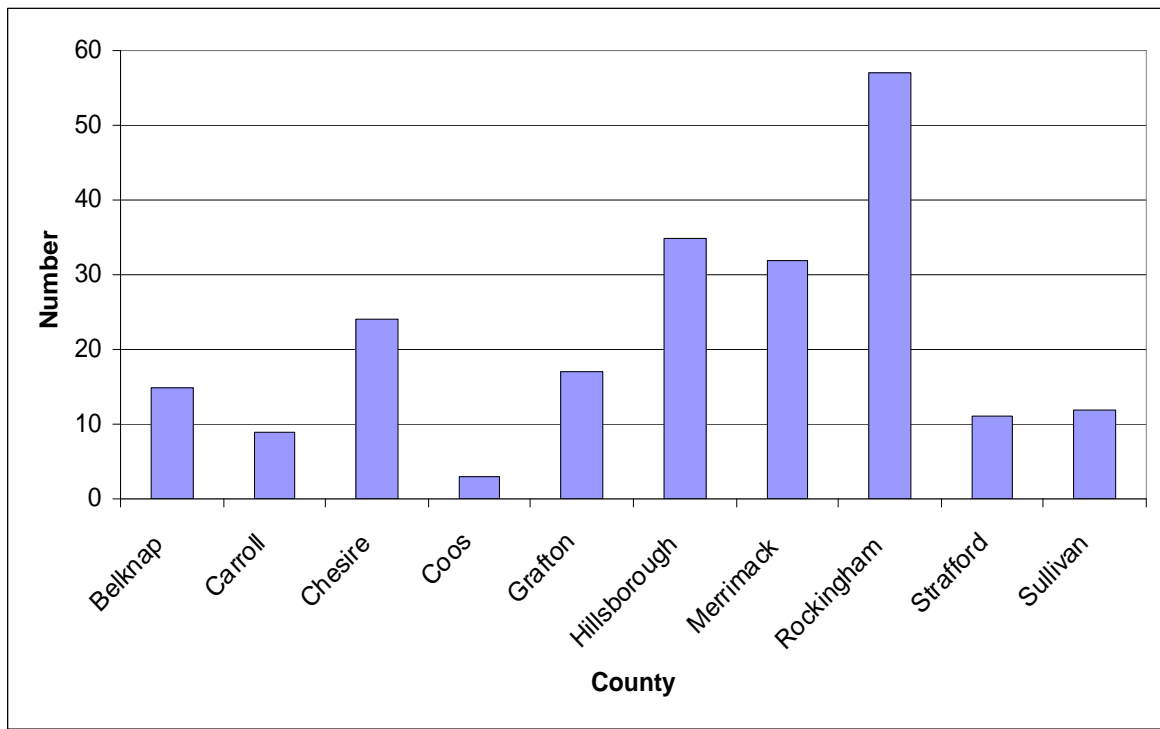

Figure 9 Number of Saddlebred horses by county

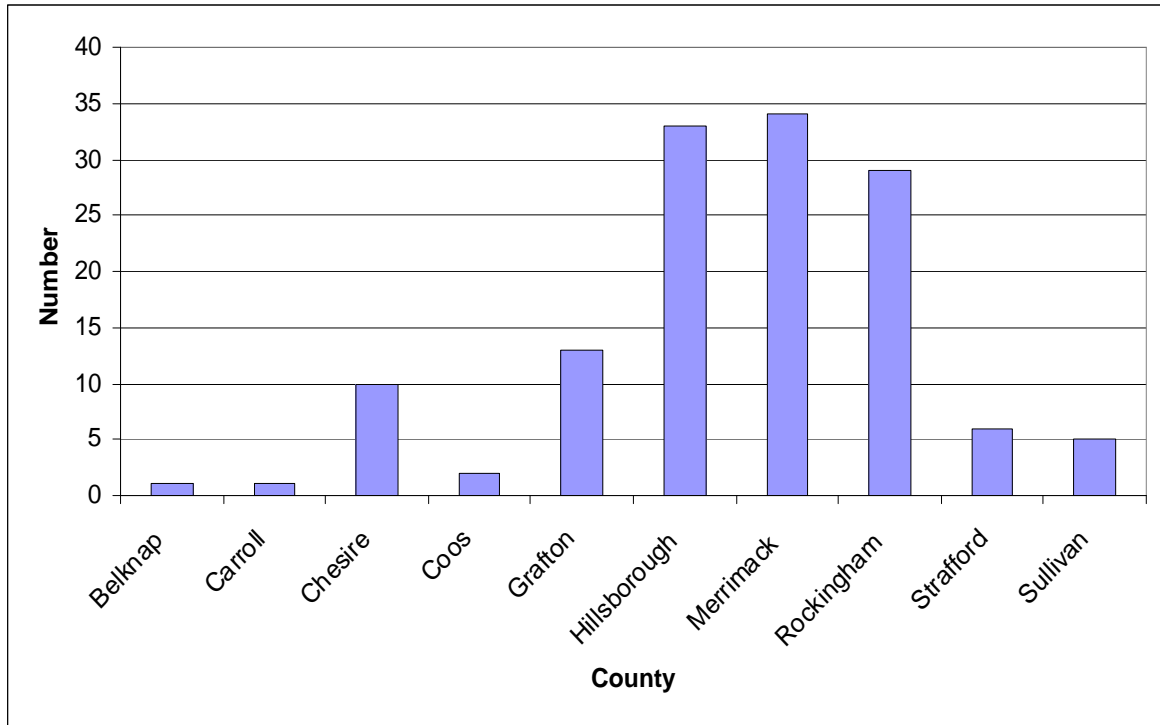

Figure 10 Number of Haflinger horses by county

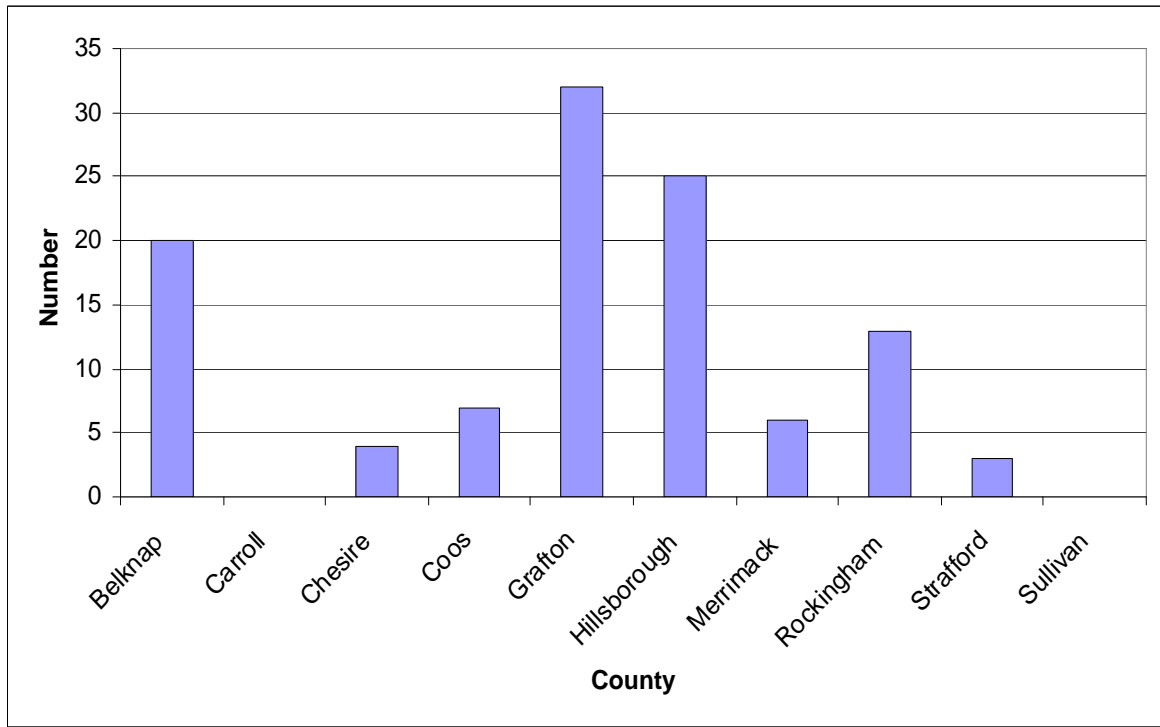

Figure 11 Number of Thoroughbred horses by county

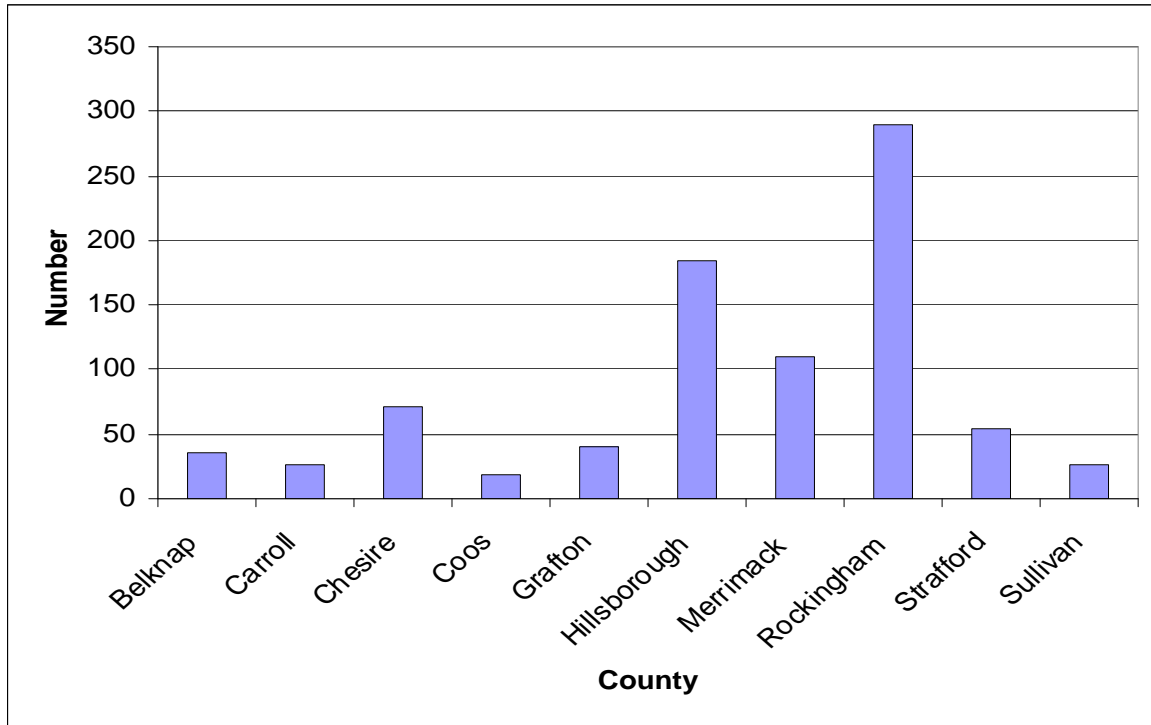

Figure 12 Number of Standardbred horses by county

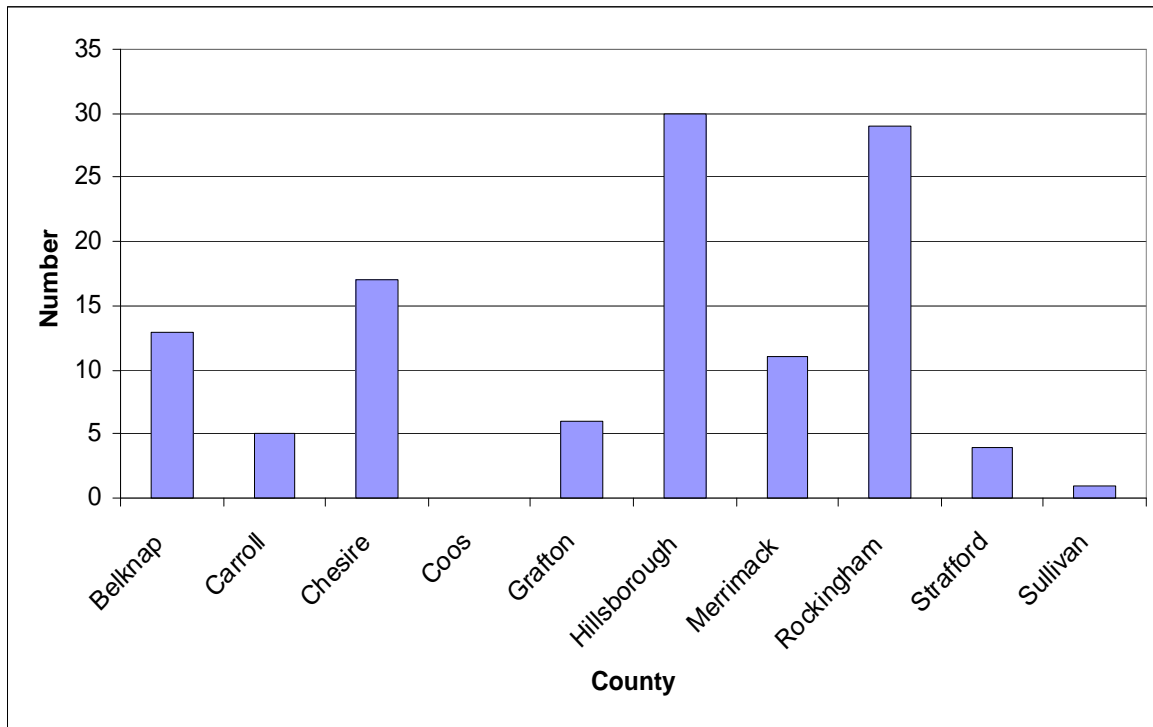

Figure 13 Number of Belgian horses by county

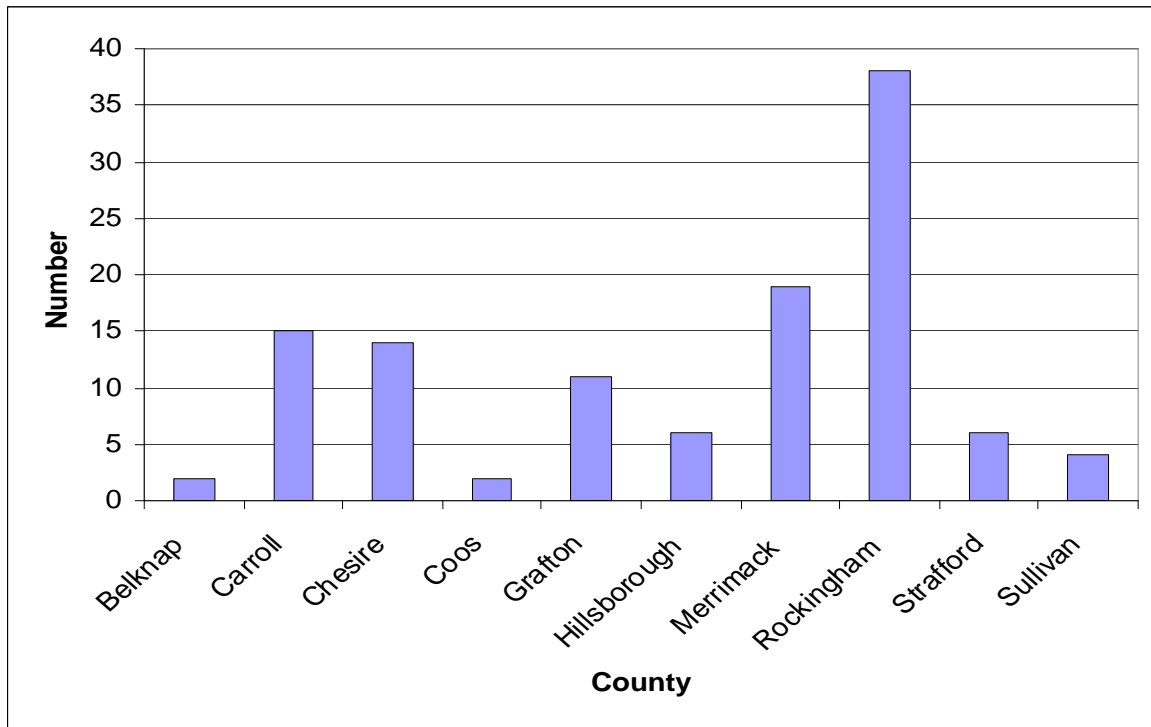

Figure 15 Number of Welsh ponies by county

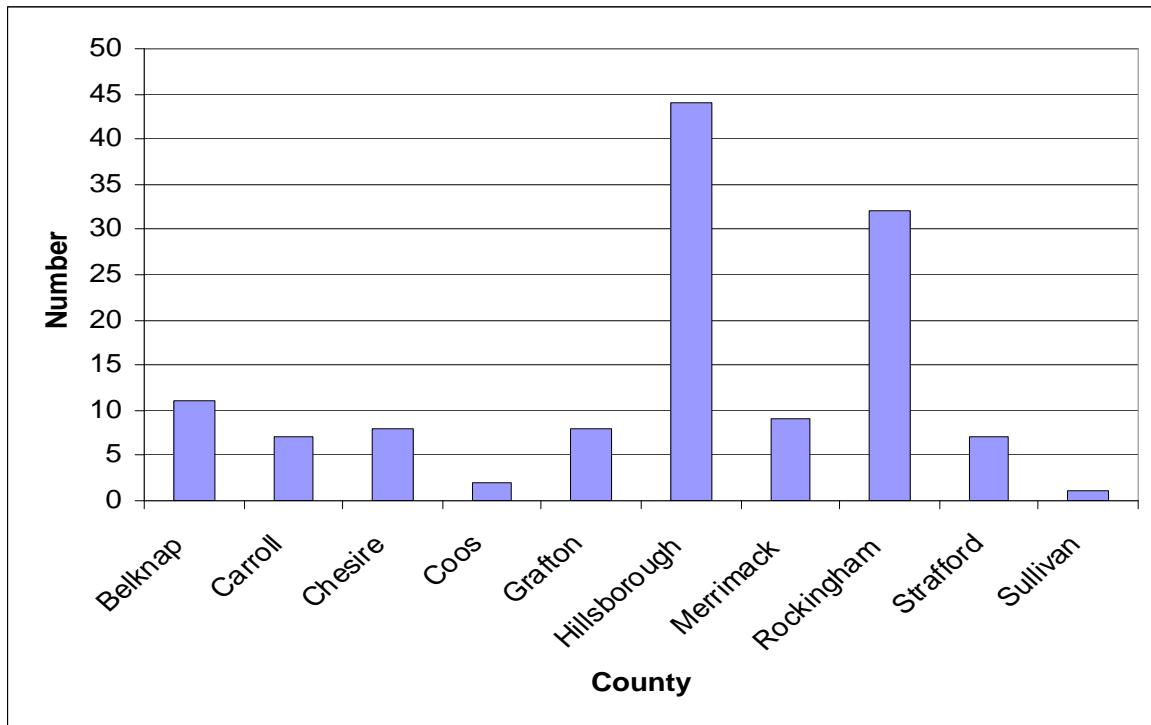

Figure 16 Number of Shetland ponies by county

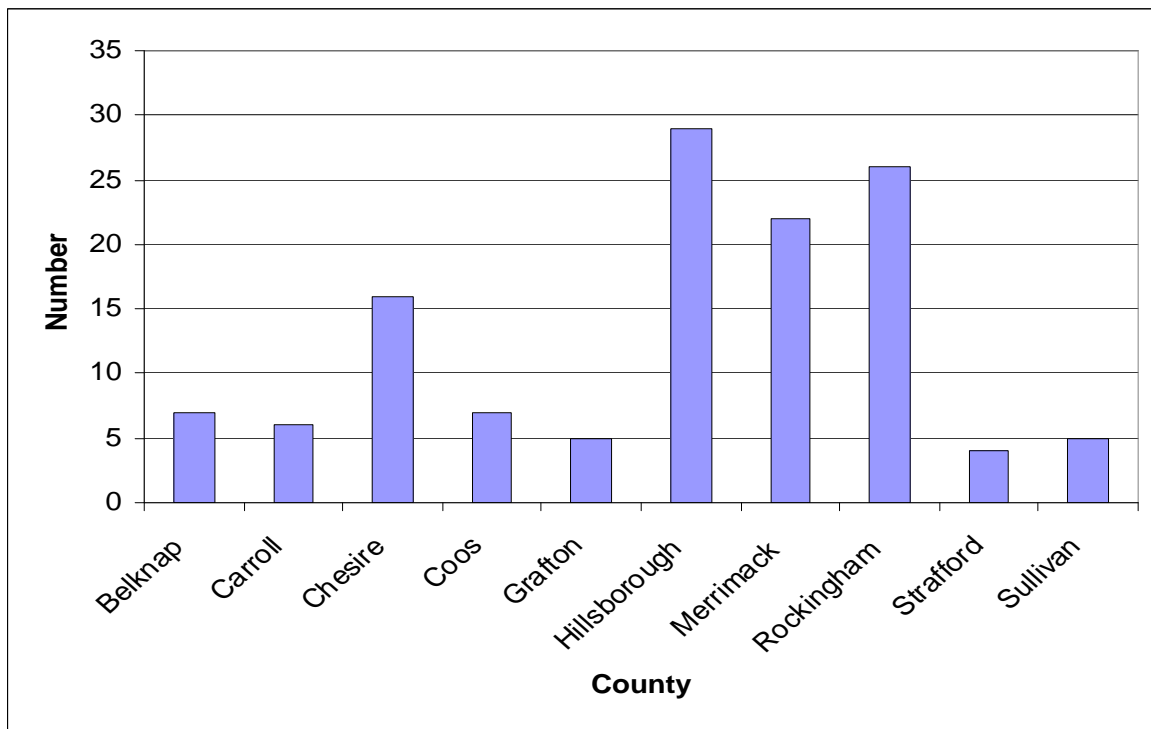

Figure 17 Number of donkeys by county

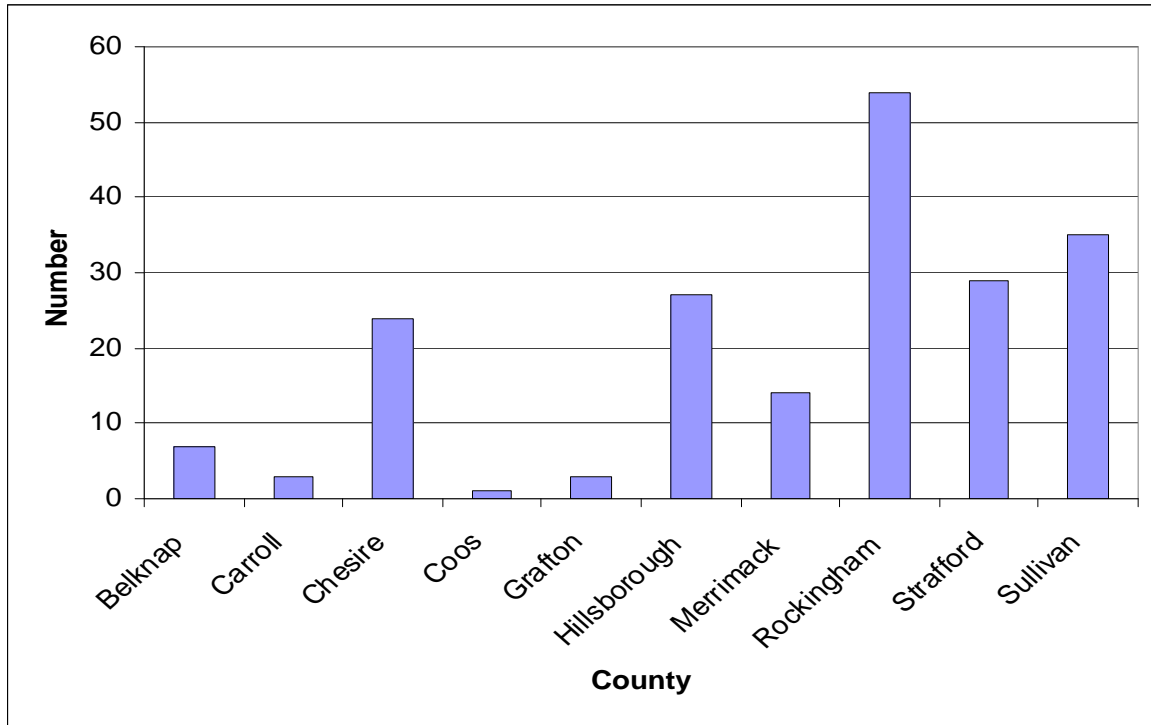

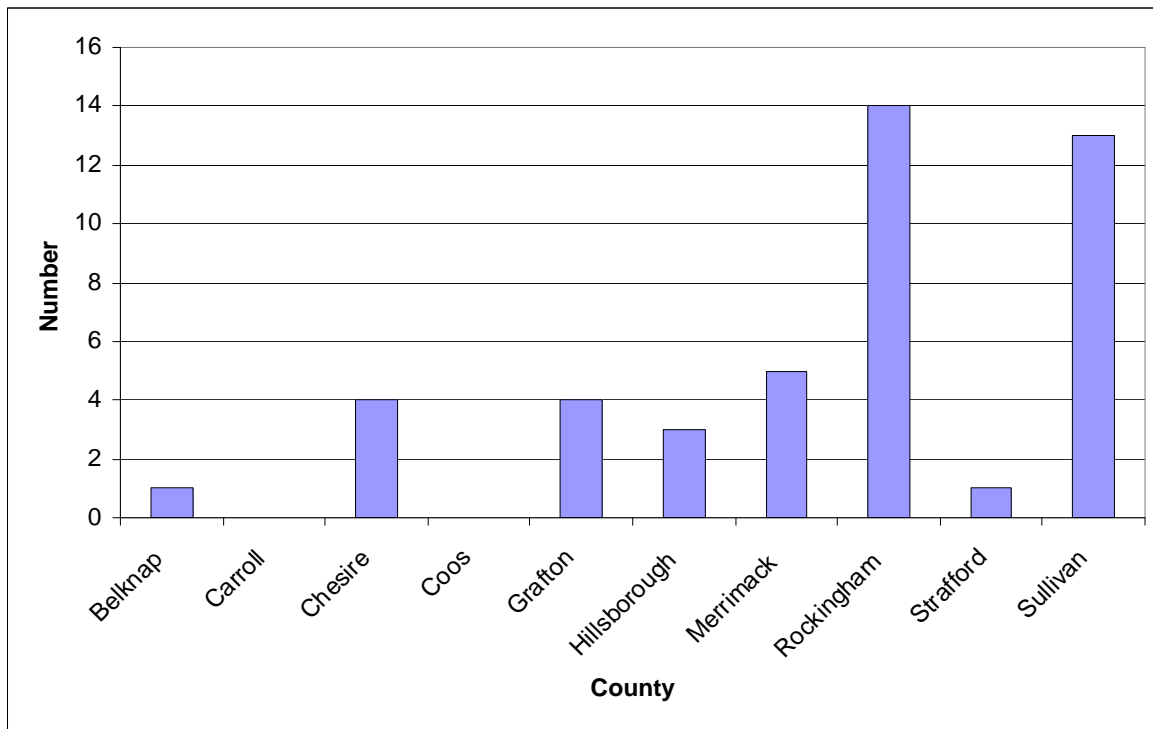

Figure 18 Number of mules by county

## B. Current Value of Equines

Figure 19 Total estimated current value of equines owned, by county

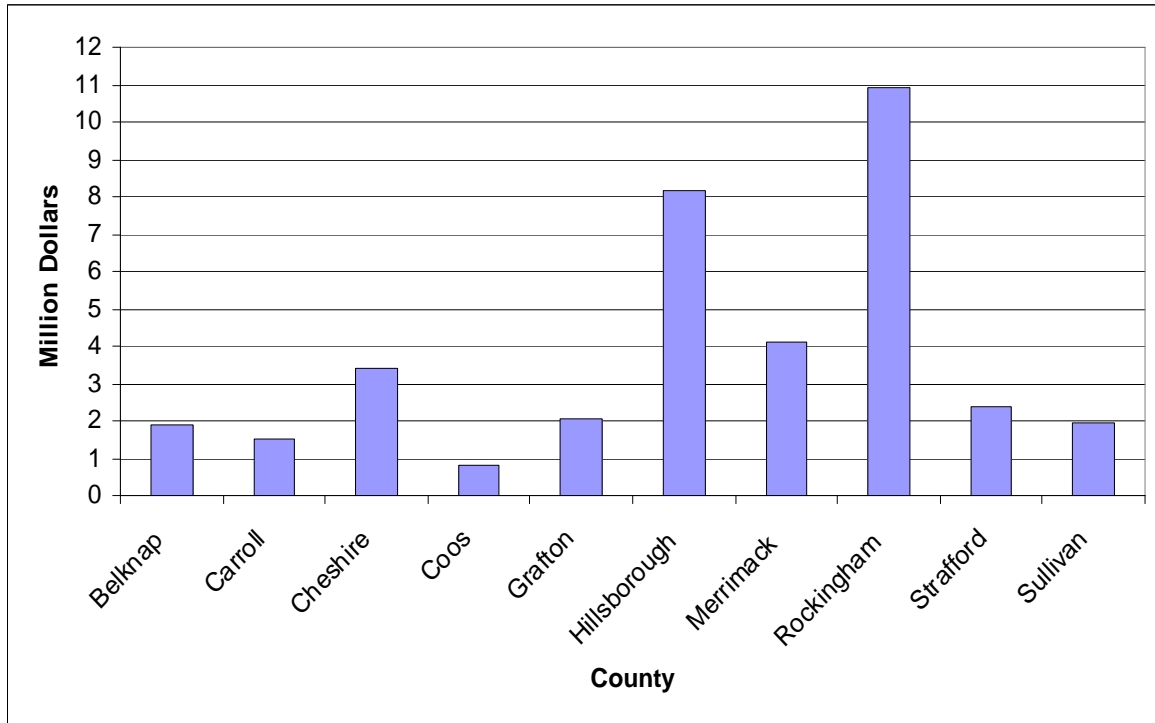

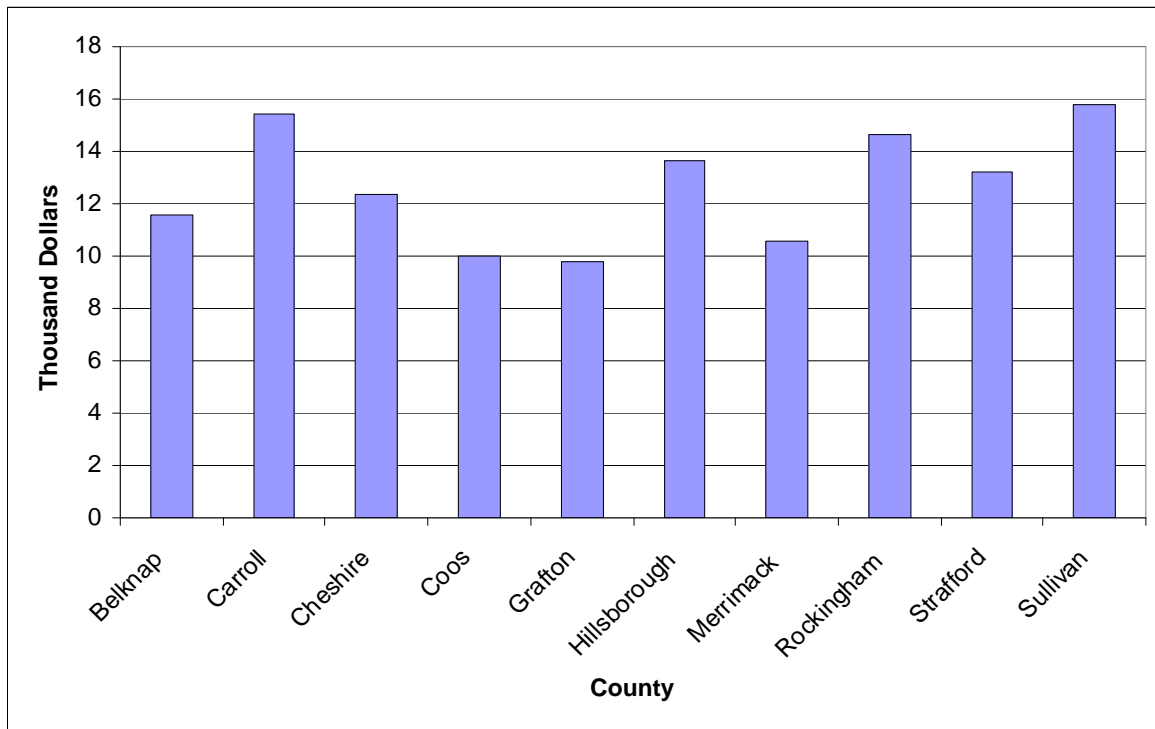

Figure 20 Average estimated current value of equines owned, by county

## C. Use of Equines

Figure 21 Pleasure riding, by county

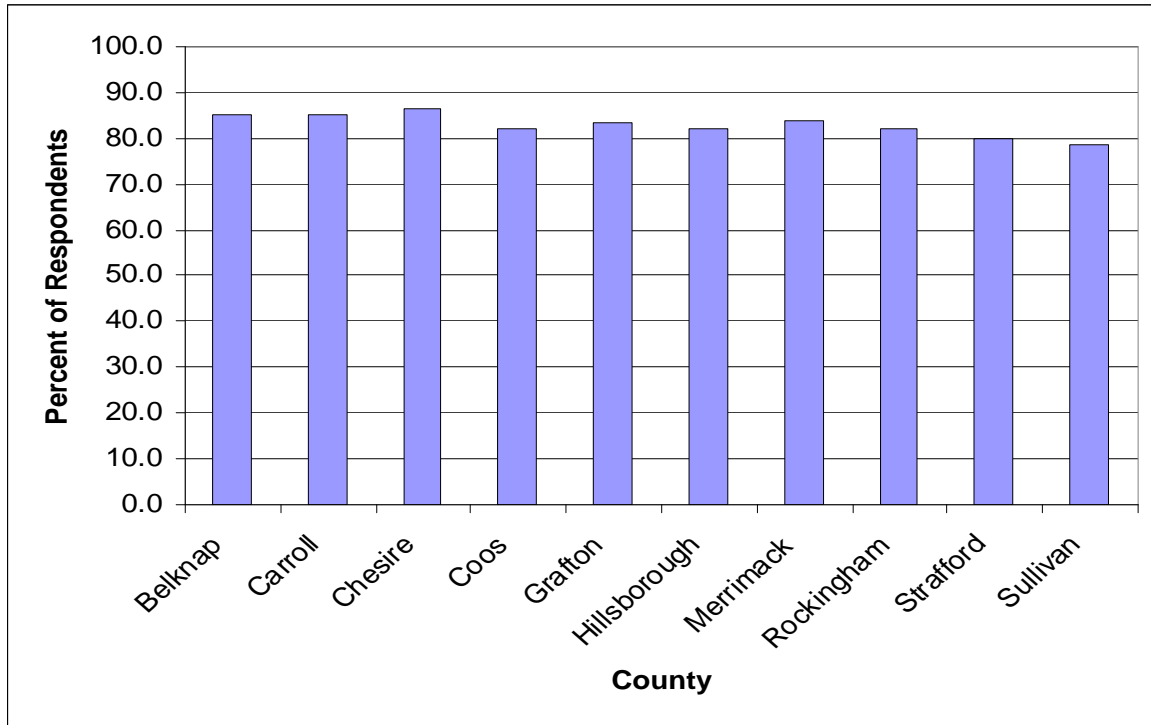

Figure 22 Trail riding, by county

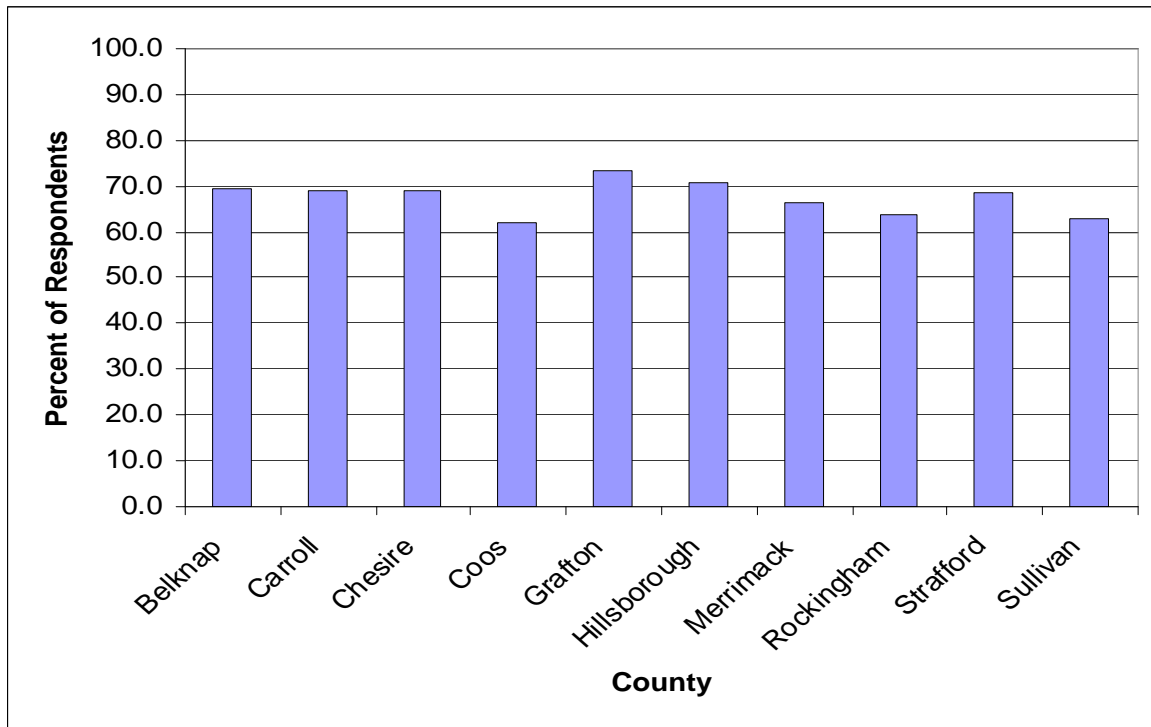

Figure 23 Showing, by county

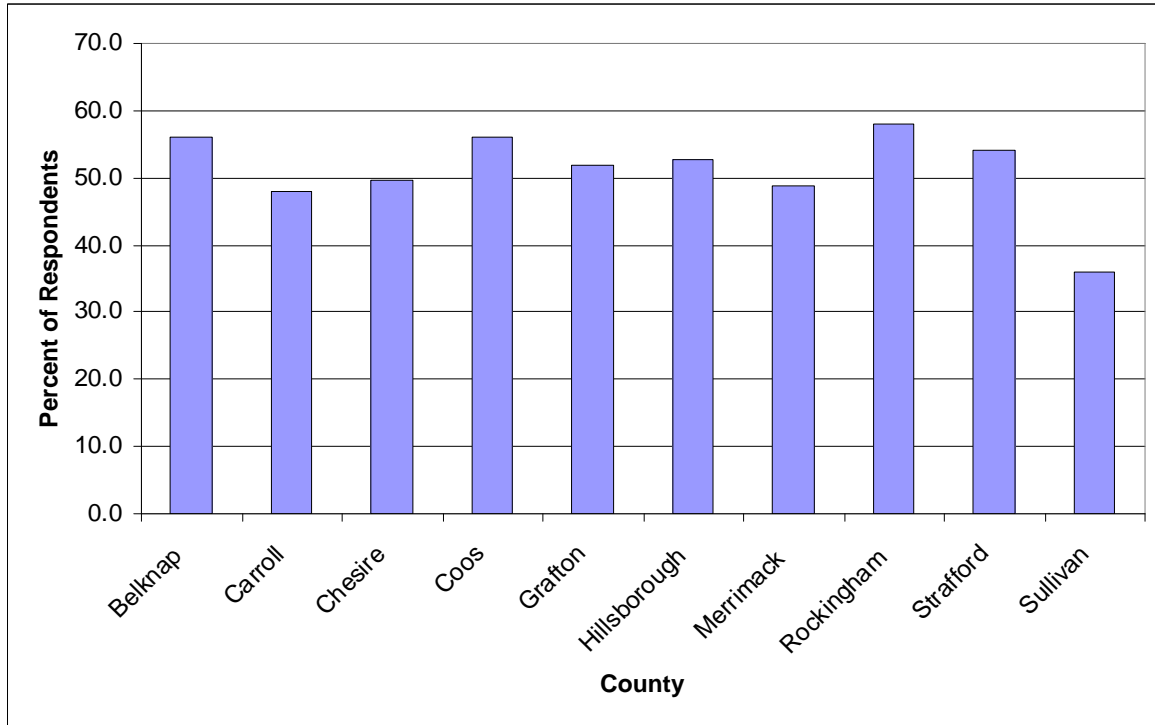

Figure 24 Driving, by county

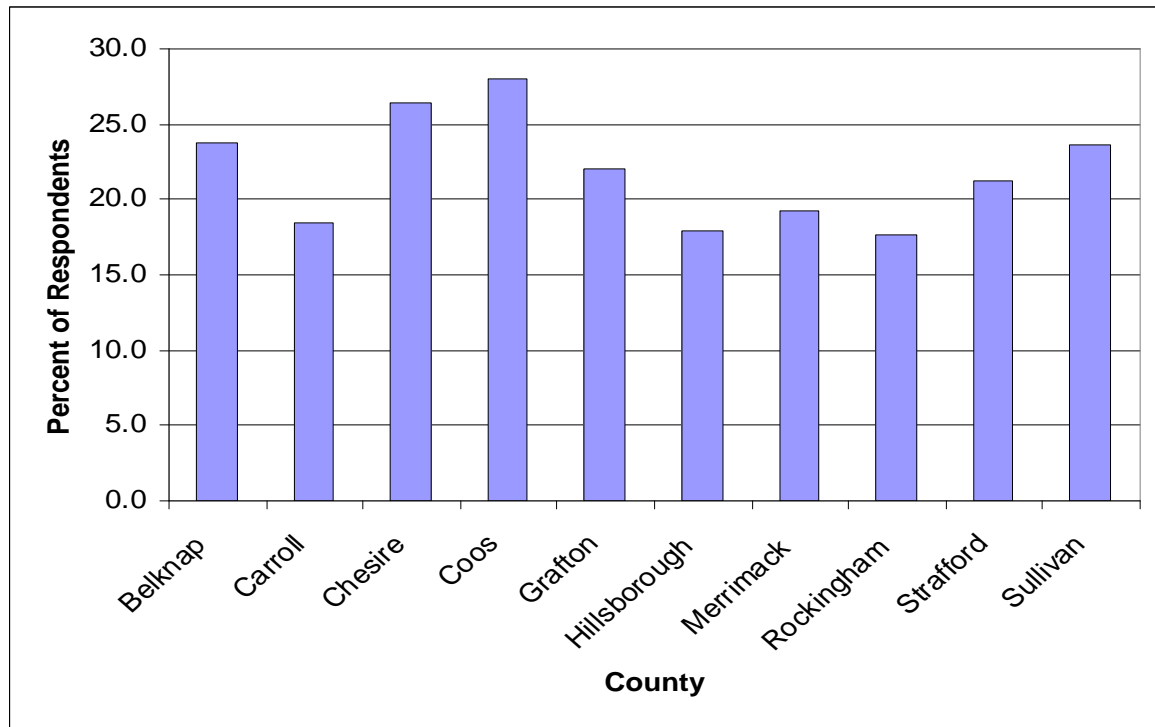

Figure 25 Breeding, by county

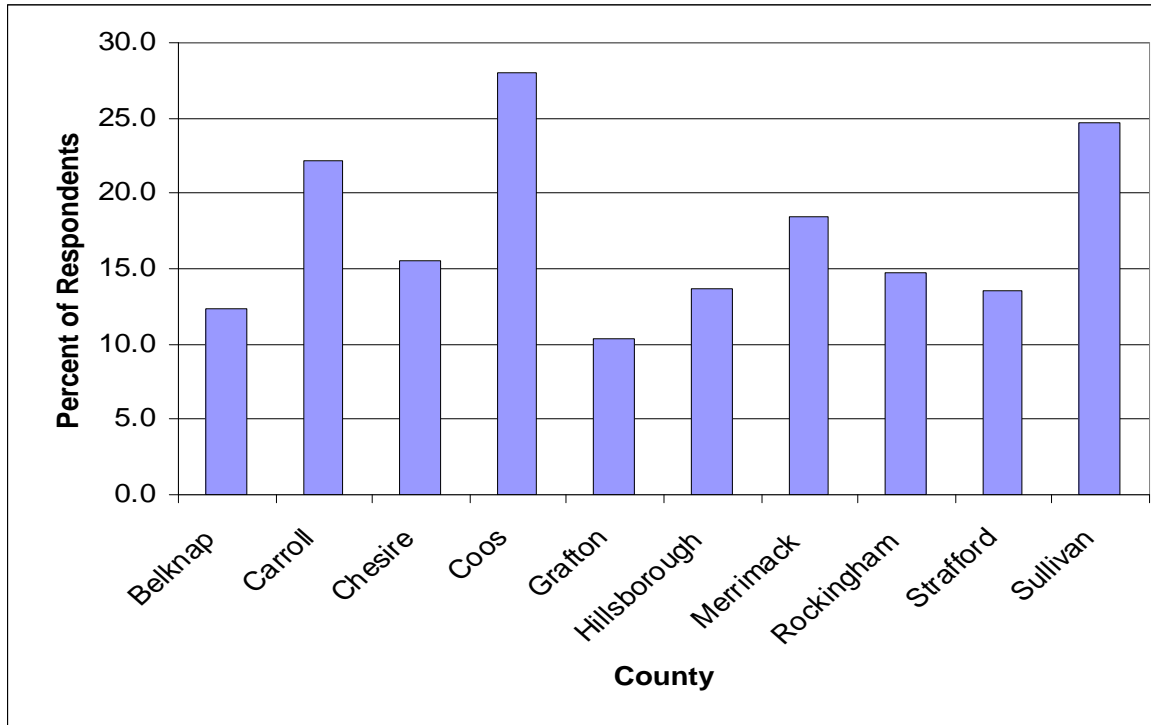

Figure 26 Participation in parades, fairs, and drills, by county

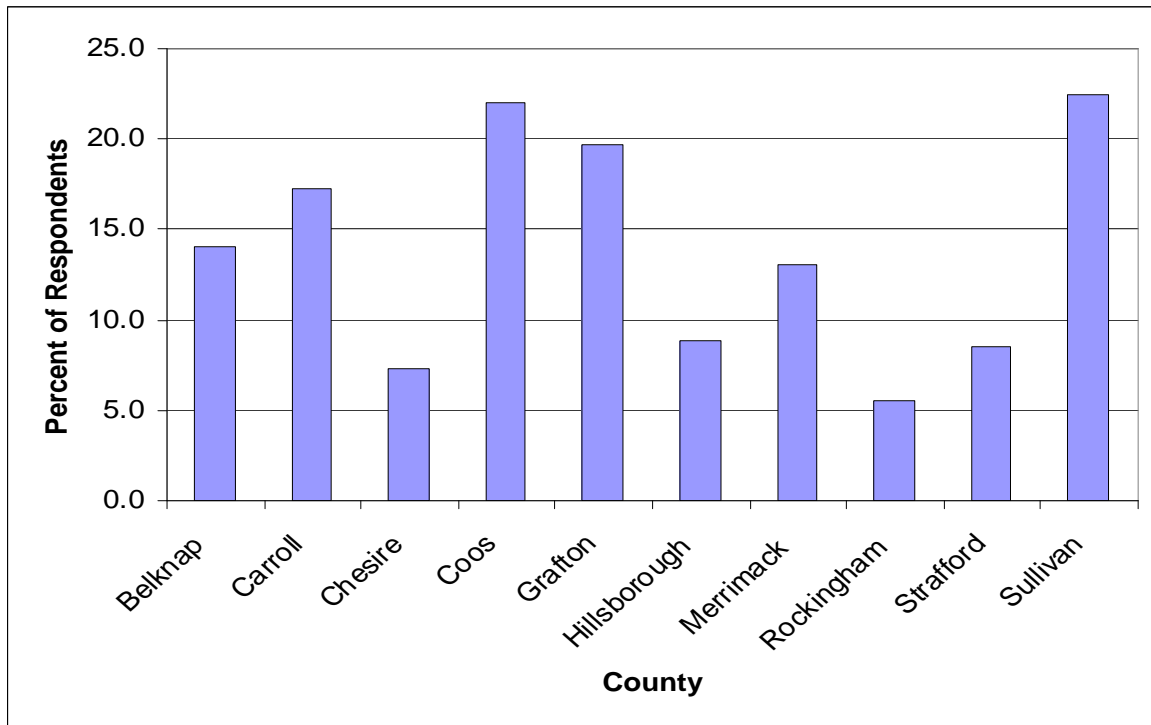

Figure 27 Average number of miles traveled with equines to shows, trail rides, pleasure riding, and health care in the past twelve months, by county

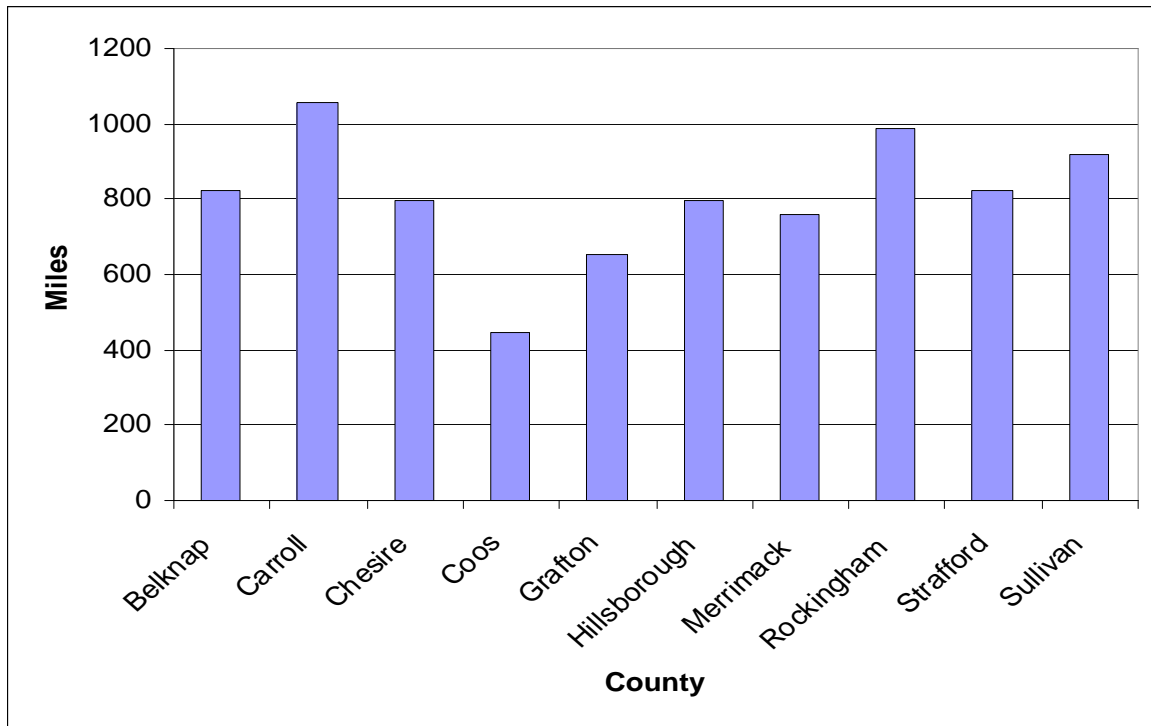

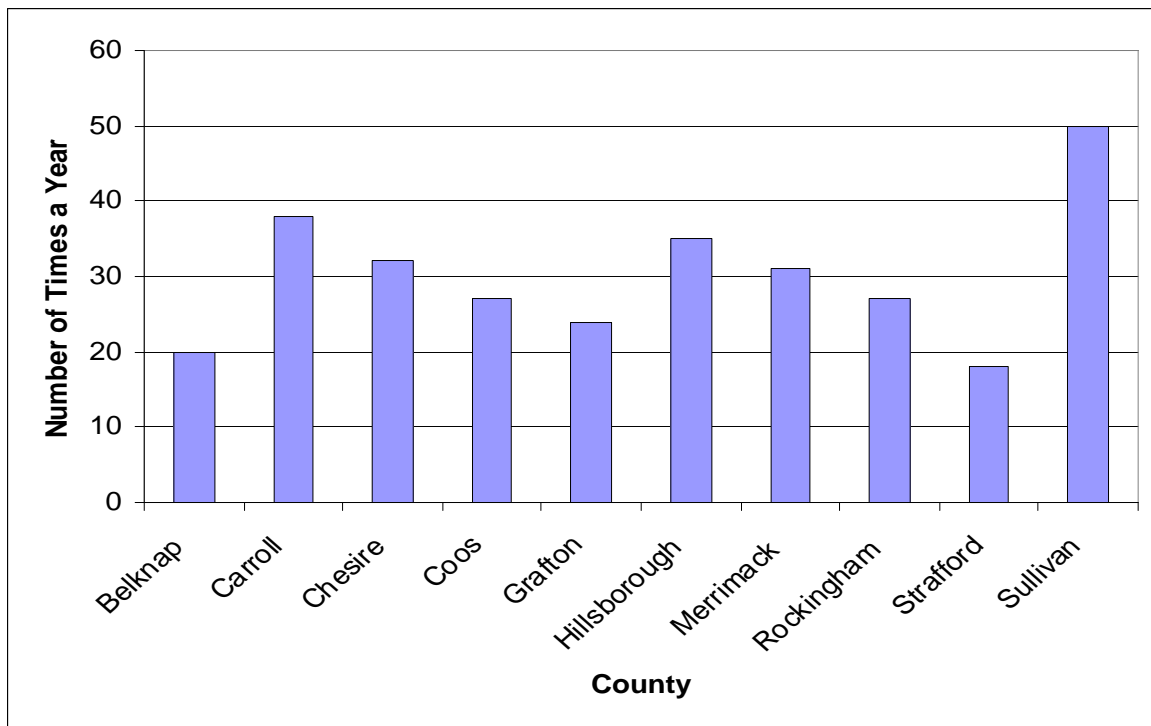

Figure 28 Average number of times a year respondents trail rode on public lands, by county

## D. Equine Housing

Figure 29 Box-stall use, by county

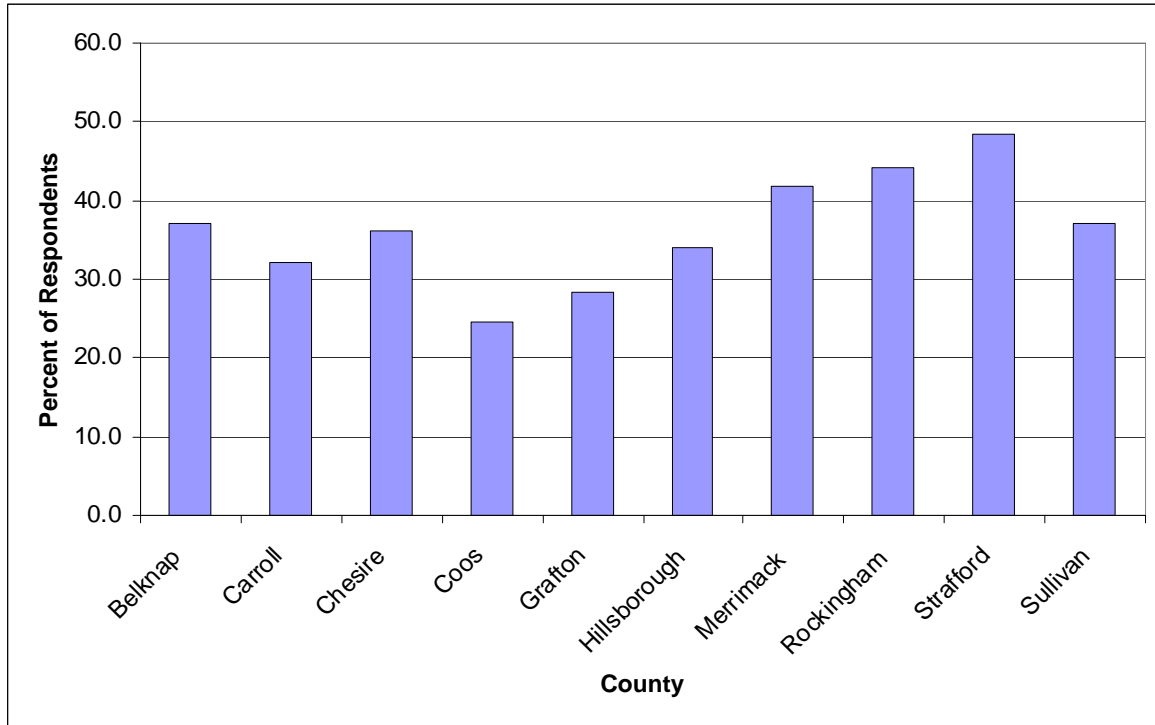

Figure 30 Use of combination box stall/paddock, by county

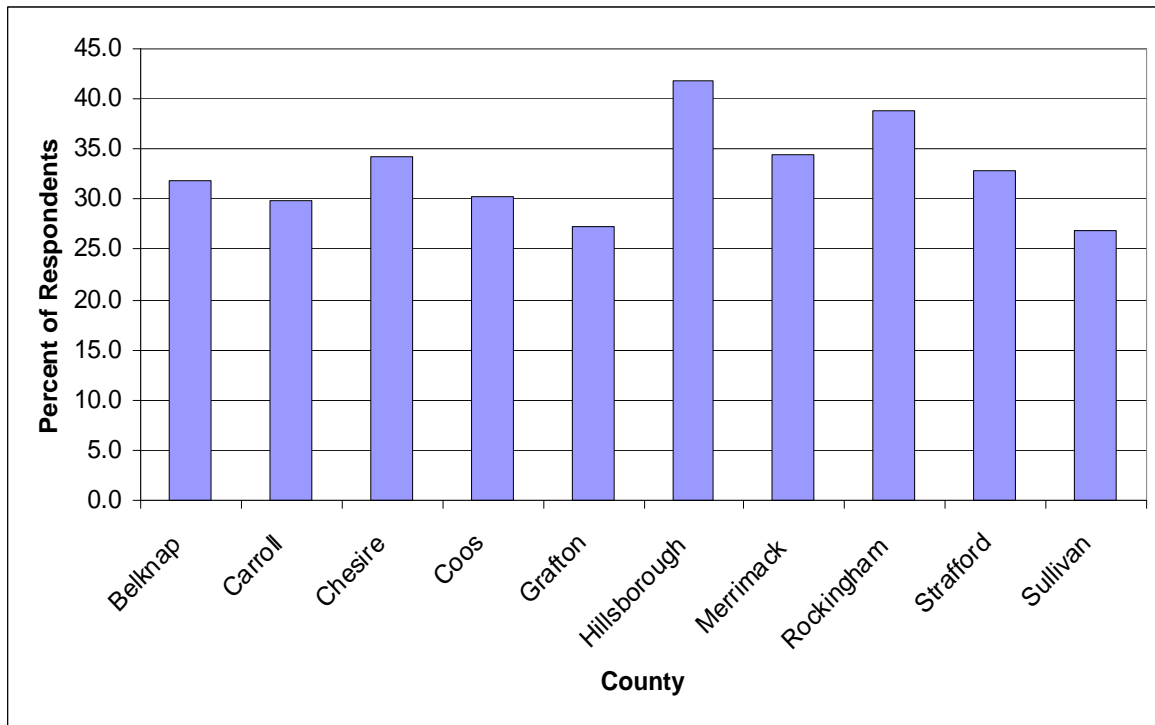

Figure 31 Use of run-in shed/paddock or pasture combination, by county

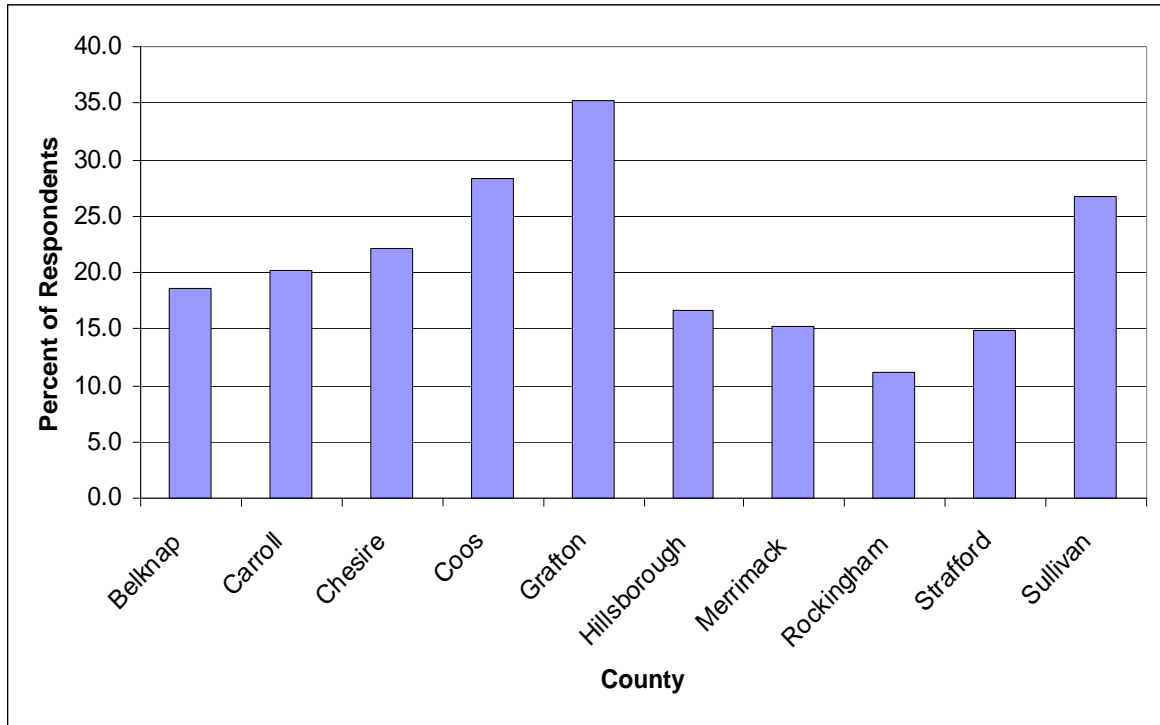

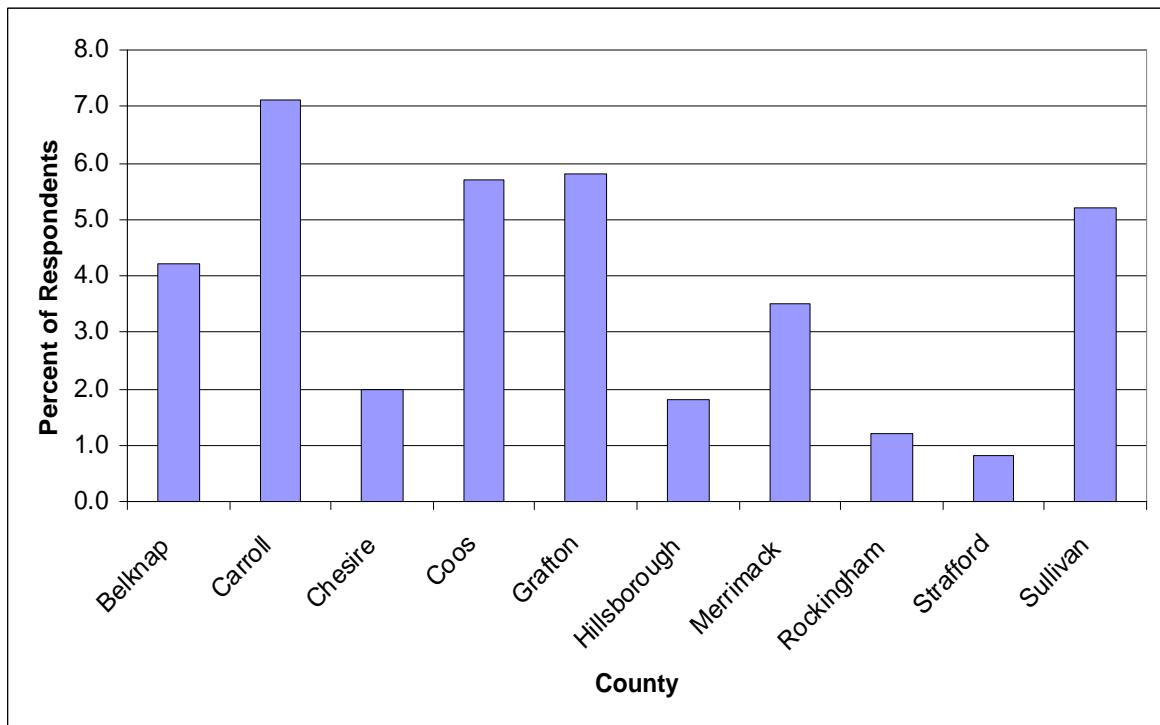

Figure 32 Pasture use, by county

## E. Equine Health

|                      |                  |
|----------------------|------------------|
| E1. Deworming        | Figures 33 to 37 |
| E2. Vaccinations     | Figures 38 to 49 |
| E3. Shoeing/Trimming | Figures 50 to 52 |

Figure 33 Deworming equines four or more times a year, by county

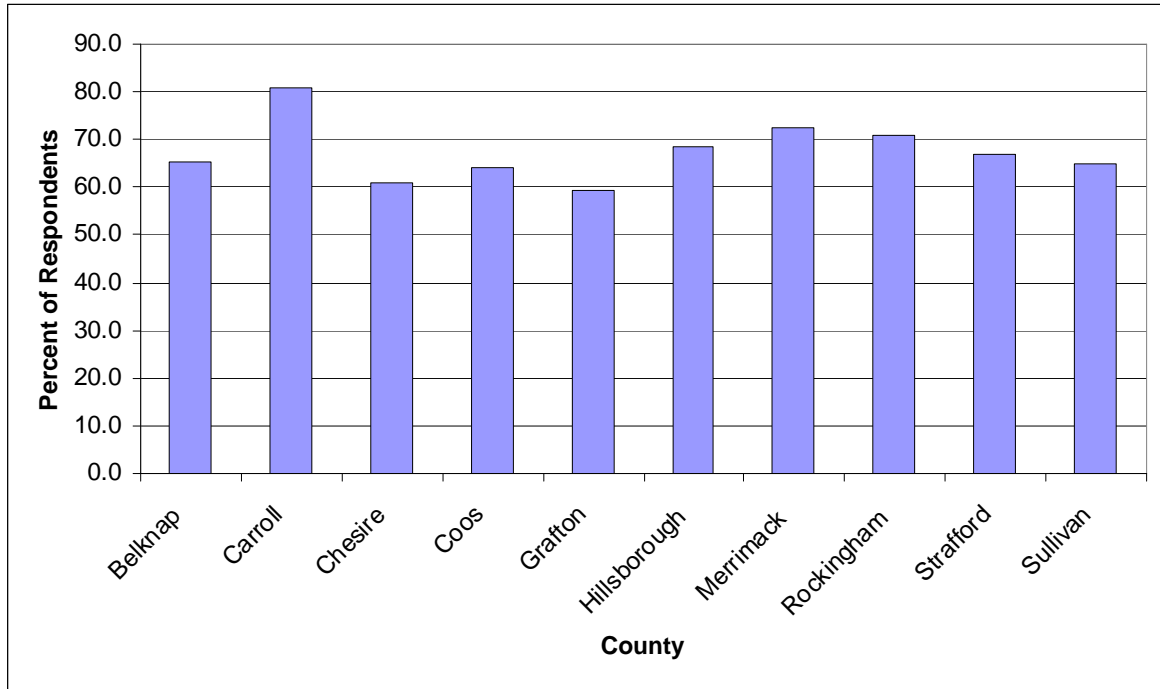

Figure 34 Deworming equines three times a year, by county

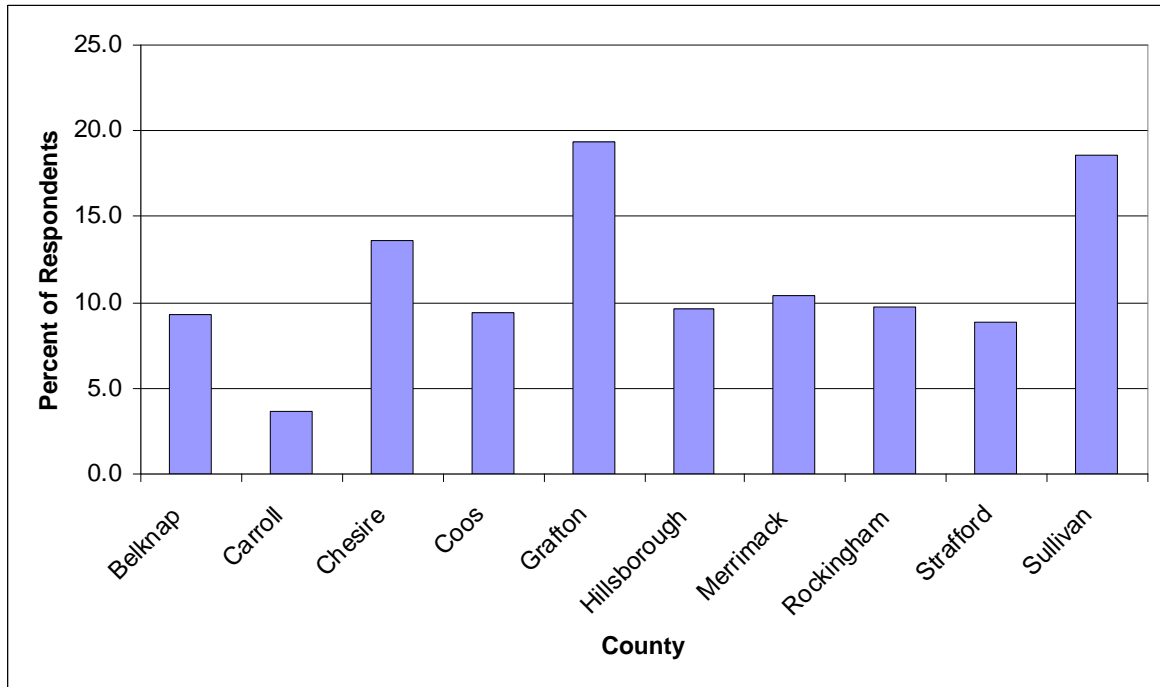

Figure 35 Daily deworming of equines, by county

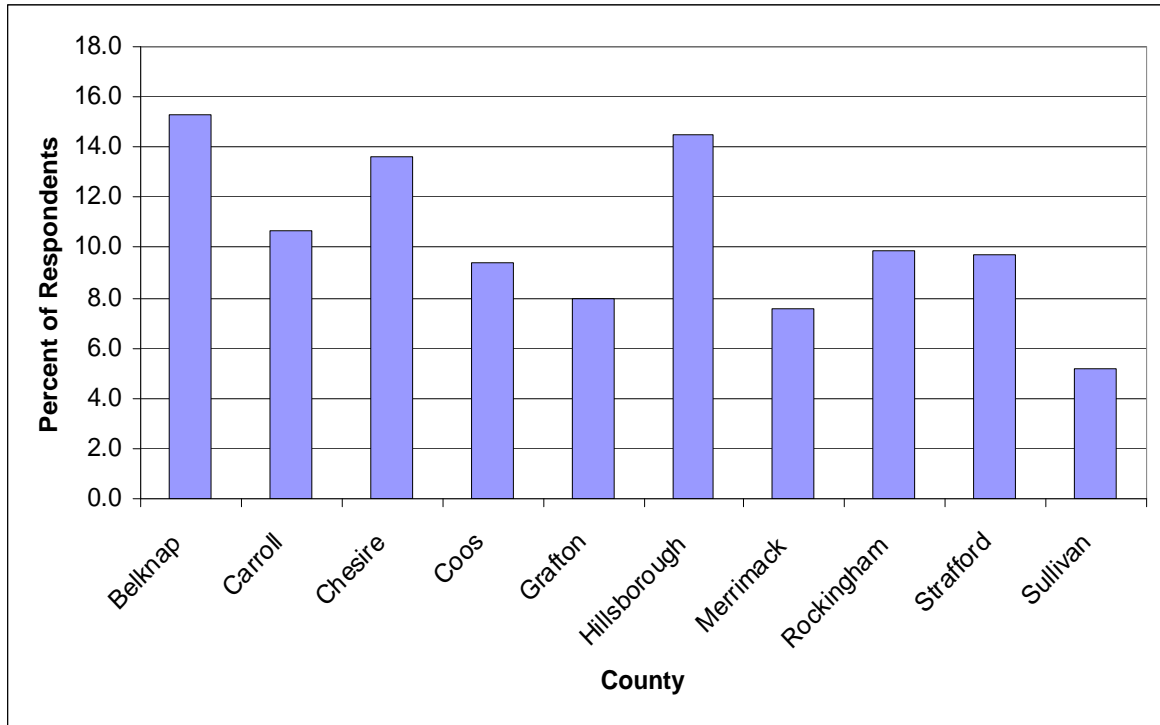

Figure 36 Deworming equines two times a year, by county

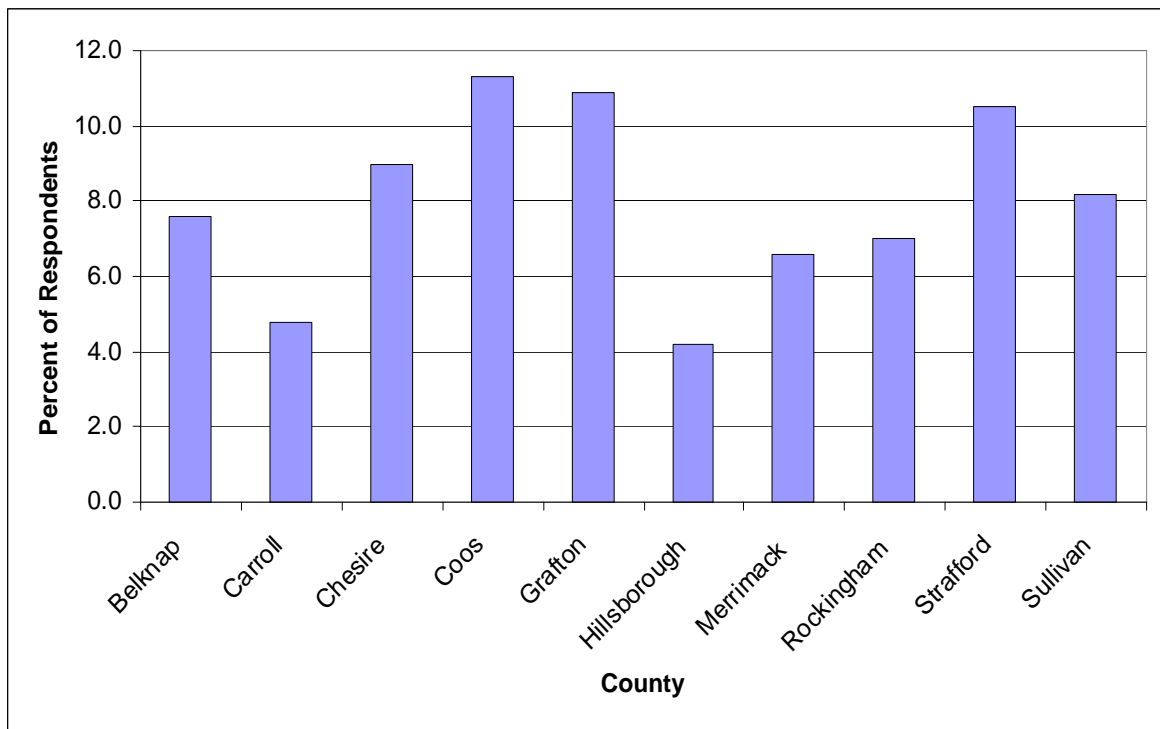

Figure 37 Respondents who dewormed equines themselves, by county

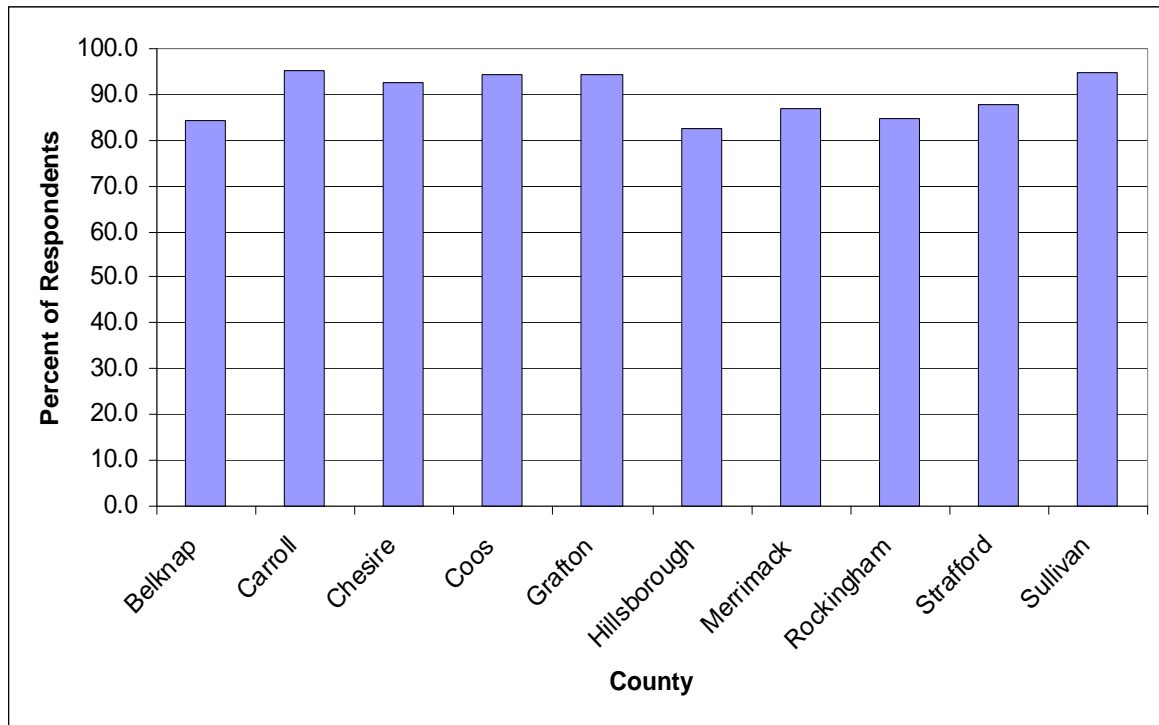

Figure 38 Vaccinations against rabies, by county

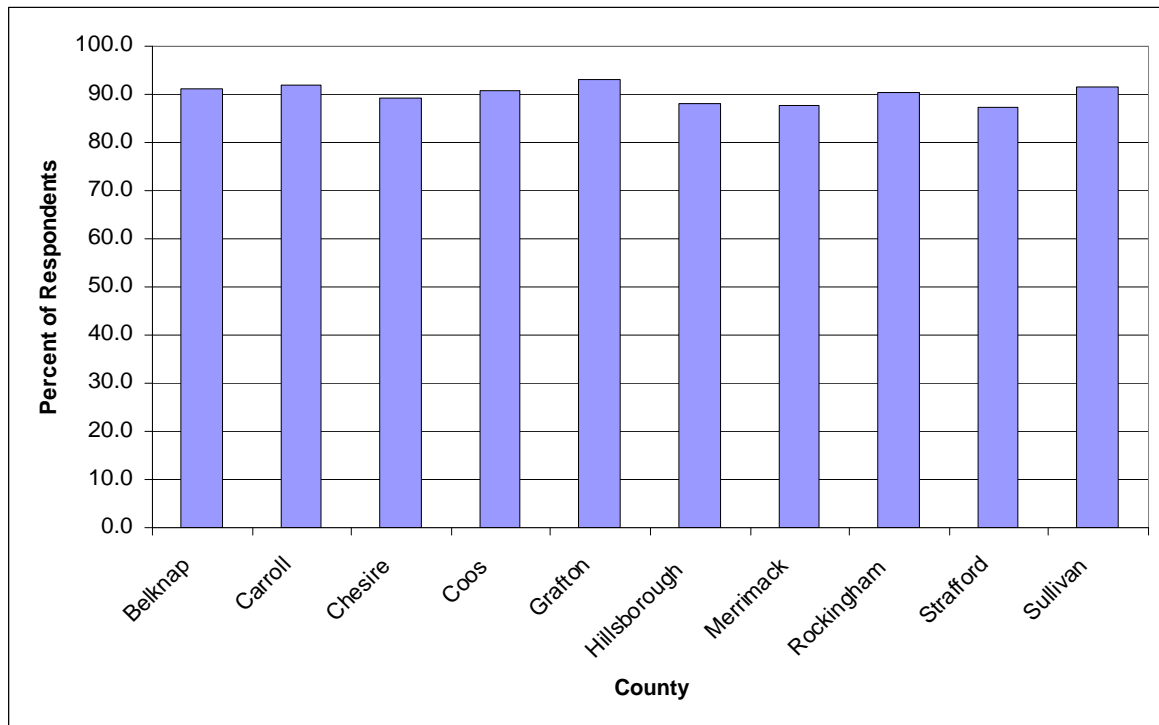

Figure 39 Vaccinations against Eastern/Western encephalomyelitis

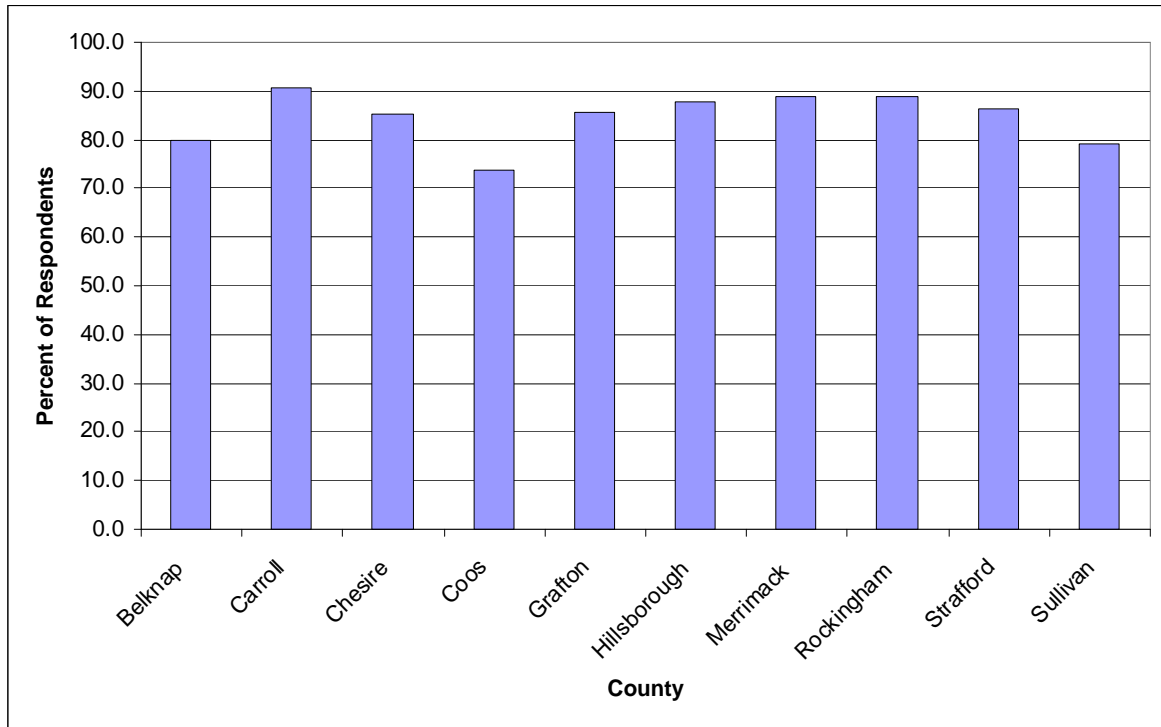

Figure 40 Vaccinations against tetanus, by county

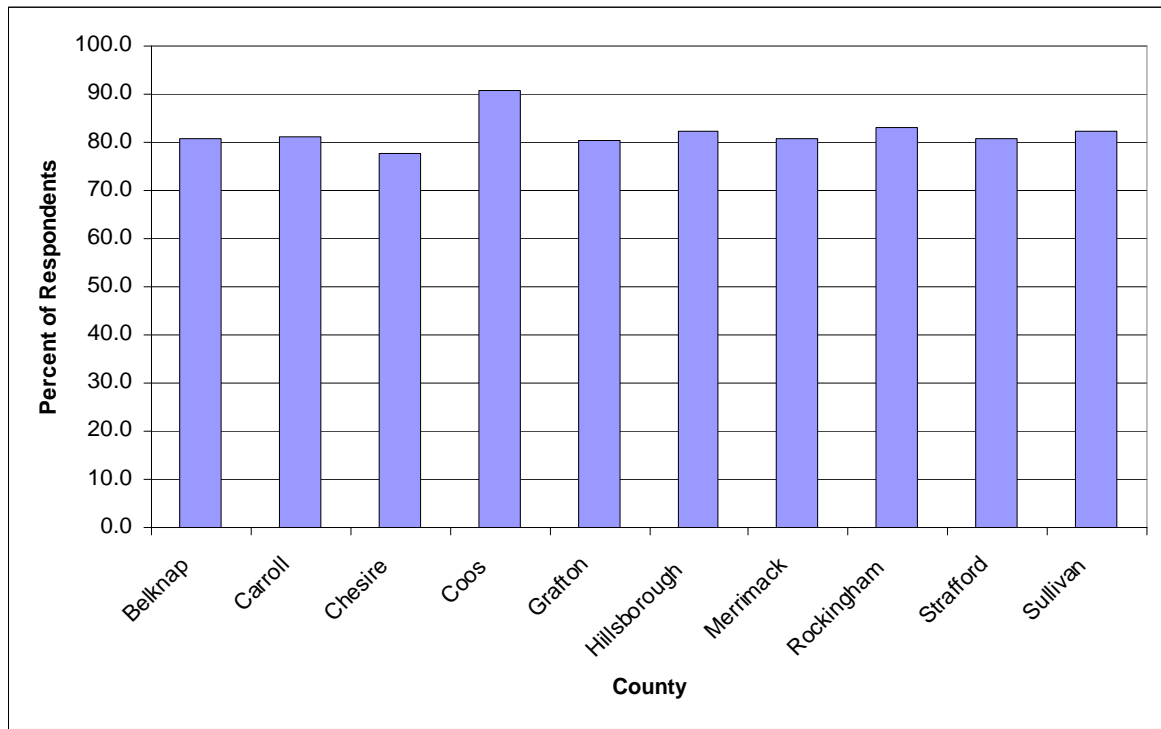

Figure 41 Vaccinations against Rhinopneumonitis, by county

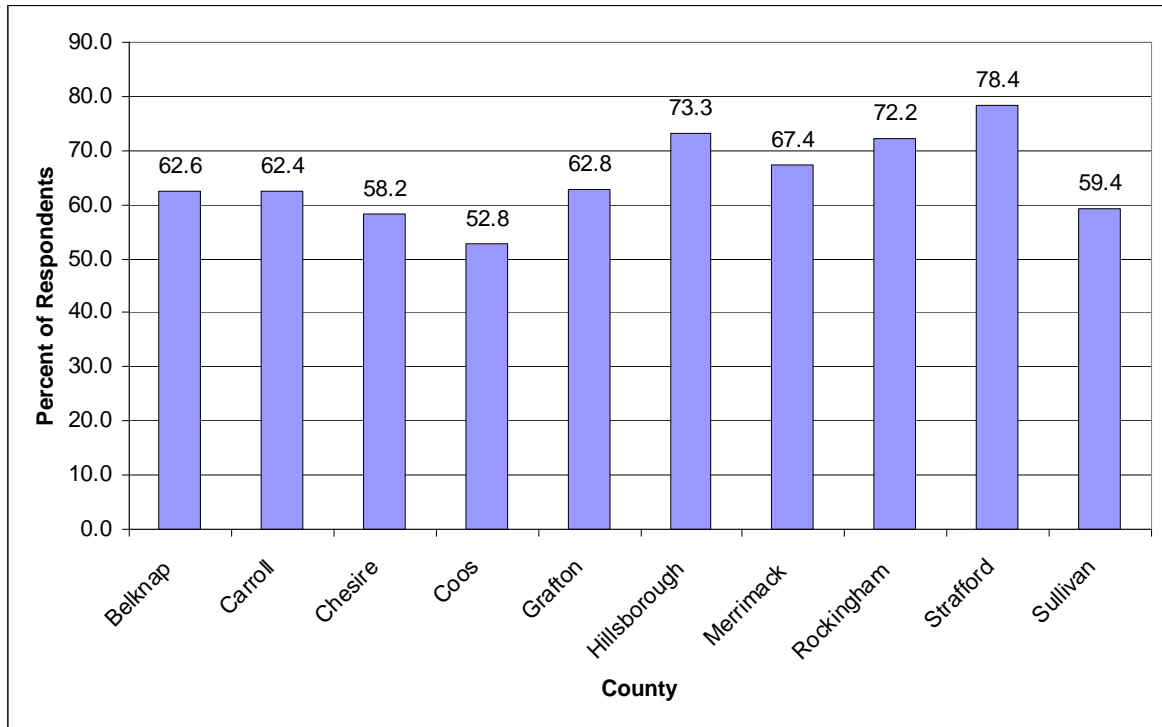

Figure 42 Vaccinations against Influenza, by county

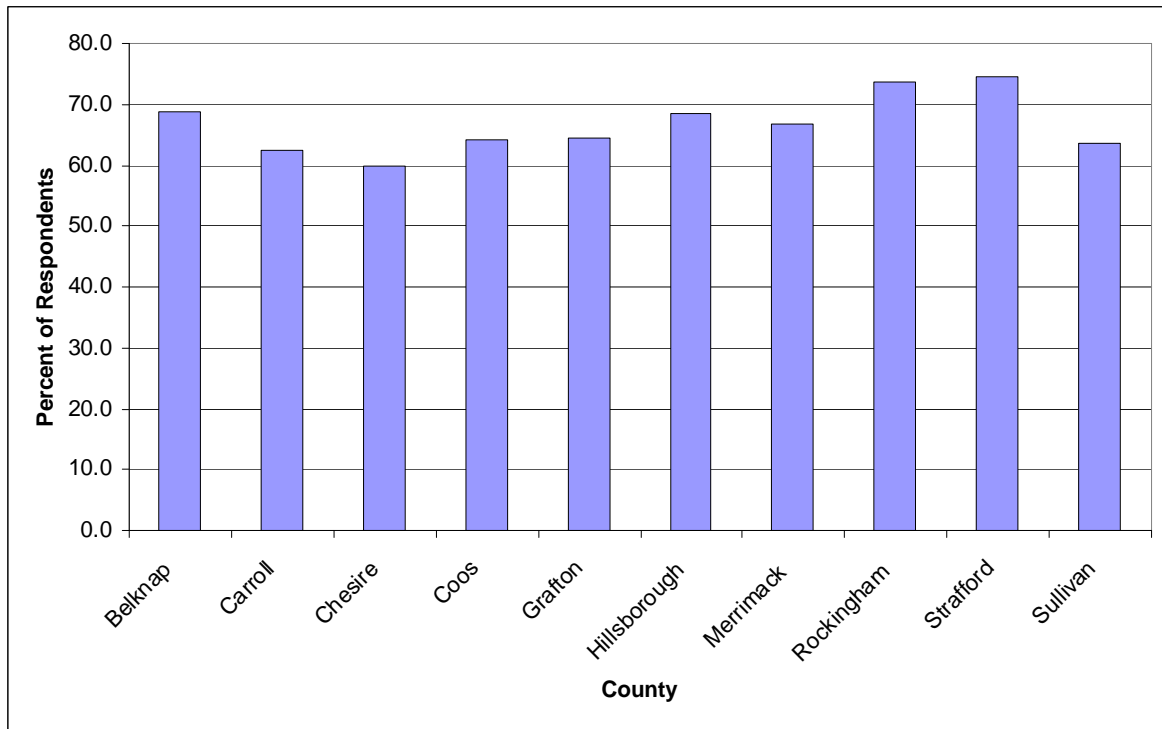

Figure 43 Vaccinations against West Nile virus, by county

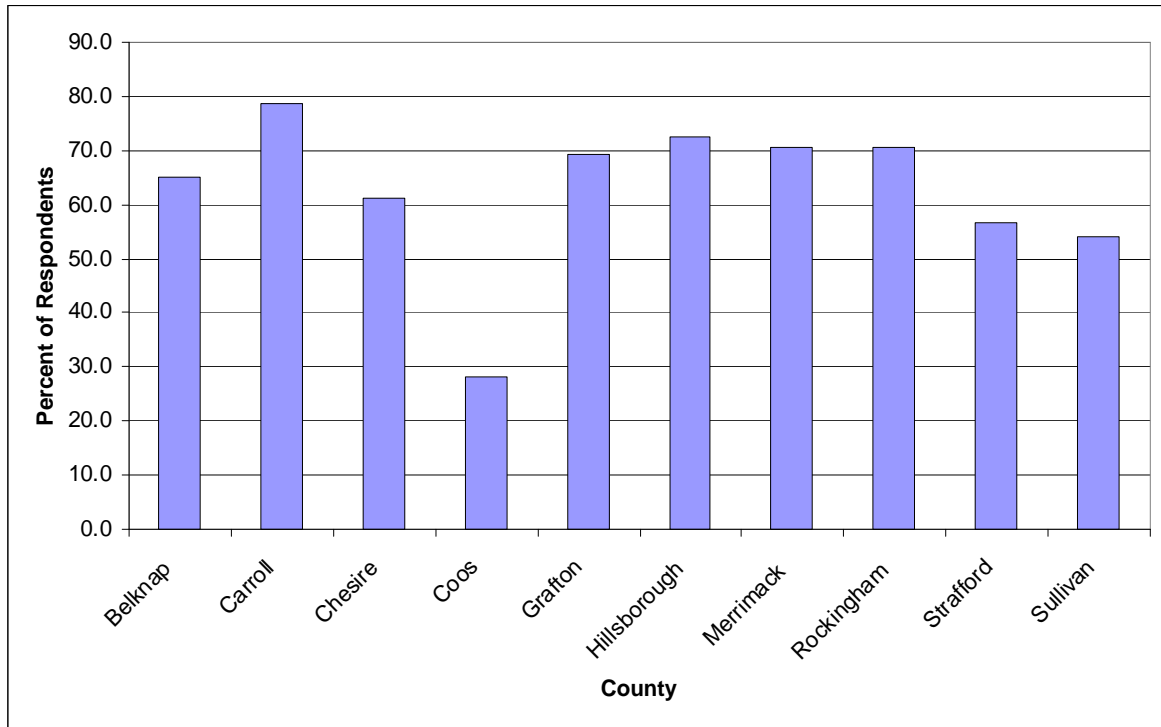

Figure 44 Vaccinations against Strangles, by county

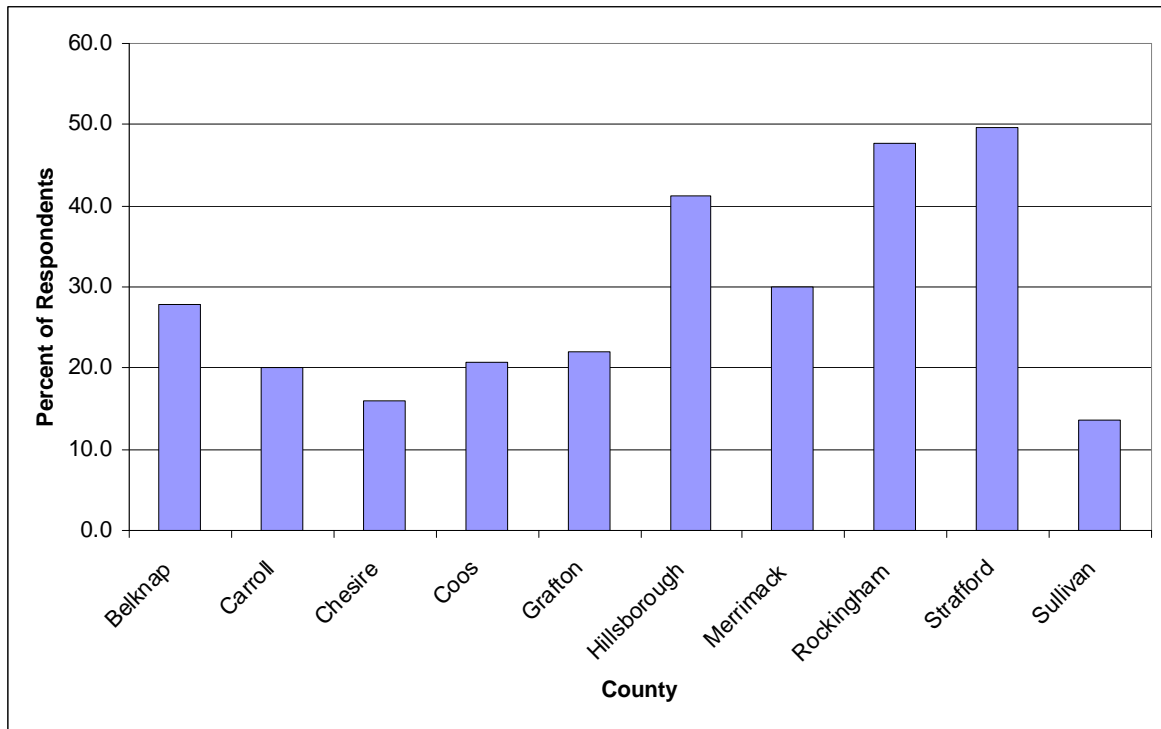

Figure 45 Vaccinations against Potomac Equine Fever, by county

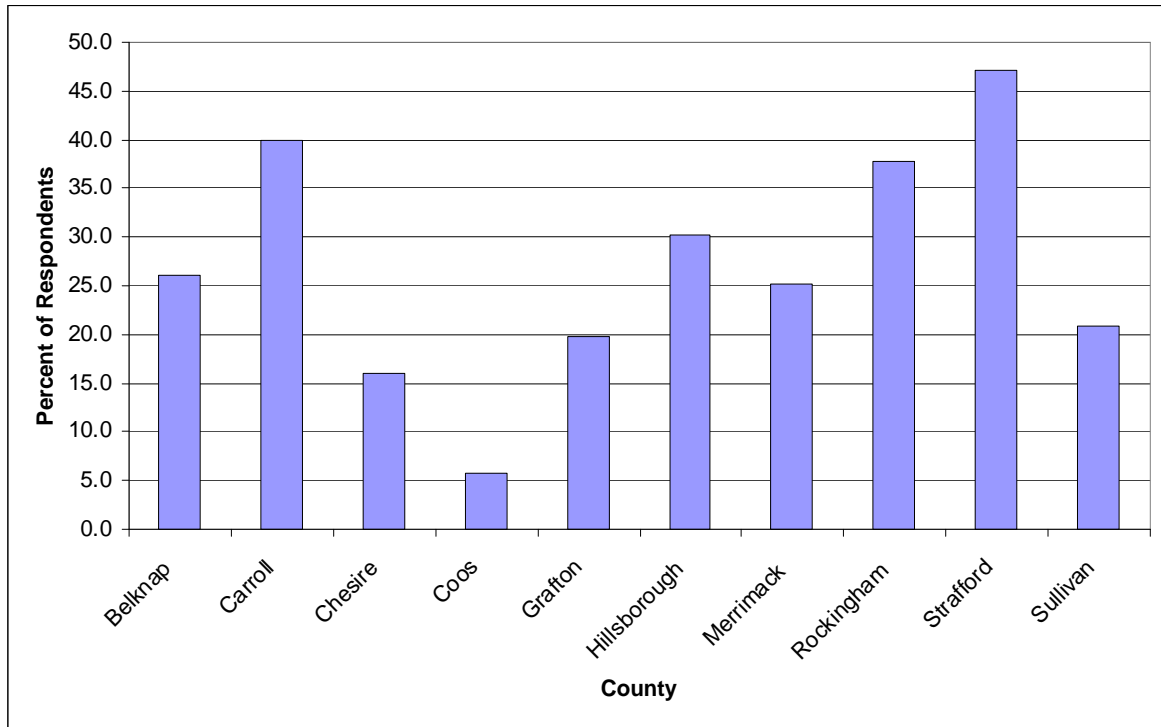

Figure 46 Vaccinations against Equine protozoal myelitis (EPM), by county

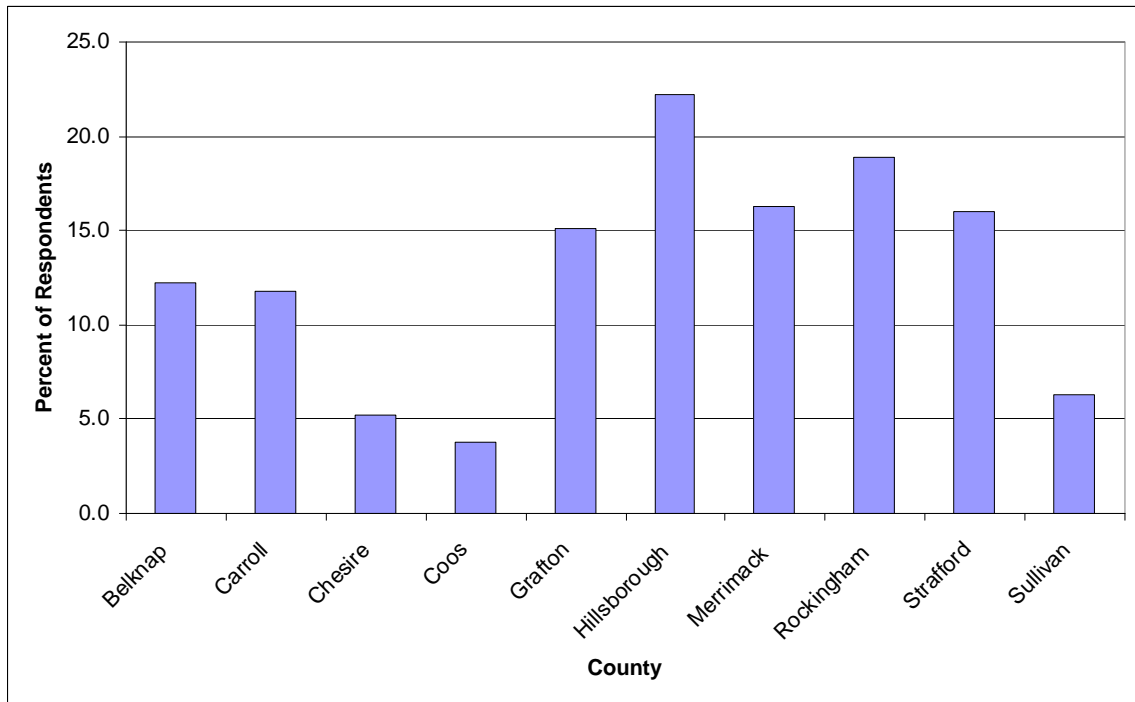

Figure 47 Respondents who did not vaccinate their equines, by county

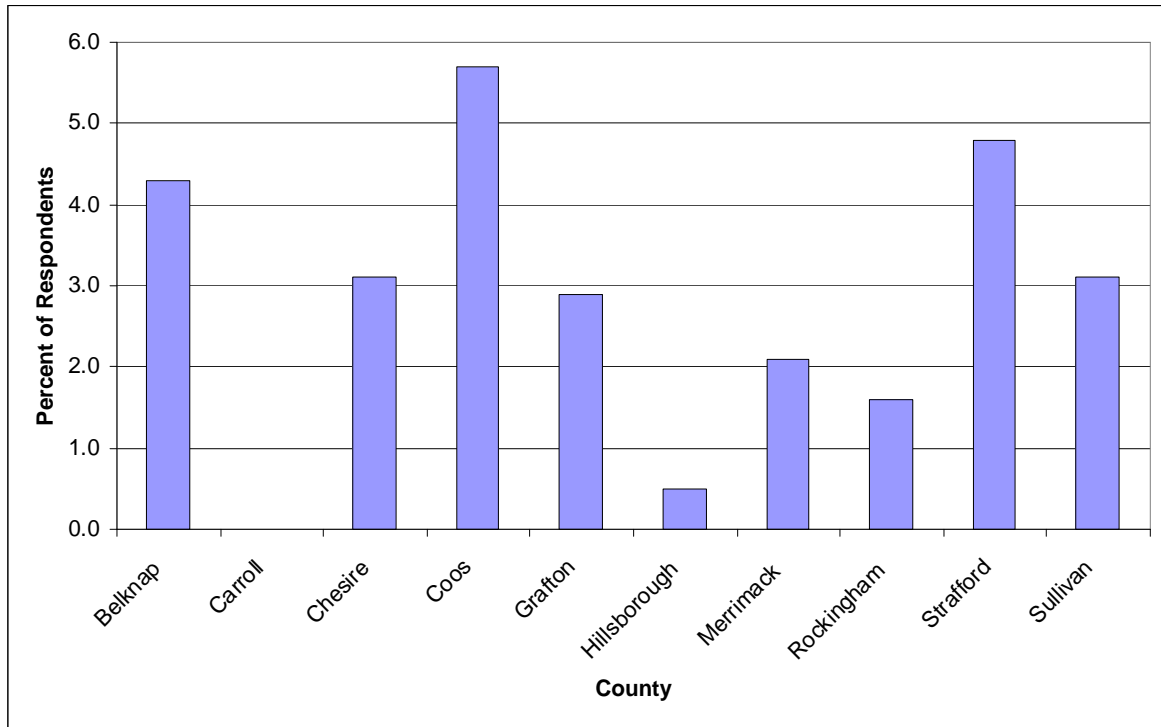

Figure 48 Respondents who had veterinarians vaccinate their equines, by county

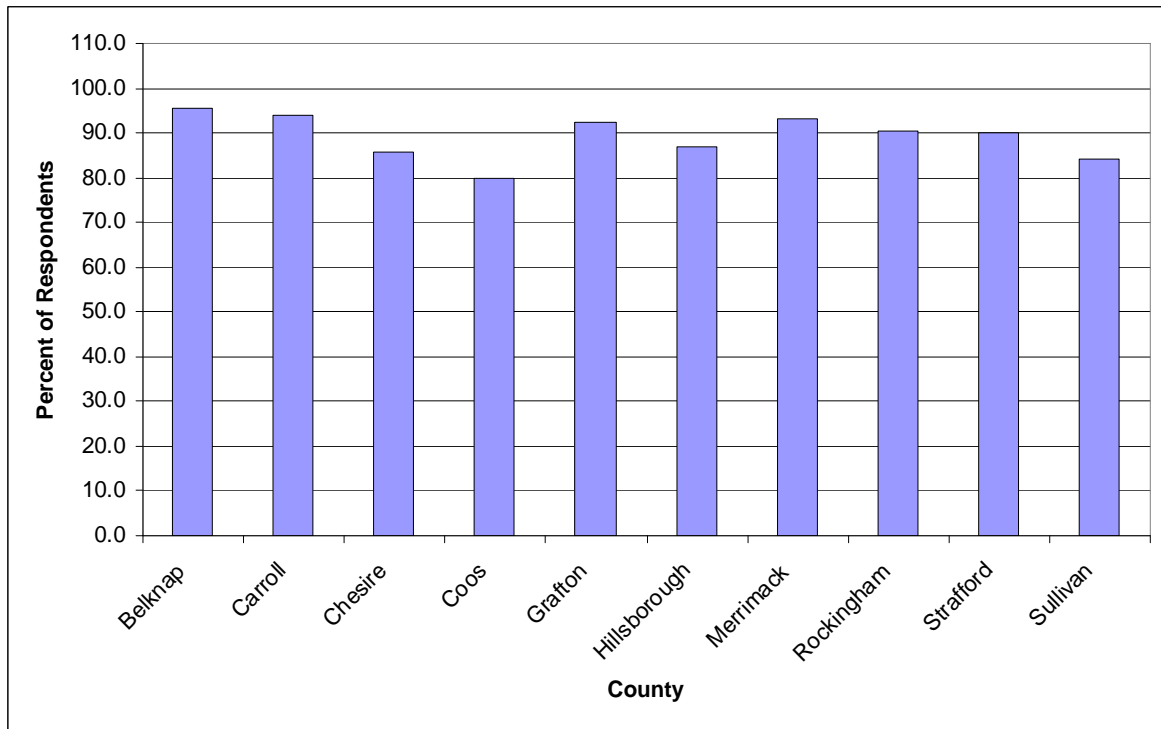

Figure 49 Respondents who vaccinated their equines themselves, by county

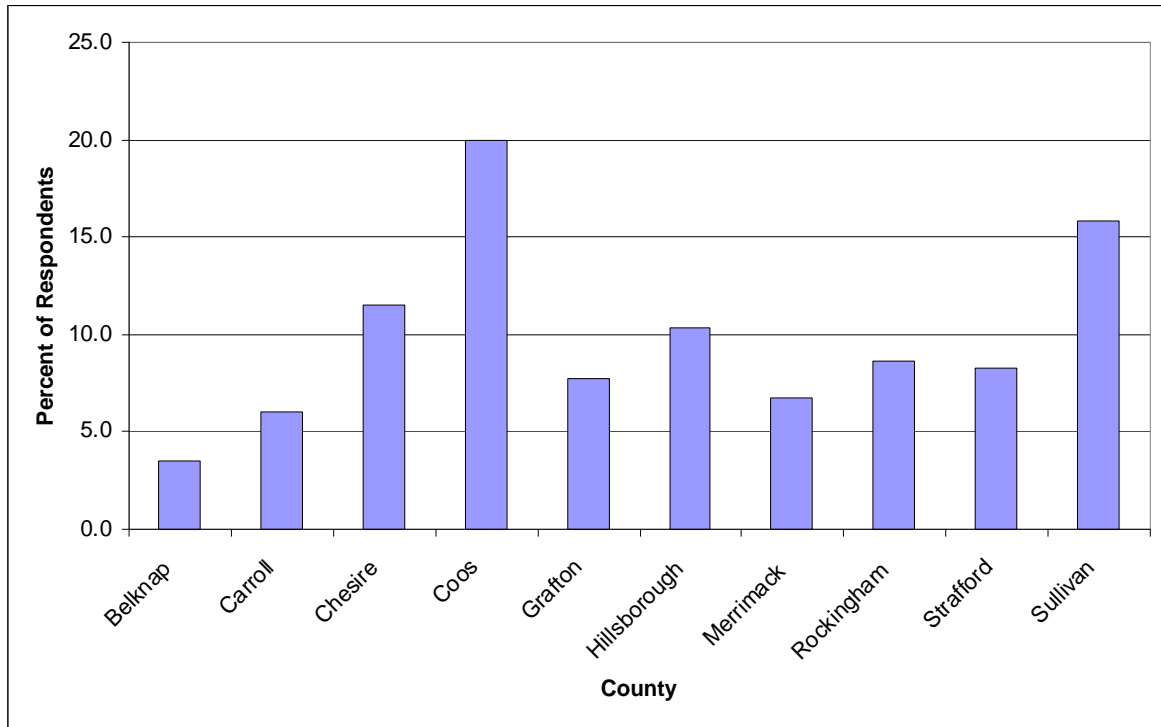

Figure 50 Respondents who shod or trimmed their equines every seven to eight weeks, by county

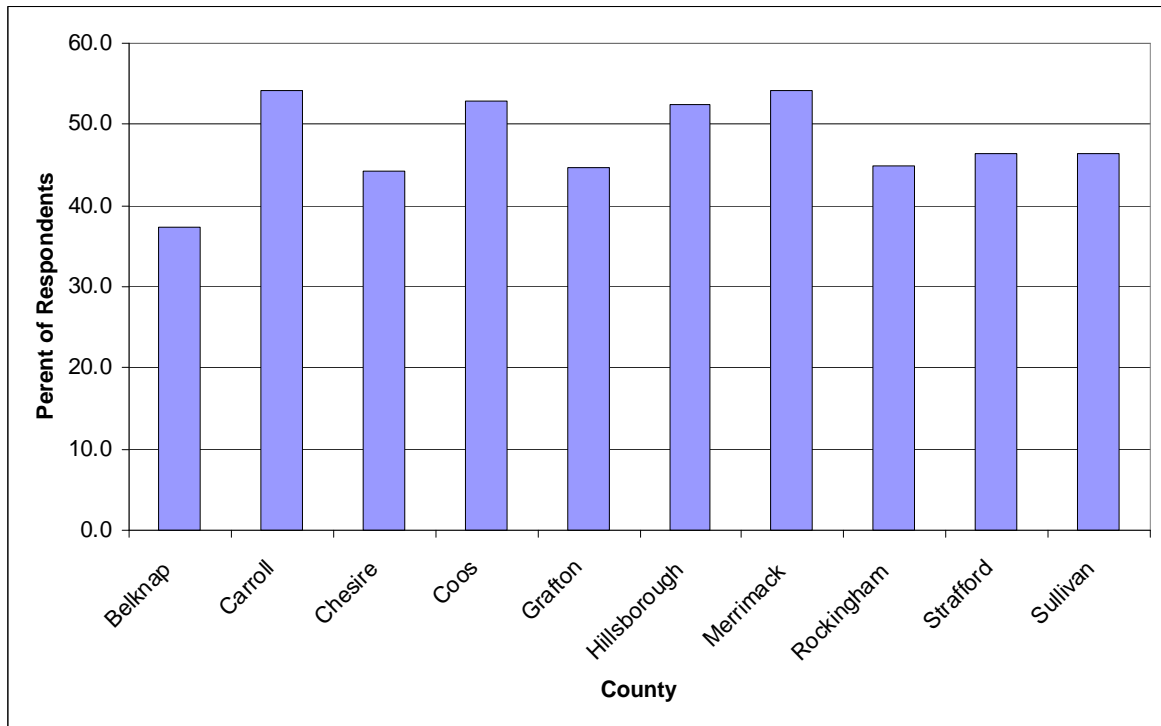

Figure 51 Respondents who shod or trimmed their equines every five to six weeks, by county

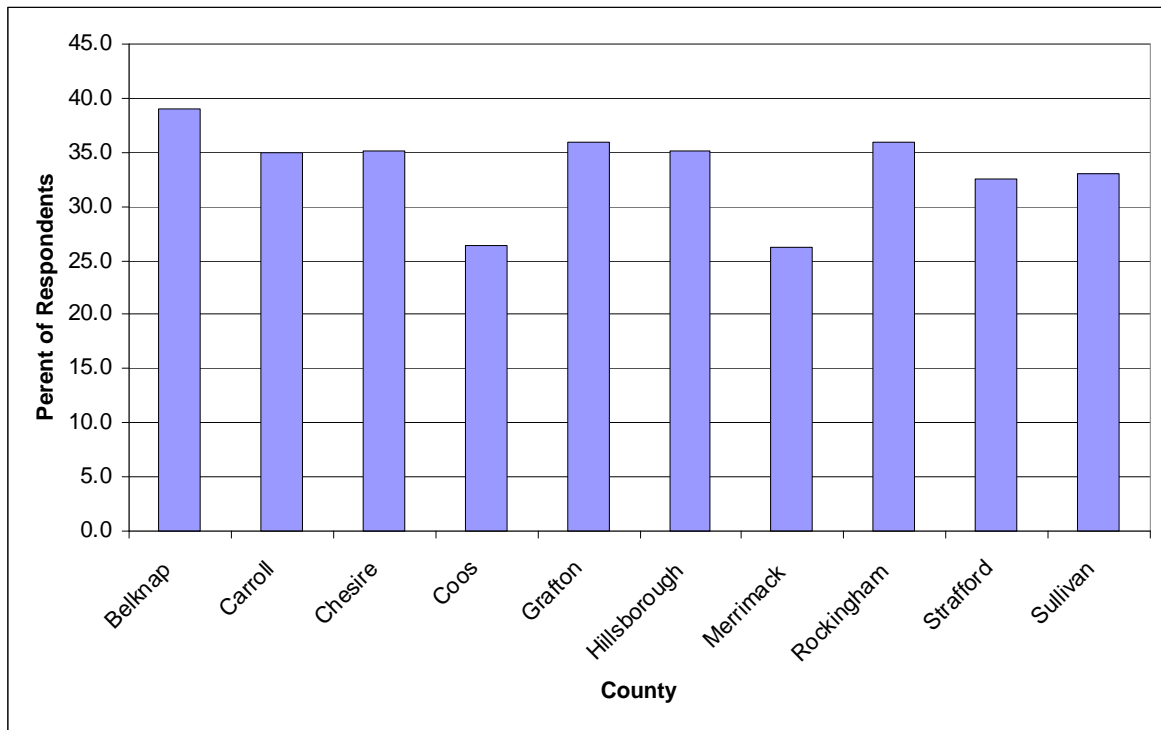

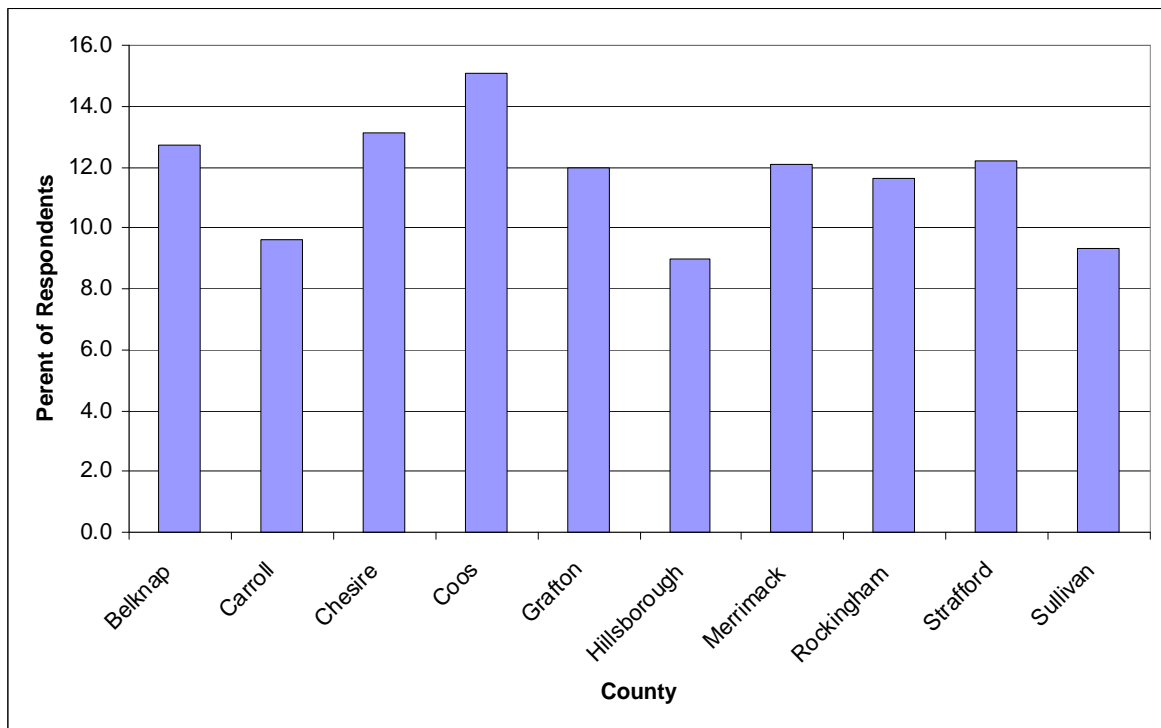

Figure 52 Respondents who shod or trimmed their equines every nine to ten weeks, by county

## F. Insurance

Figure 53 Respondents who had no insurance coverage for equines, by county

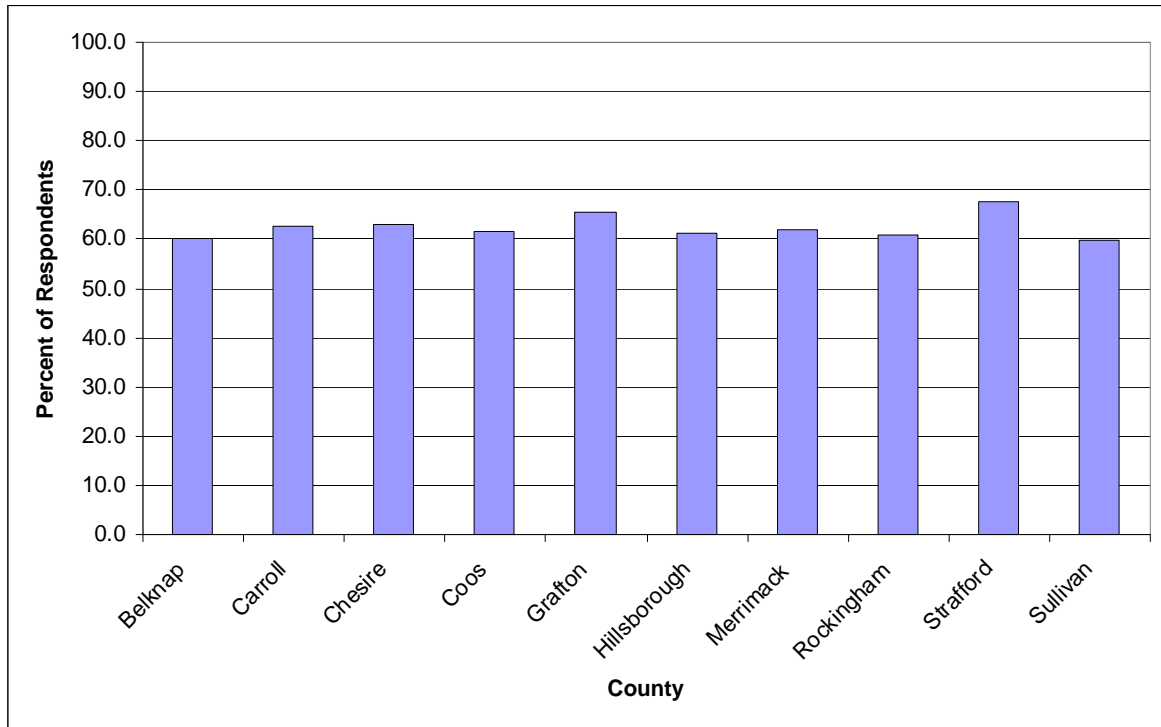

Figure 54 Respondents who had liability insurance for their equines, by county

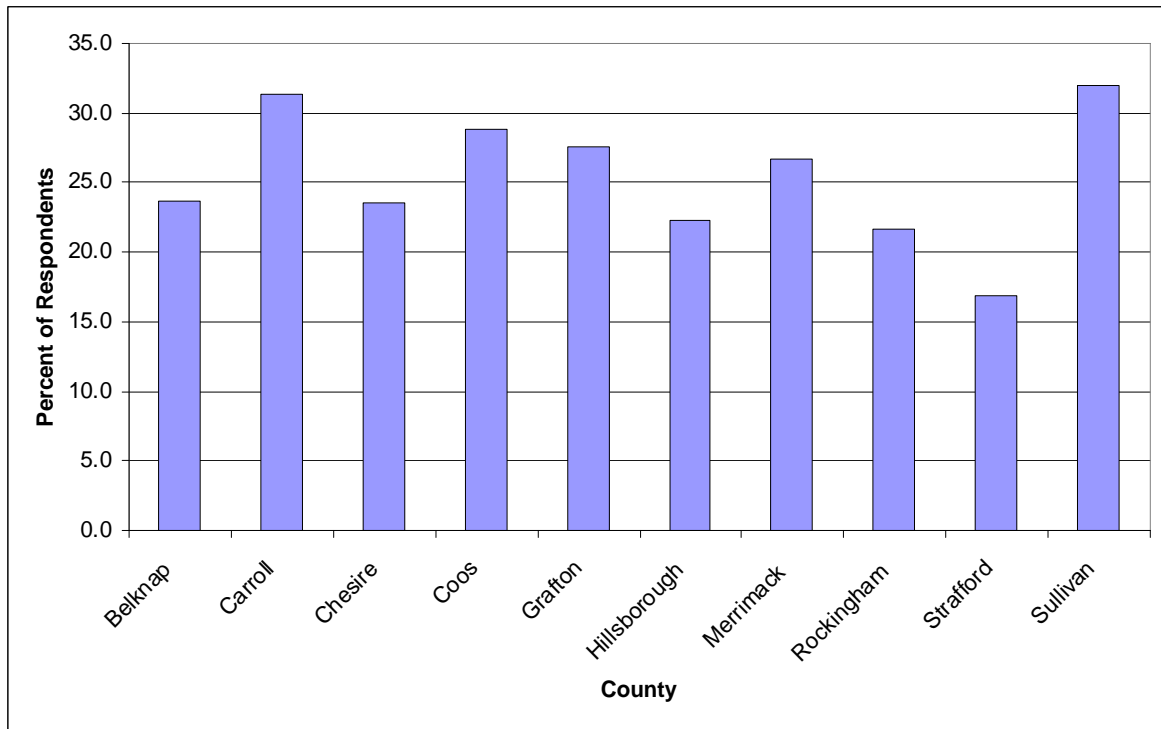

Figure 55 Respondents who had mortality insurance for their equines, by county

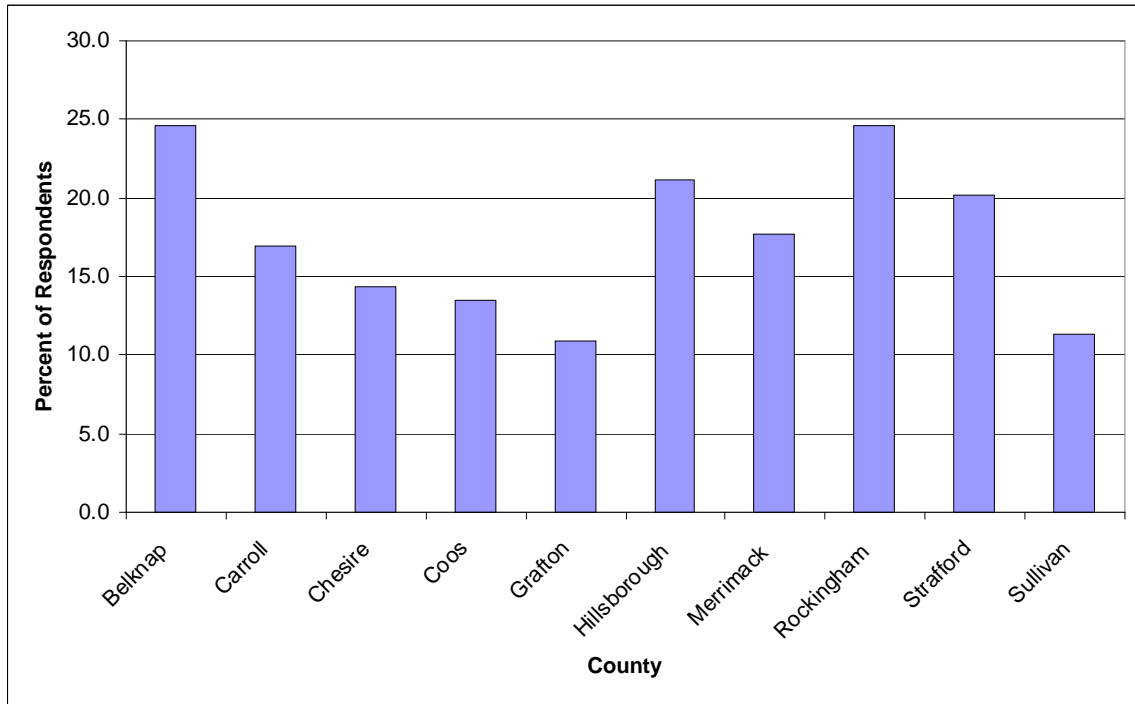

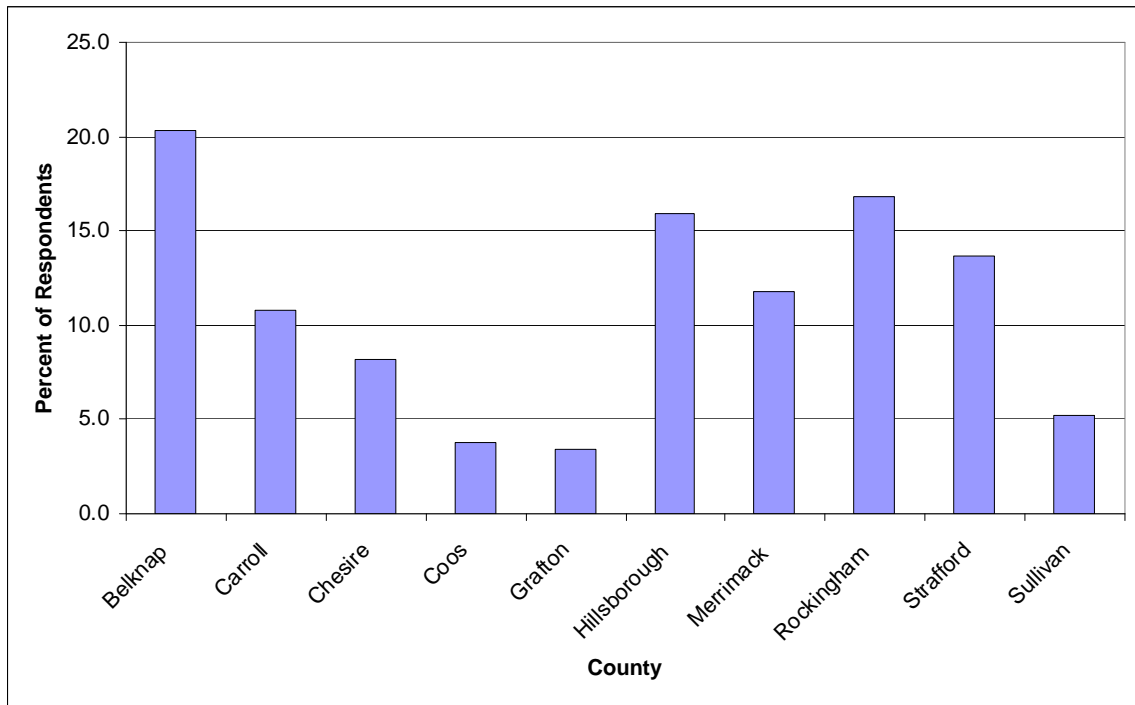

Figure 56 Respondents who had surgical insurance for their equines, by county

## G. Locations Where Equines Were Kept

Figure 57 Equines kept at own residence, by county

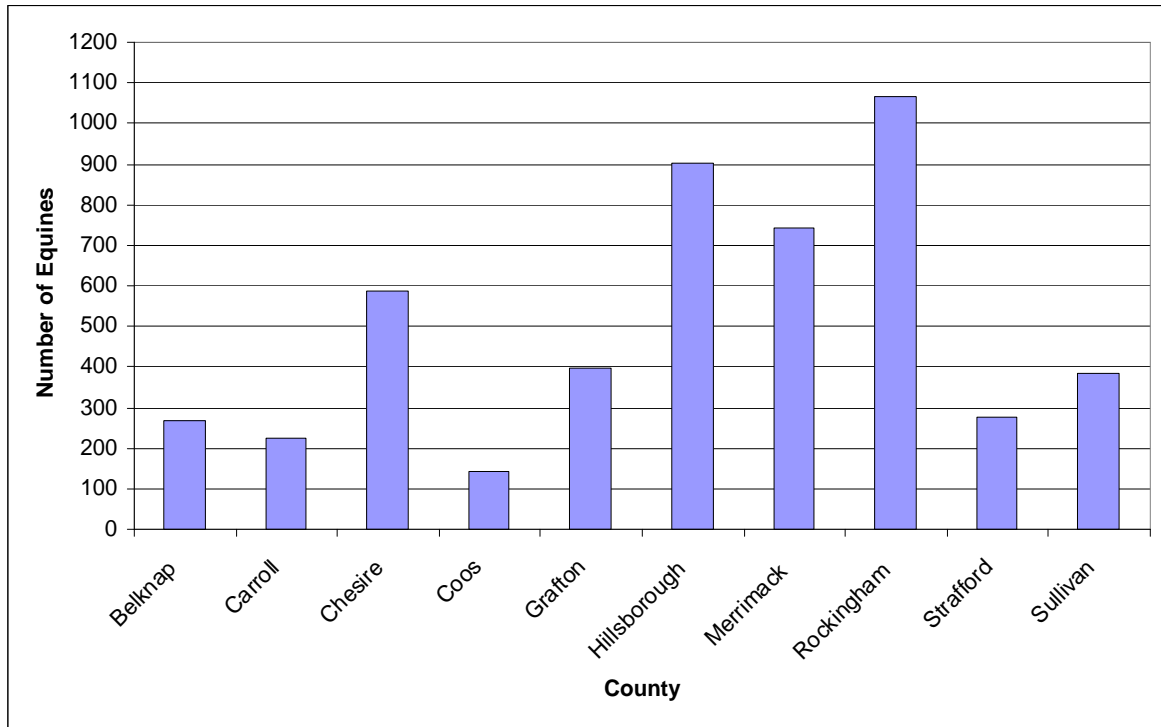

Figure 58 Equines kept at a commercial stable, by county

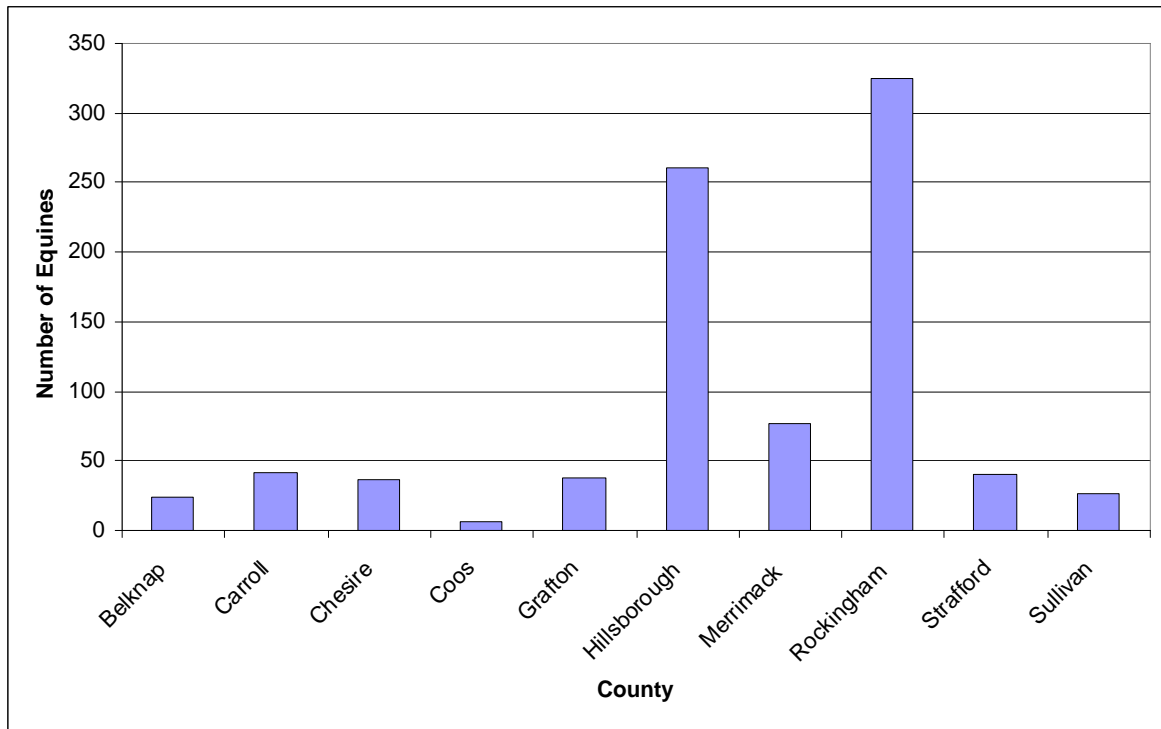

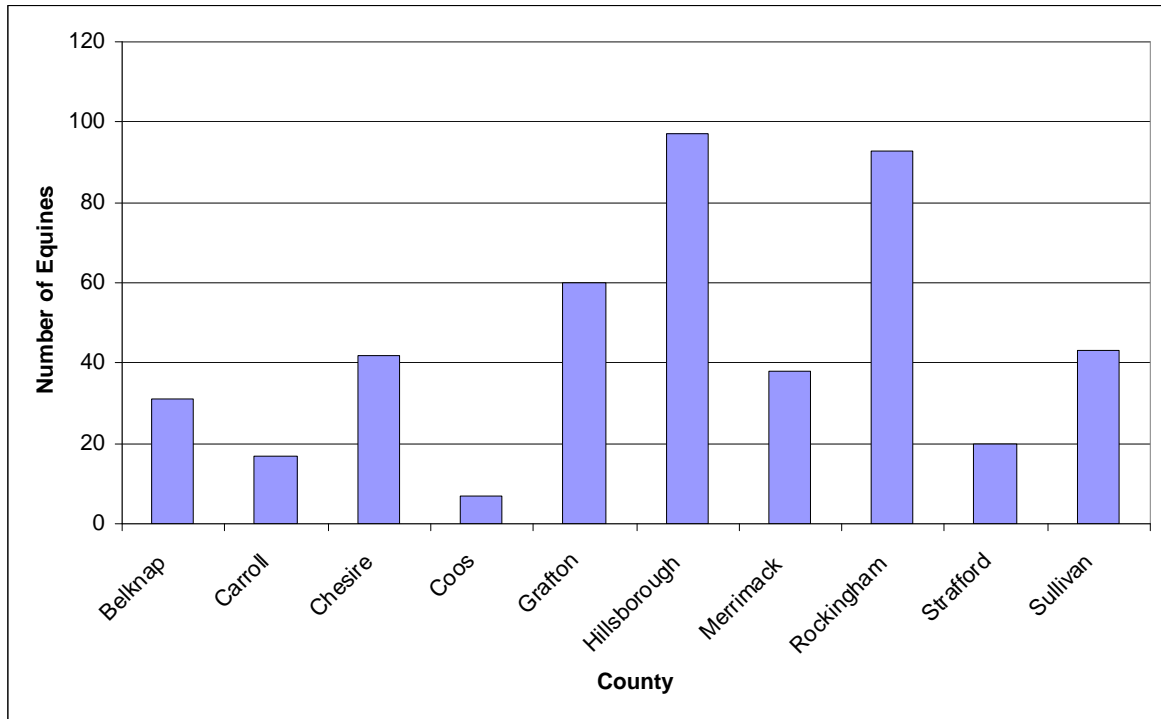

Figure 59 Equines kept at a friend or relative's residence, by county

## H. Land Used for Keeping Equines

Figure 60 Average size of land, owned or leased, used for keeping equines, by county

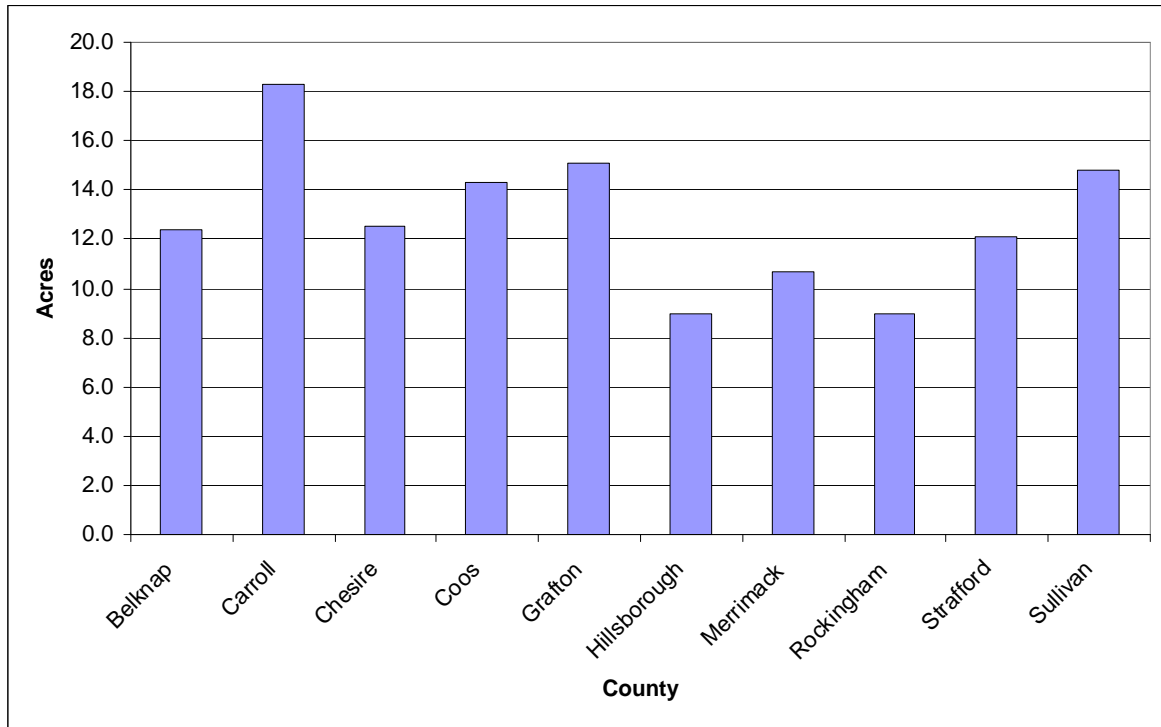

Figure 61 Respondents whose equine-related property was not in agricultural use before they got involved with equines, by county

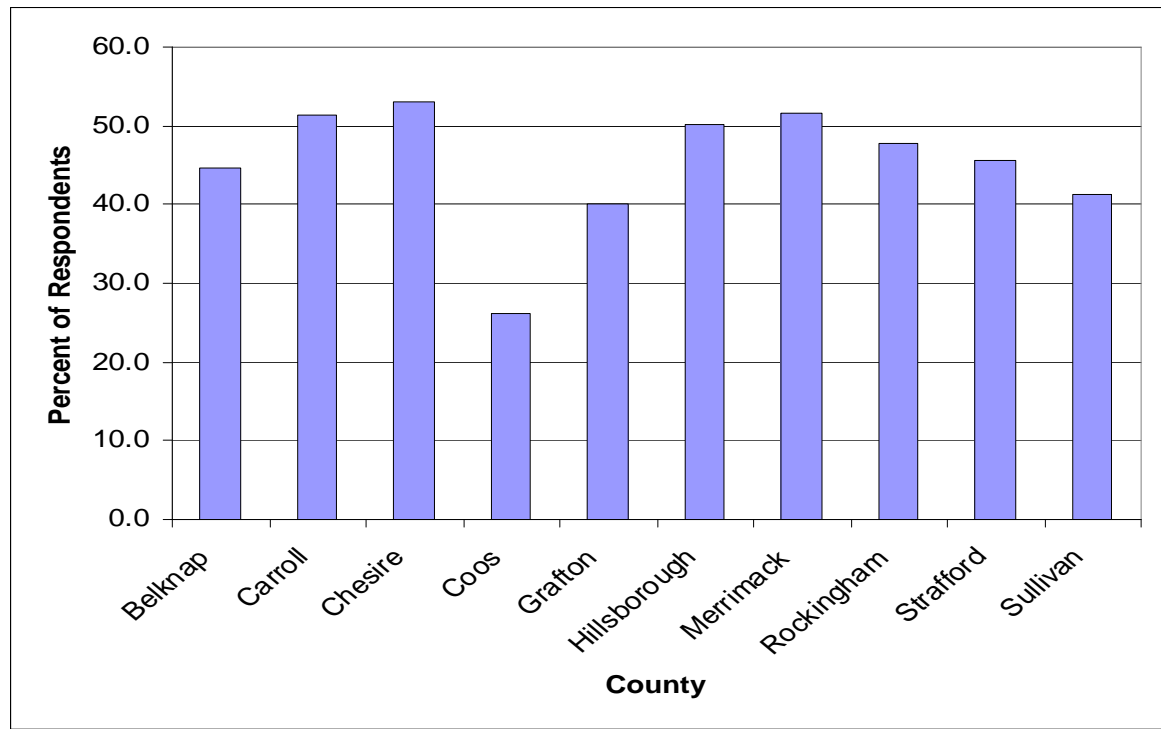

Figure 62 Respondents whose equine-related property was used as a livestock or dairy farm before they got involved with equines, by county

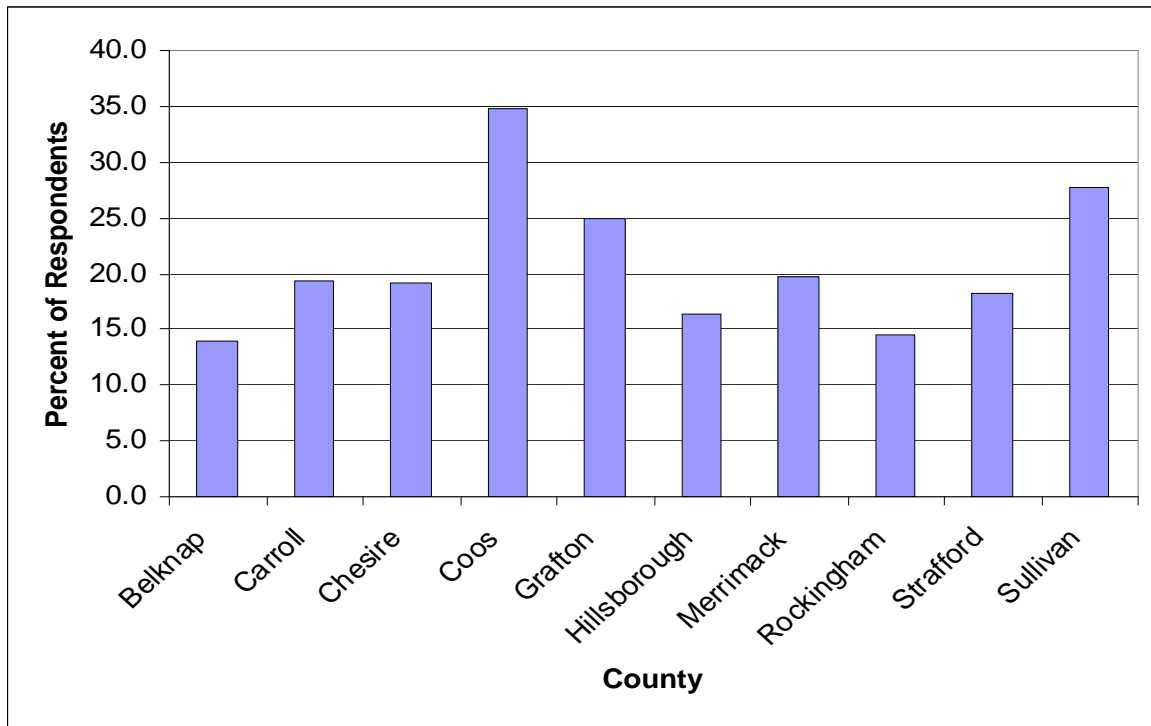

Figure 63 Respondents whose equine-related property was used as a horse farm before they got involved with equines, by county

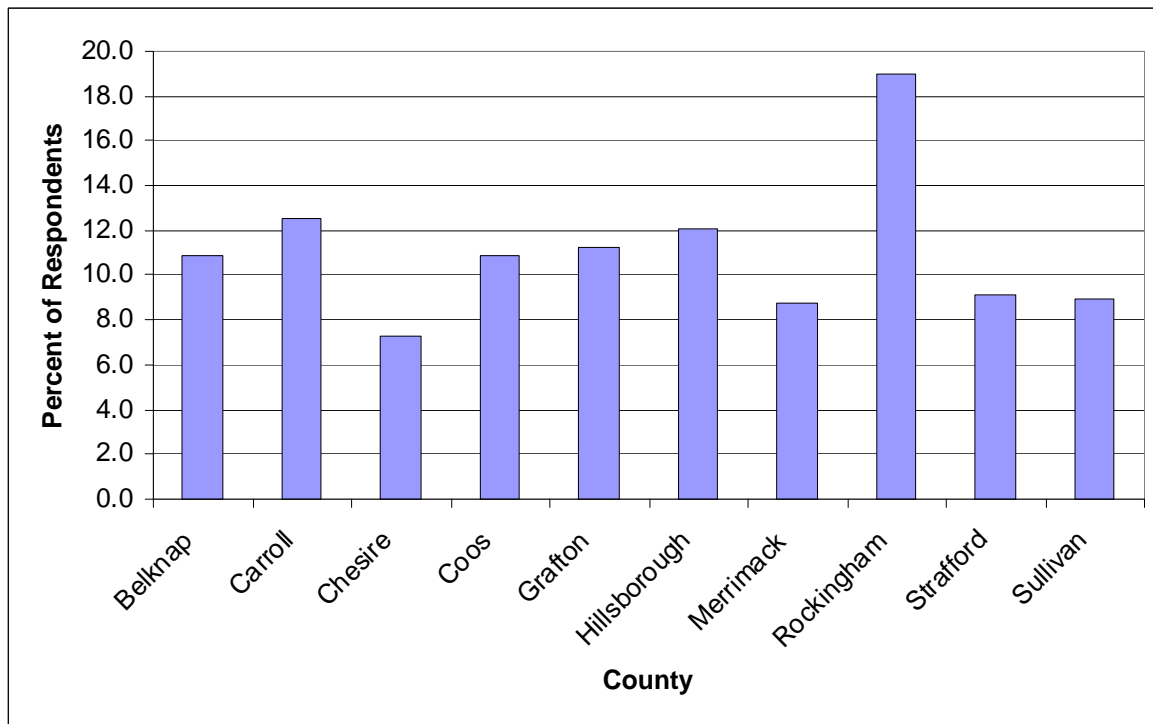

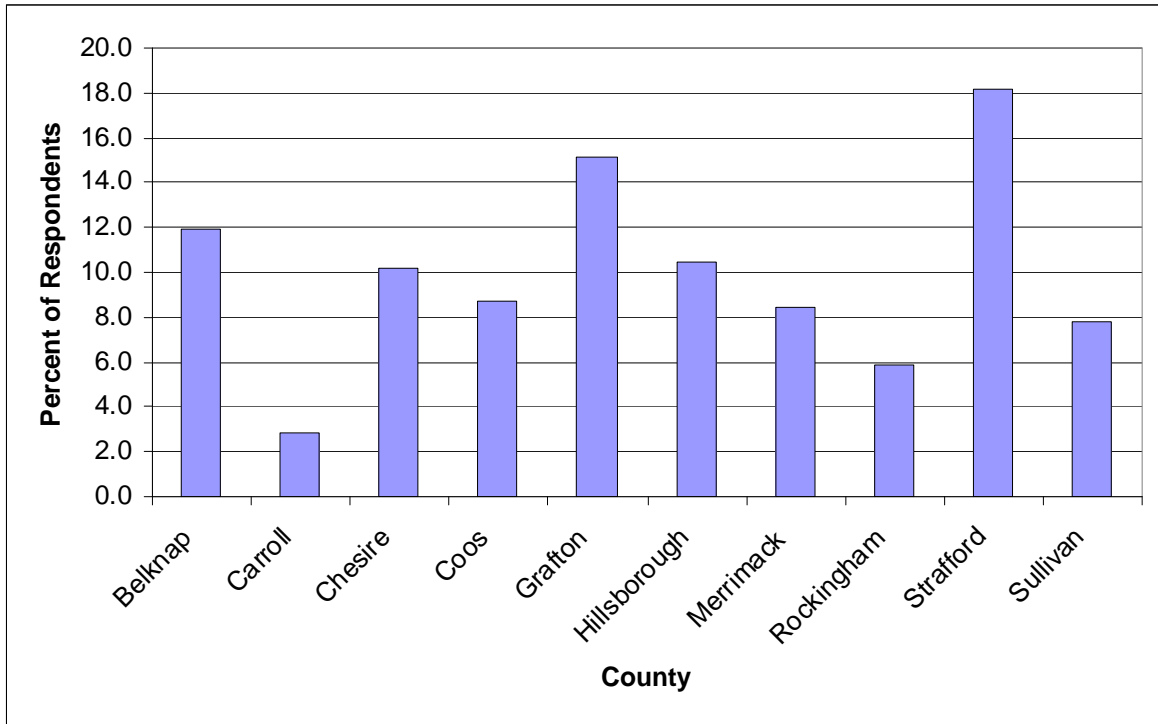

Figure 64 Respondents whose equine-related property was used as a crop farm before they got involved with equines, by county

## I. Equine Feed

Figure 65 Respondents who fed hay to their equines, by county

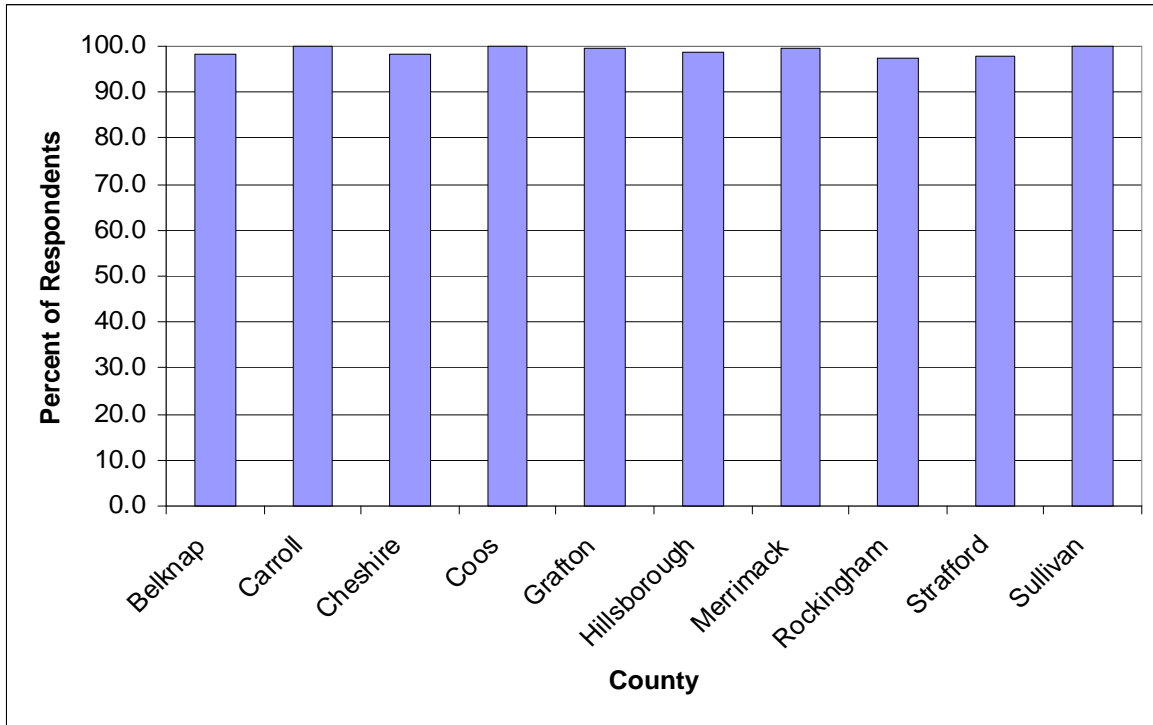

Figure 66 Respondents who fed commercial grain mix to their equines, by county

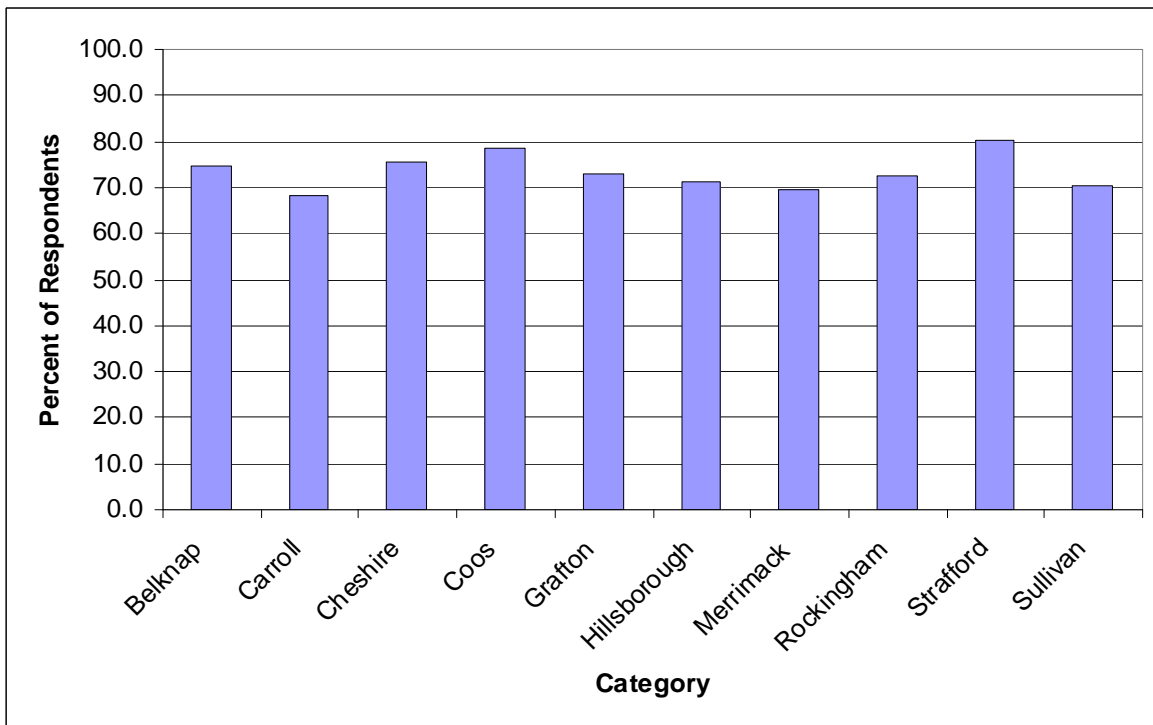

Figure 67 Respondents who fed pellets to their equines, by county

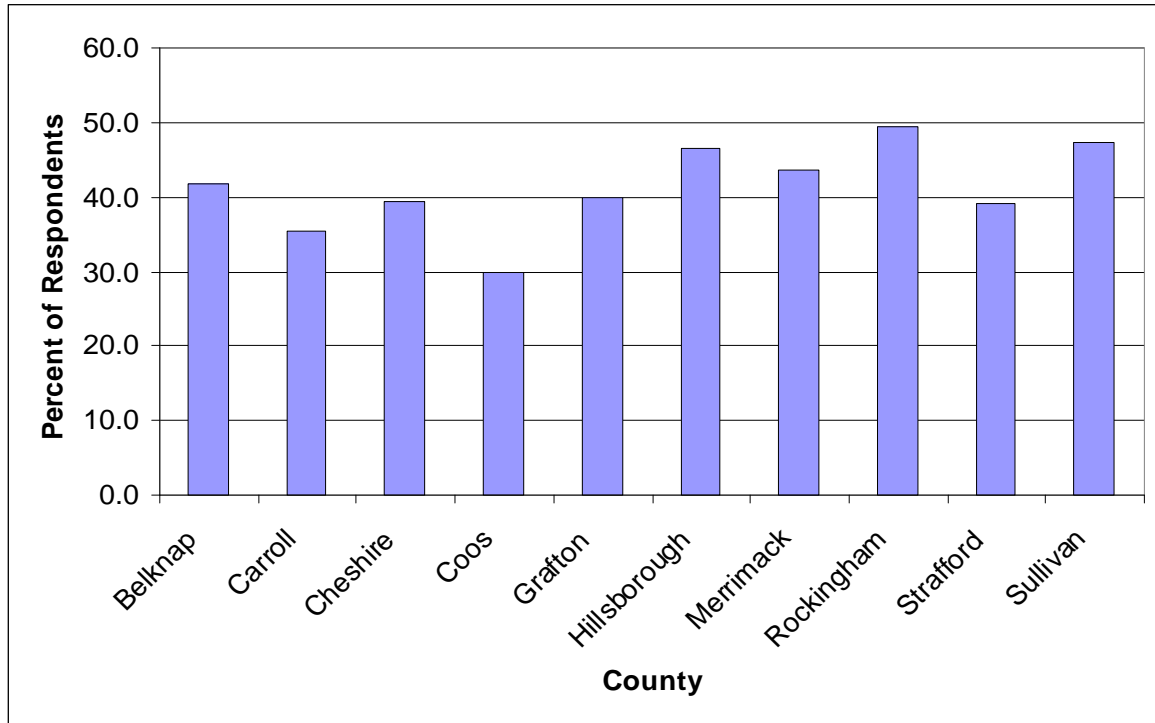

Figure 68 Respondents who fed bulk grain to their equines, by county

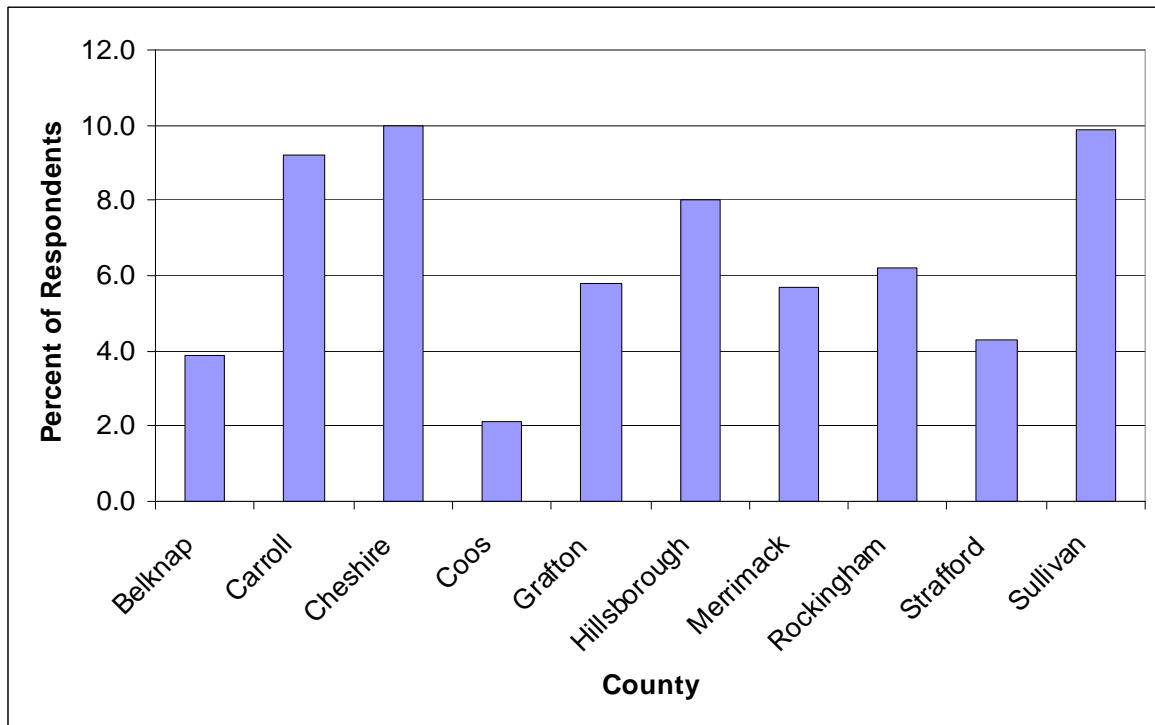

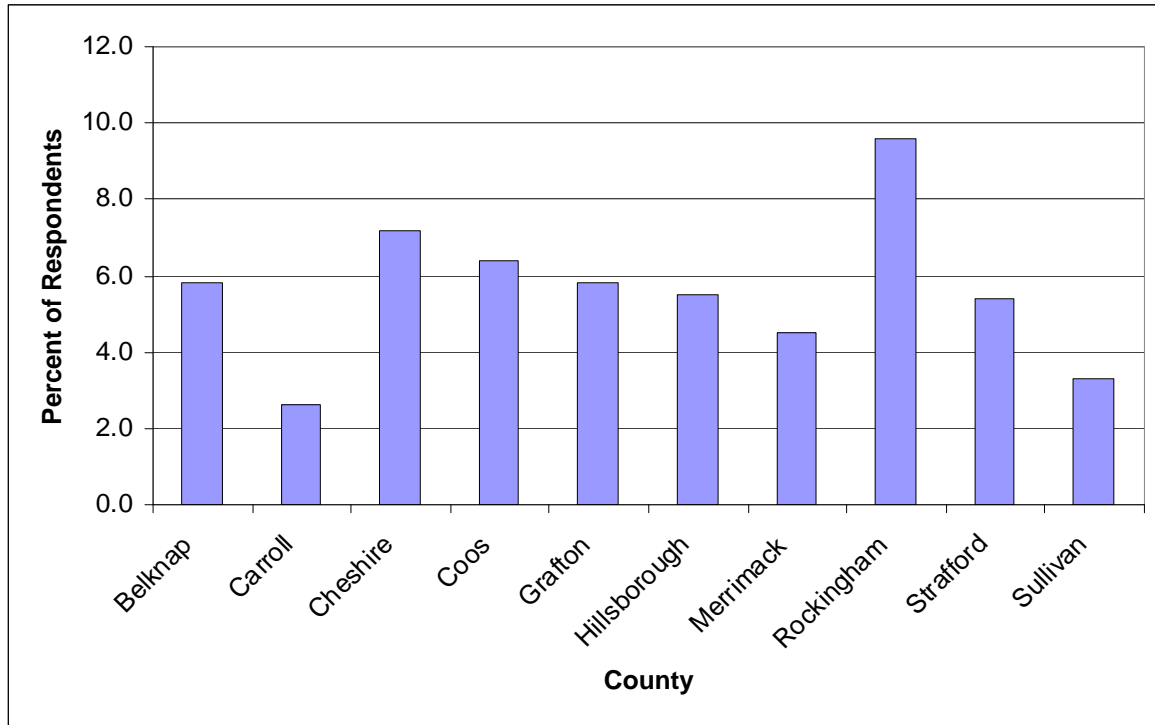

Figure 69 Respondents who fed cubes to their equines, by county

## J. Manure Management

Figure 70 Respondents who spread equine manure on their land, by county

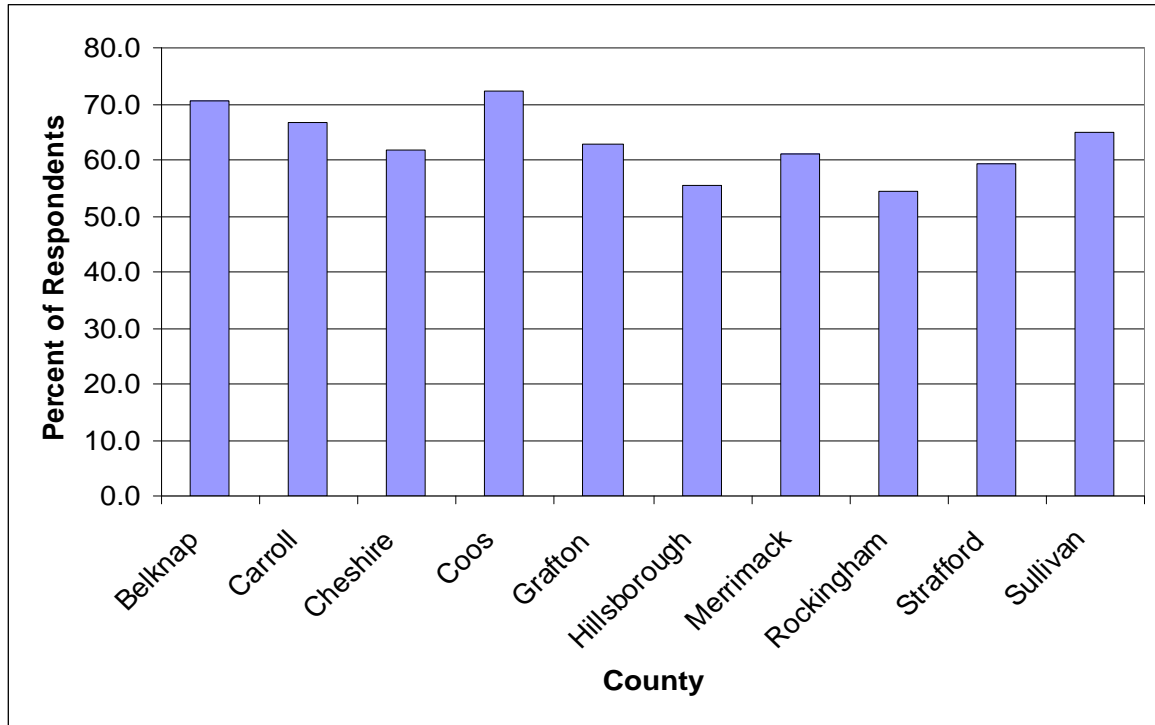

Figure 71 Respondents who composted equine manure, by county

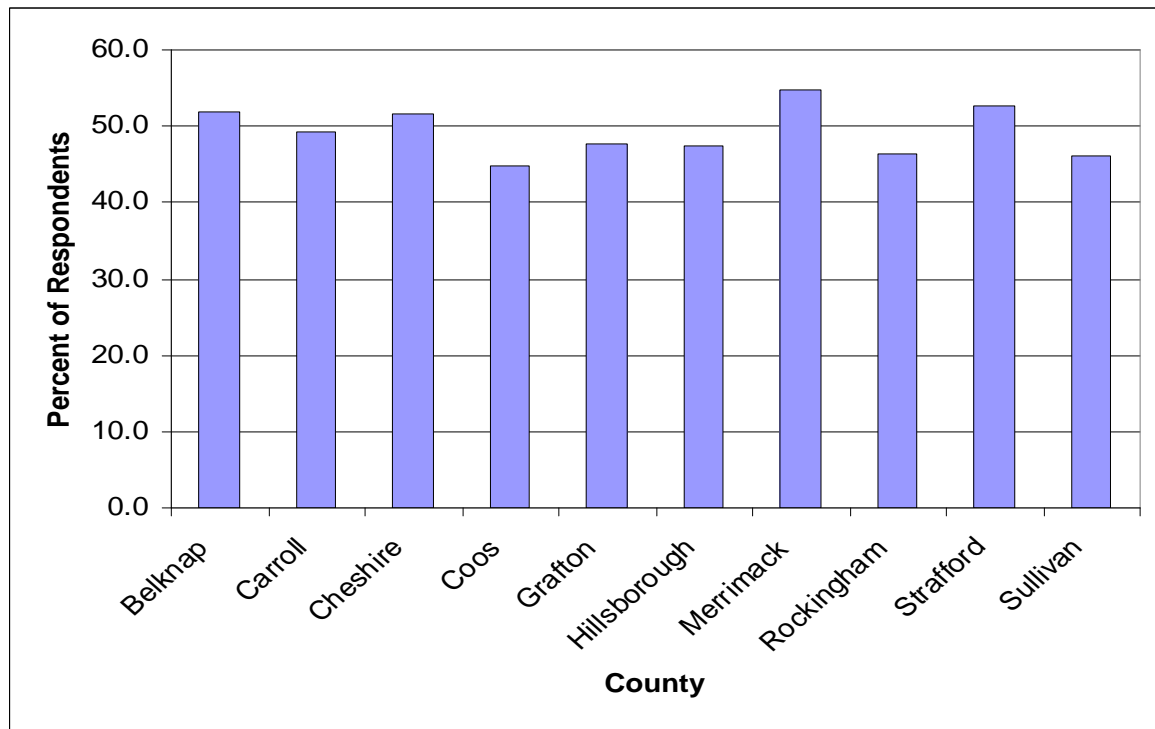

Figure 72 Respondents who gave away equine manure for free, by county

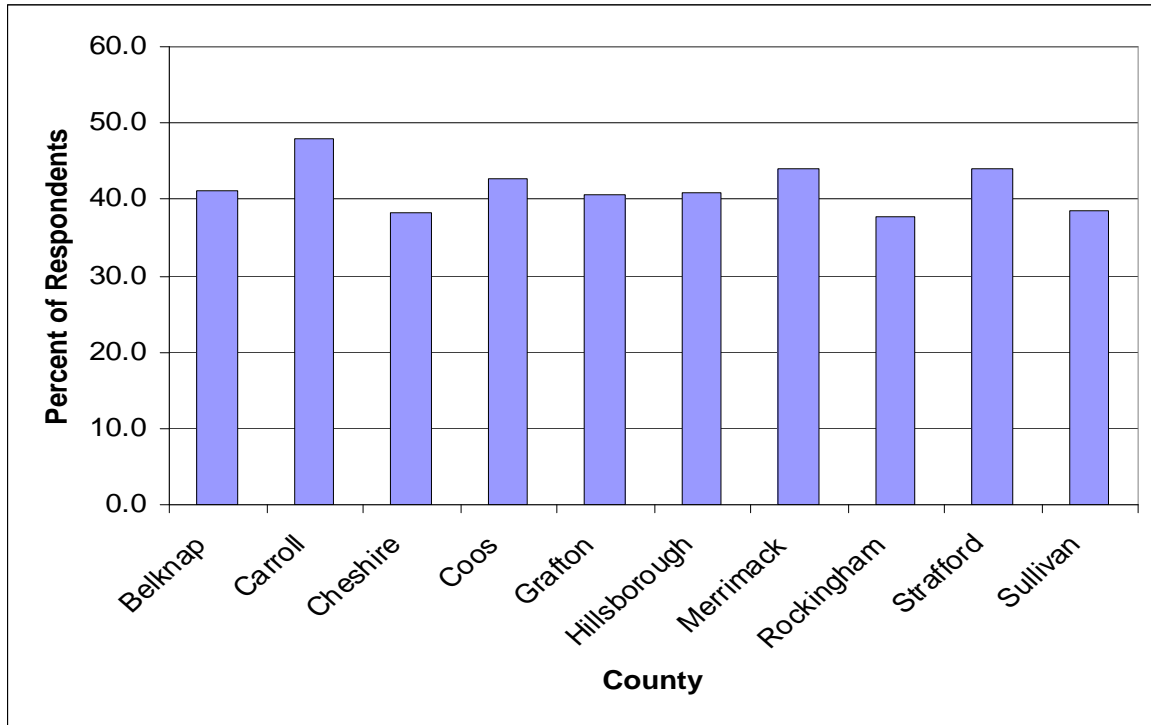

Figure 73 Respondents who stockpiled equine manure, by county

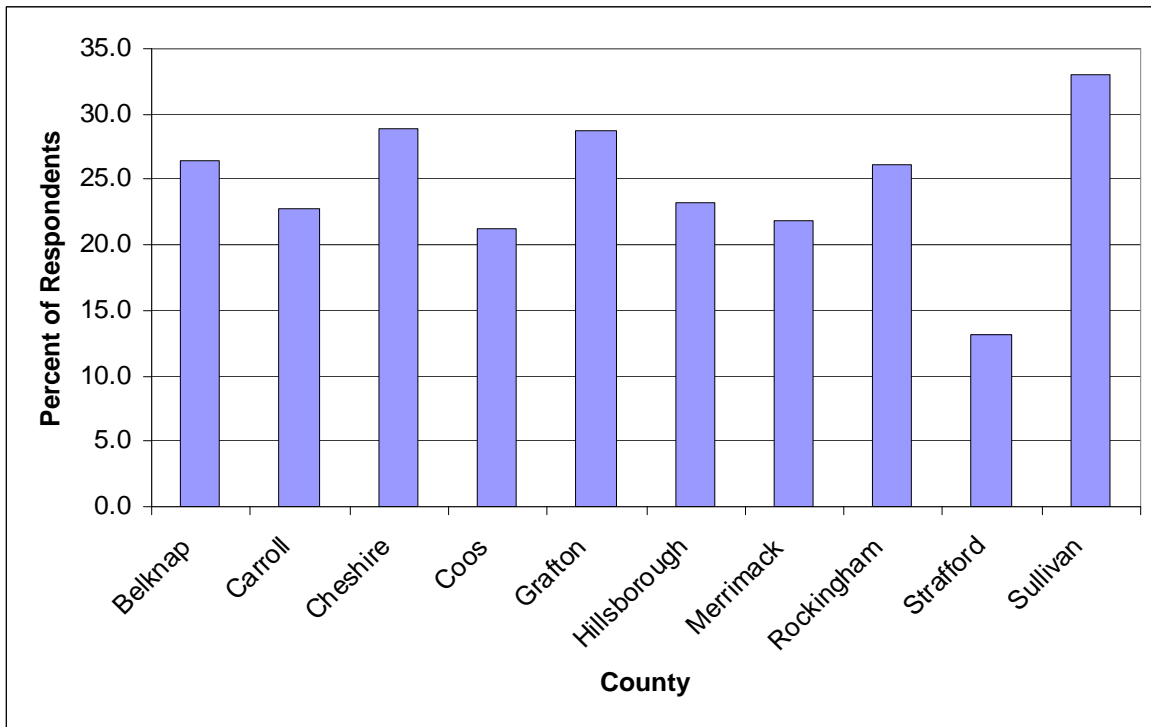

Figure 74 Respondents who paid for removal of equine manure, by county

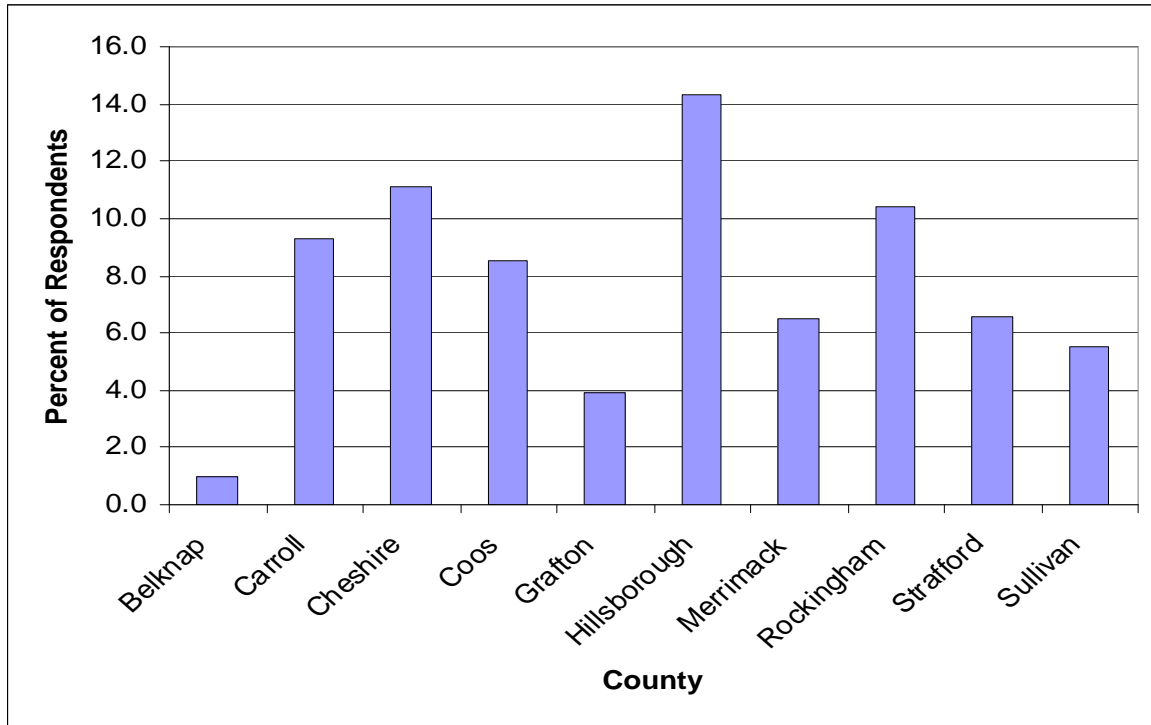

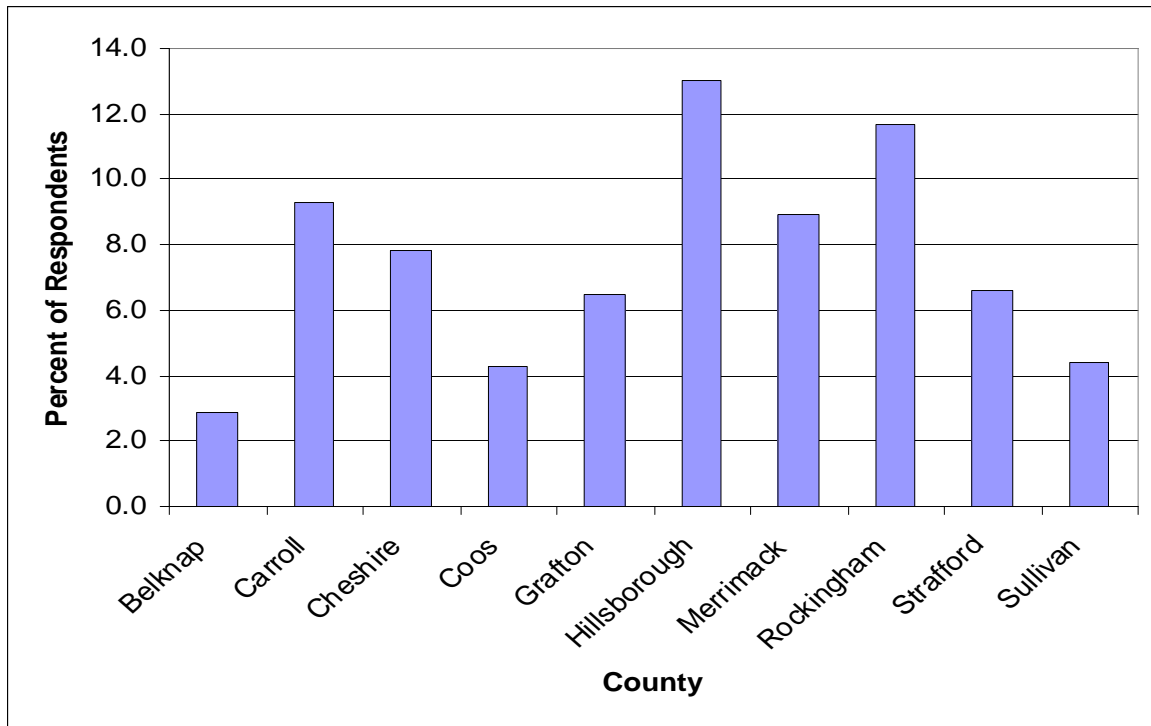

Figure 75 Respondents who hauled equine manure away and dumped it themselves, by county

## K. Equine Boarding

Figure 76 Respondents who boarded their equines for all or part of the year, by county

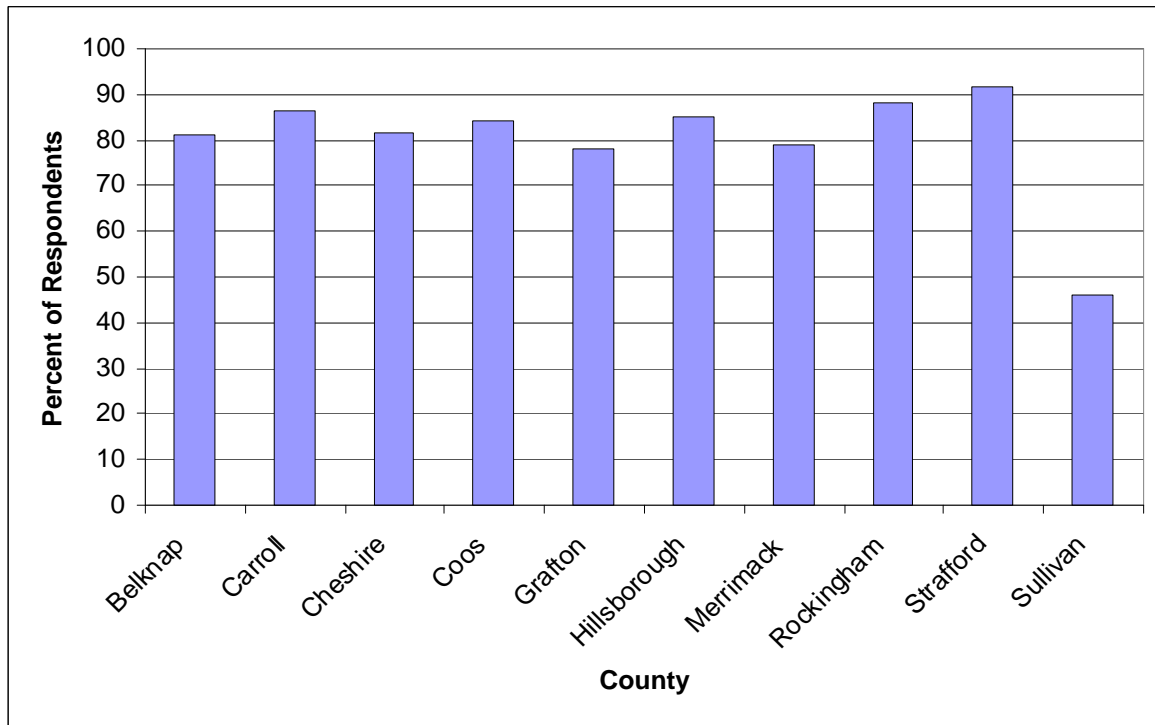

Figure 77 Boarders who boarded their equines for twelve months, by county

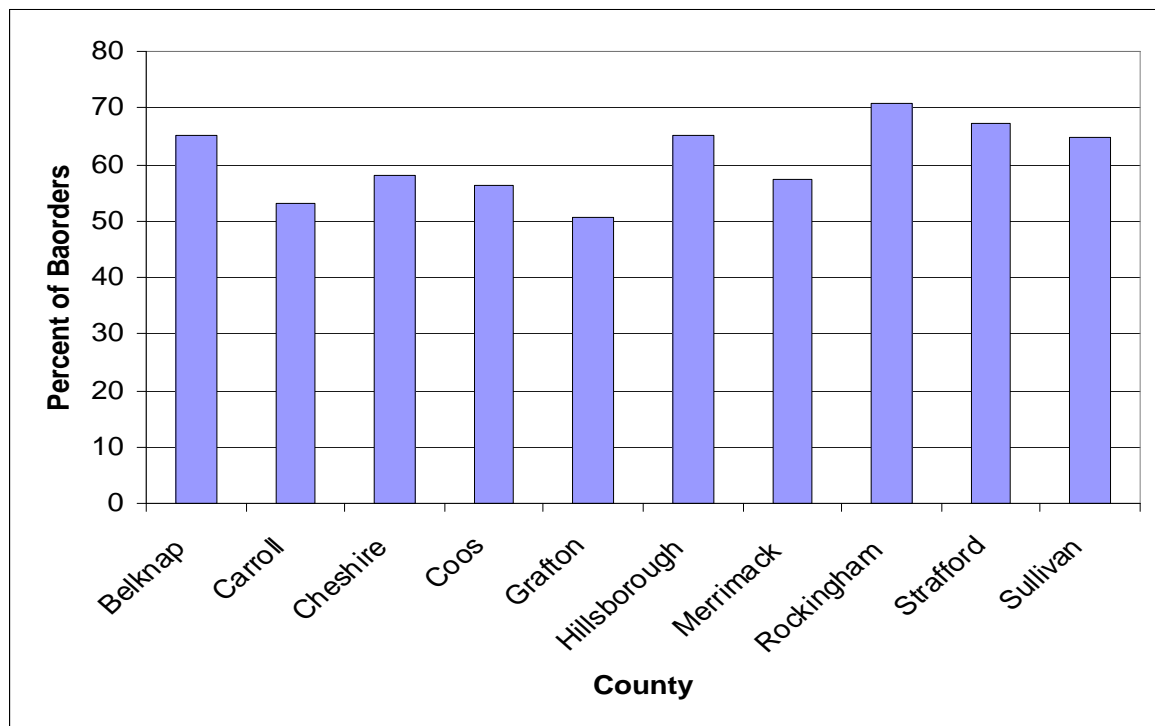

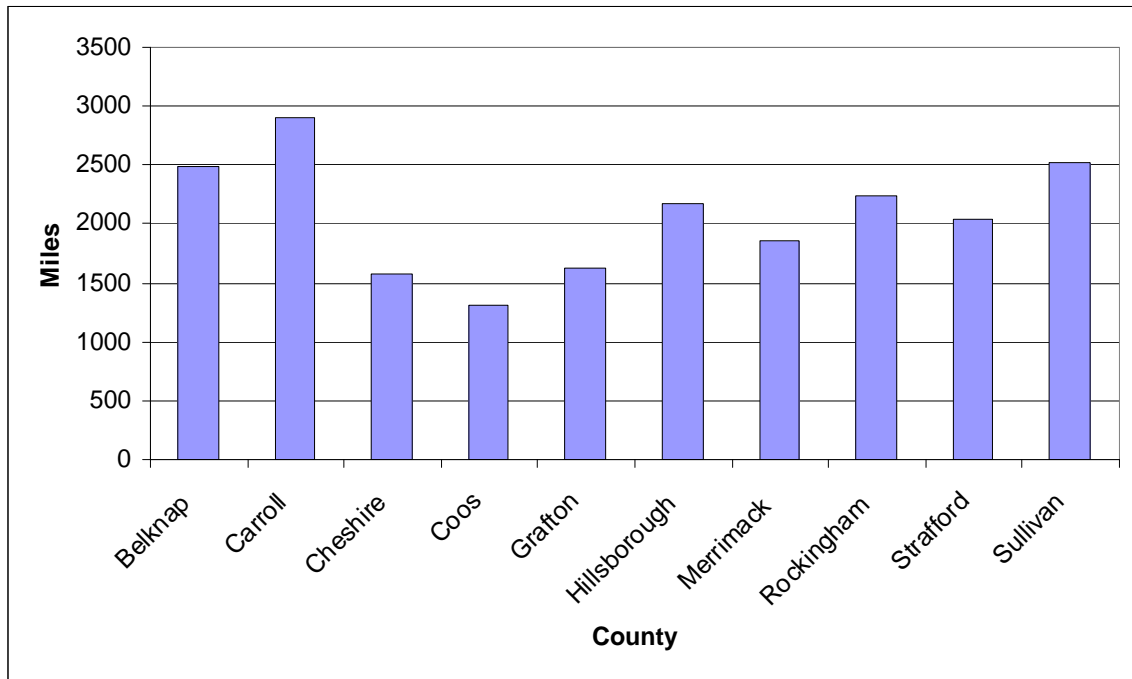

Figure 78 Average round-trip miles traveled in the past 12 months to interact with equines, by county

## L. Equine-Related Assets

Figure 79 Average estimated current value of all equine-related land, fencing, and buildings owned, by county

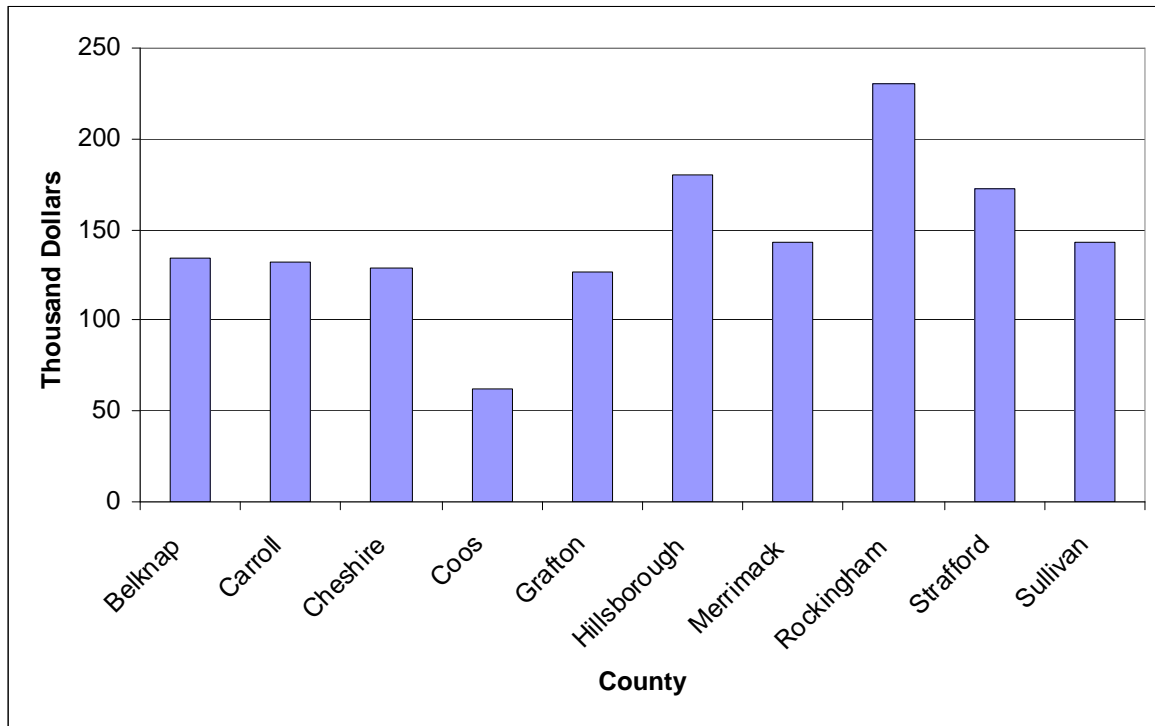

Figure 80 Average estimated current value of all equine feed and stable supplies on hand, by county

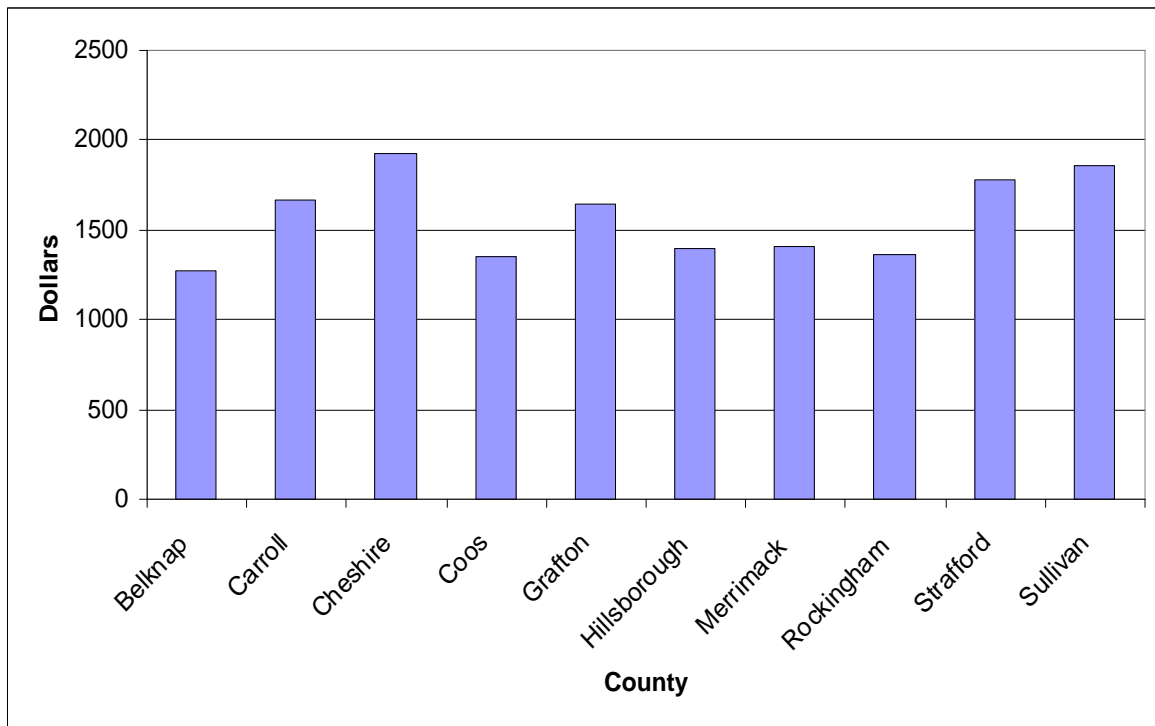

Figure 81 Average estimated current value of tractors owned, by county

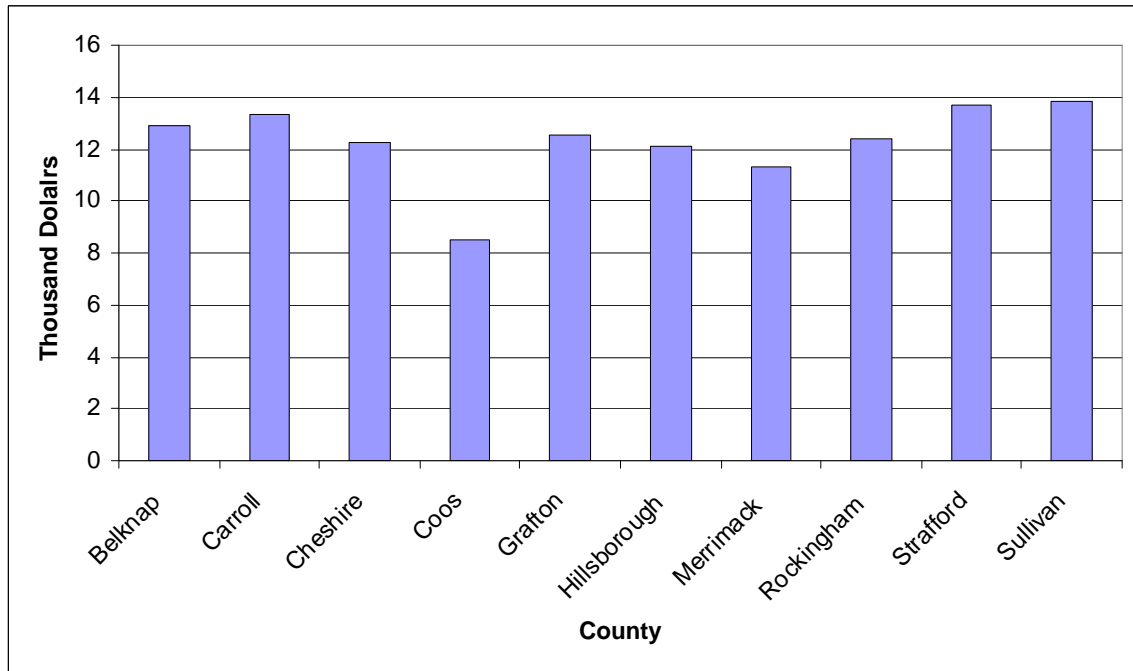

Figure 82 Average estimated current value of manure spreaders owned, by county

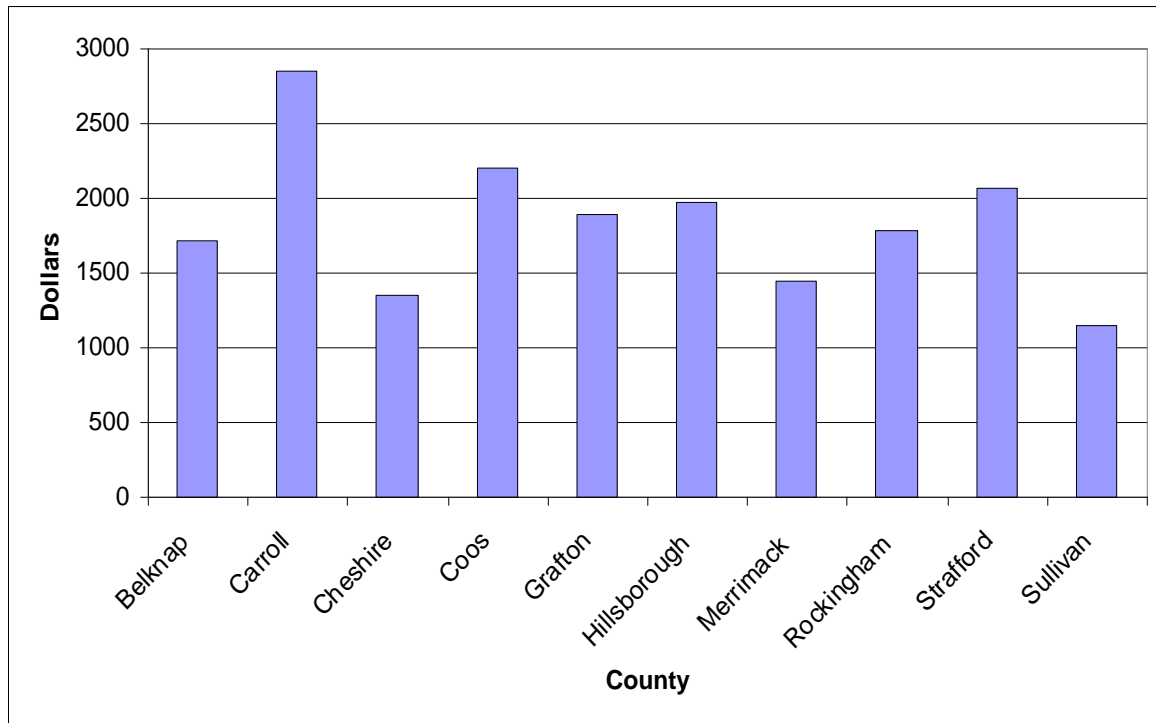

Figure 83 Average estimated current value of equine trailers or vans, by county

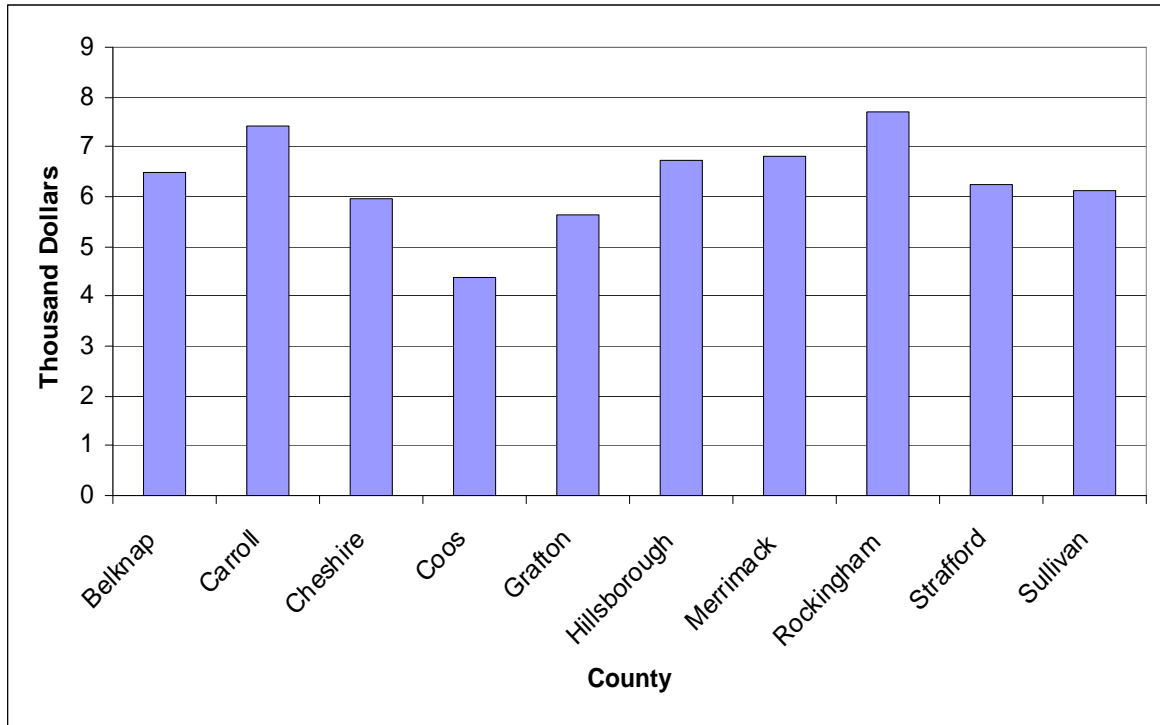

Figure 84 Average estimated current value of vehicles for towing trailers or vans, by county

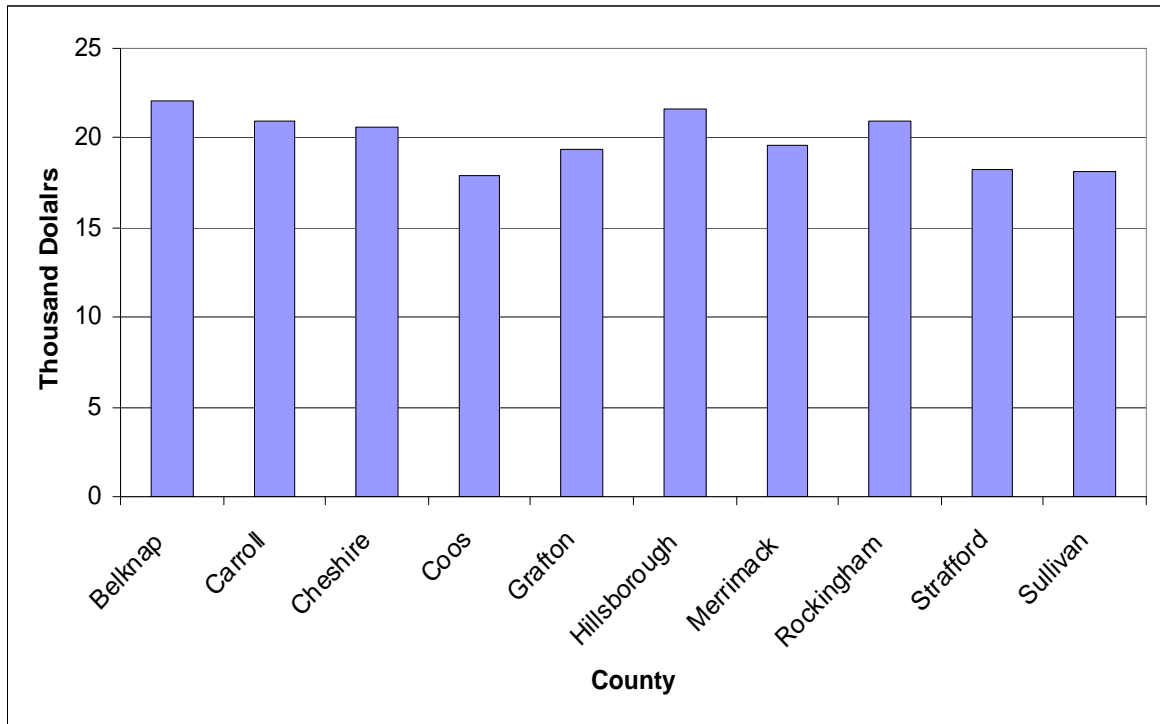

Figure 85 Average estimated current value of computers owned, by county

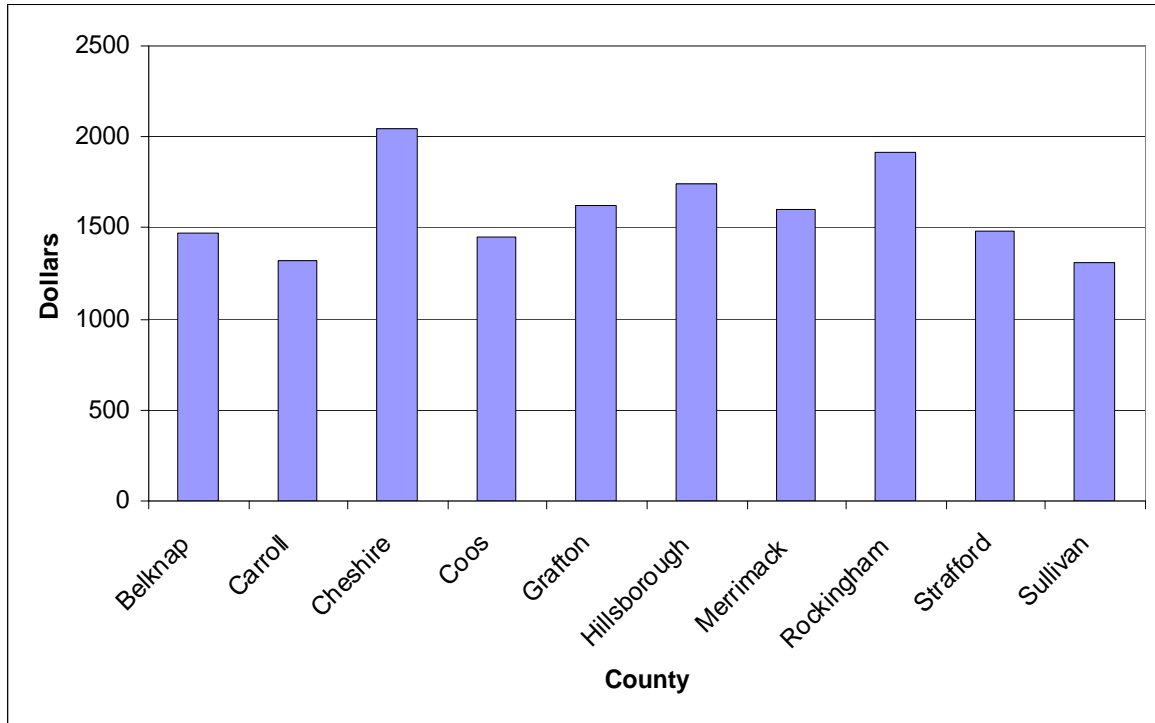

Figure 86 Average estimated current value of tools owned, by county

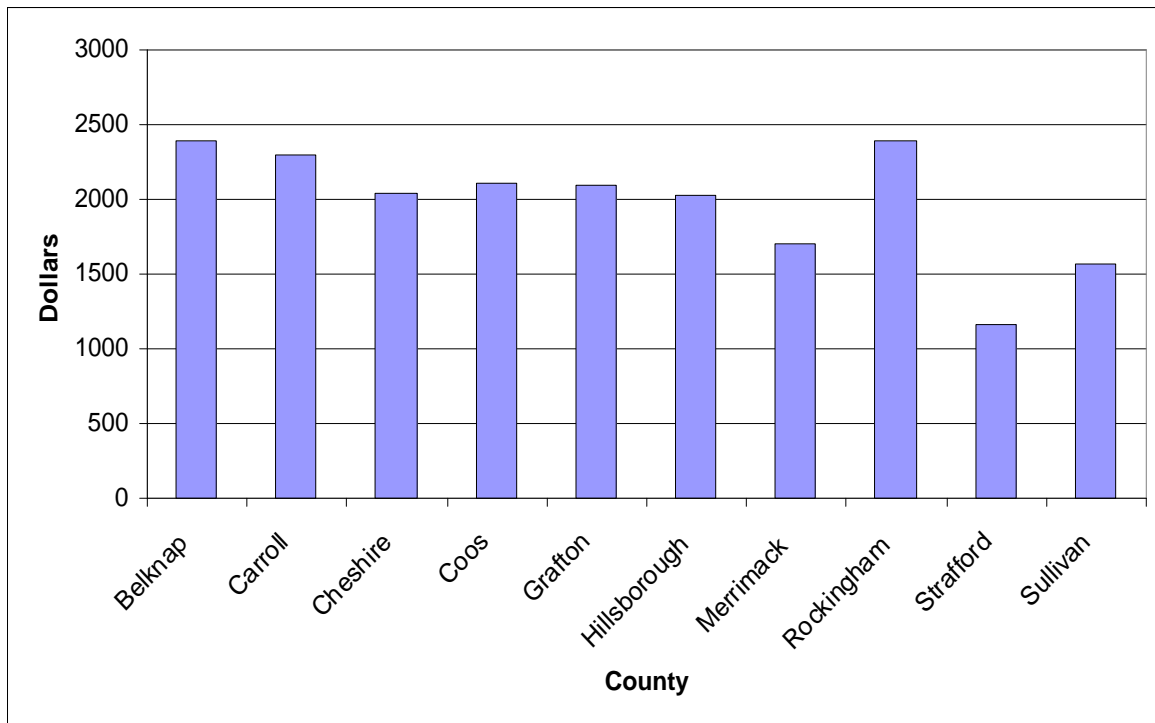

Figure 87 Respondents who owned 1 to 2 capacity equine trailers/vans, by county

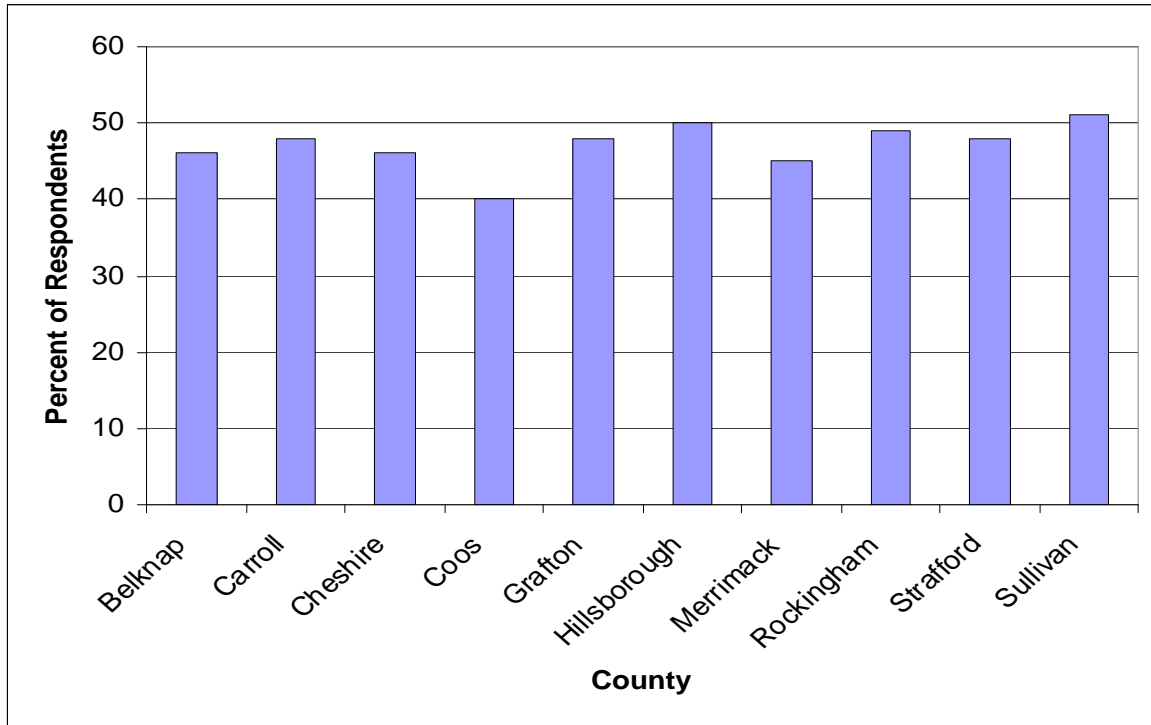

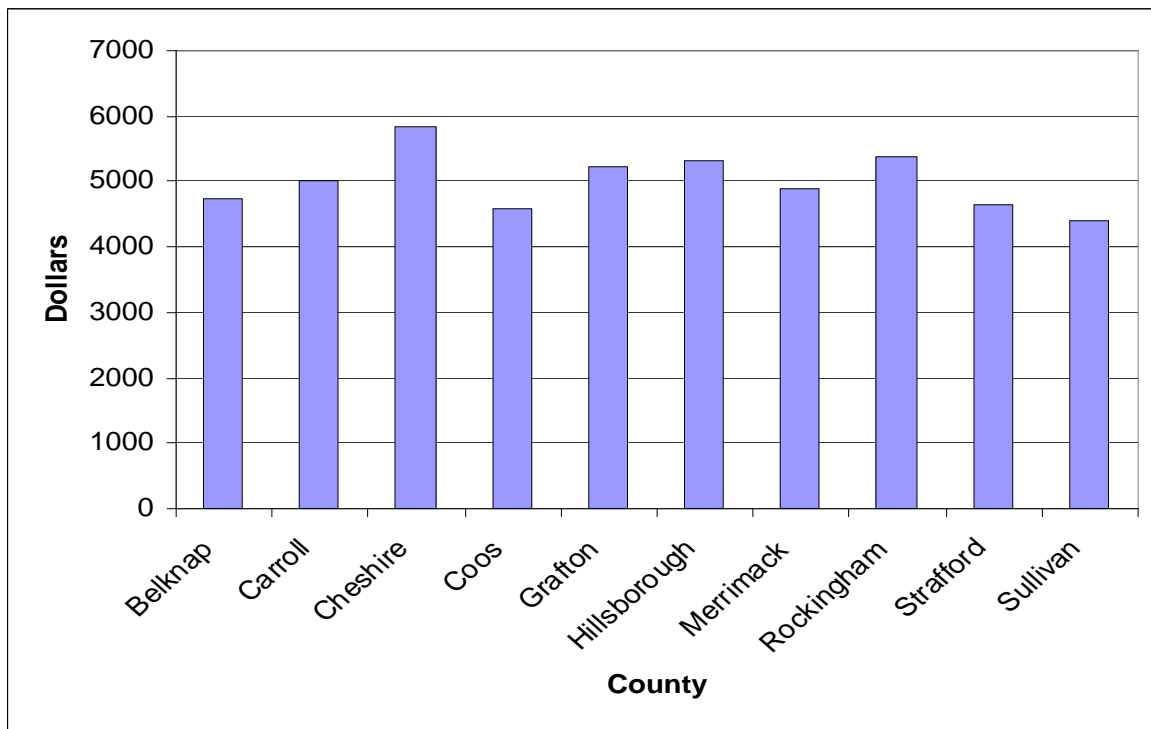

Figure 88 Average estimated current value of all tack, equipment, and equestrian clothing owned, by county

M. Equine-Related Expenditures in the Past Twelve Months

Figure 89 Average boarding and training fees paid to others in the past 12 month, by county

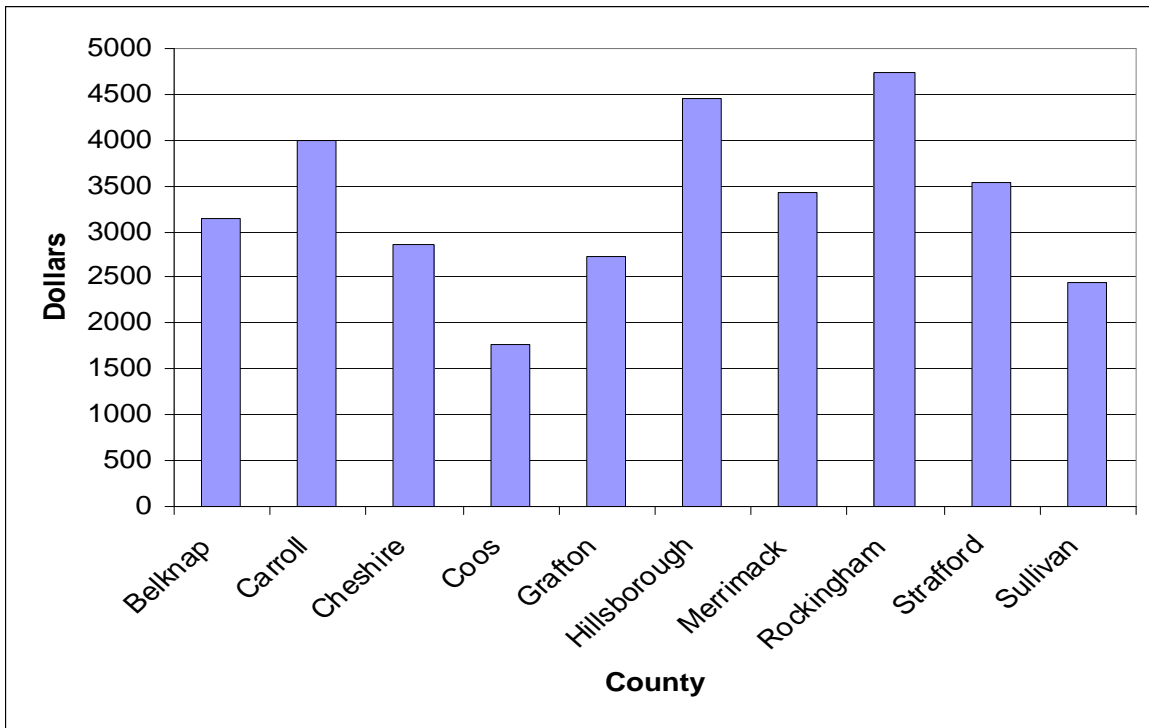

Figure 90 Average expenditures for hay in the past 12 months, by county

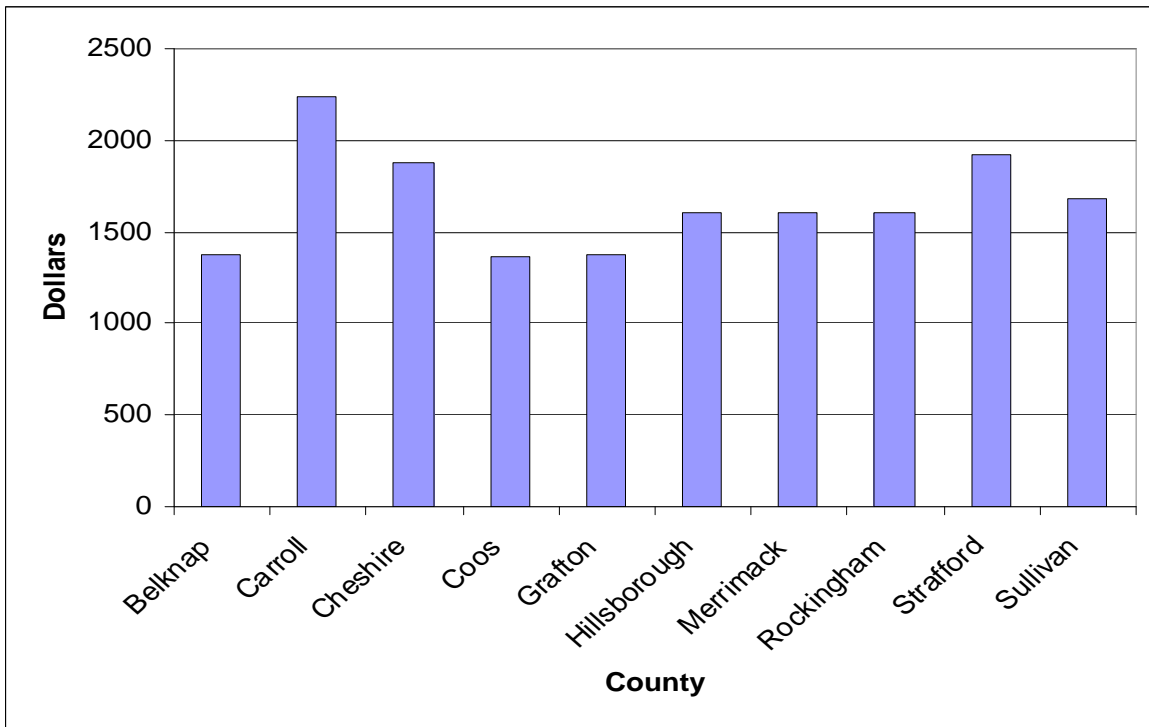

Figure 91 Average expenditures for grain in the past 12 months, by county

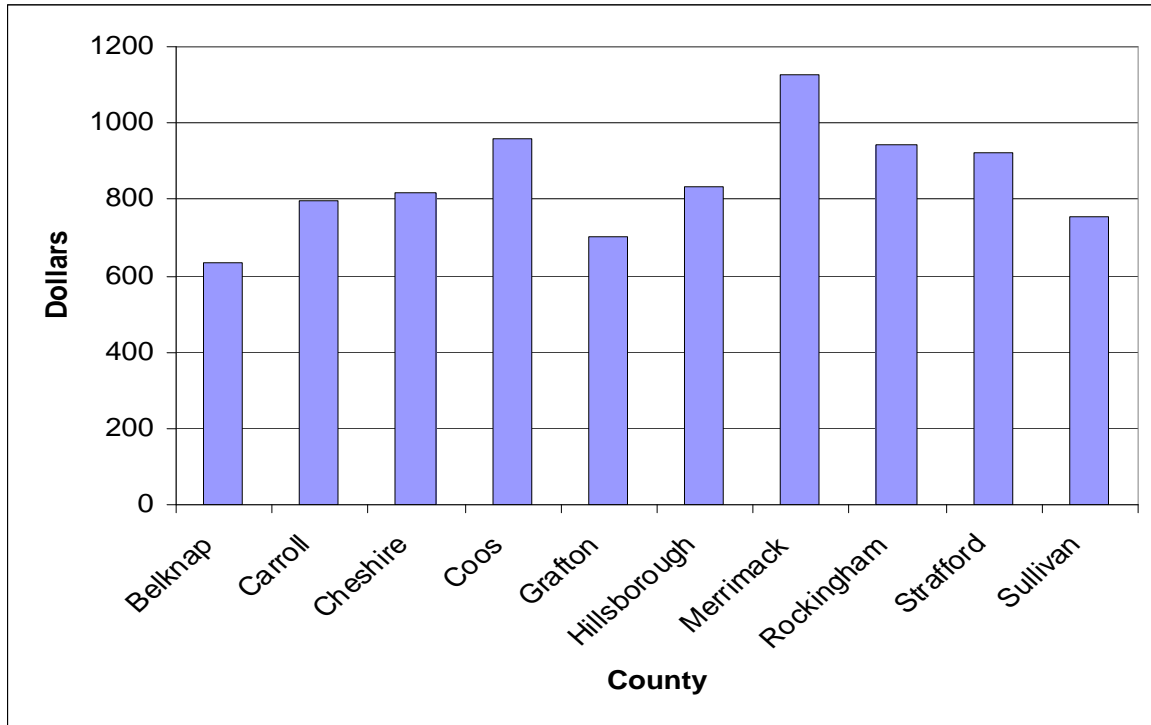

Figure 92 Average expenditures for mixed or formula feeds in the past 12 months, by county

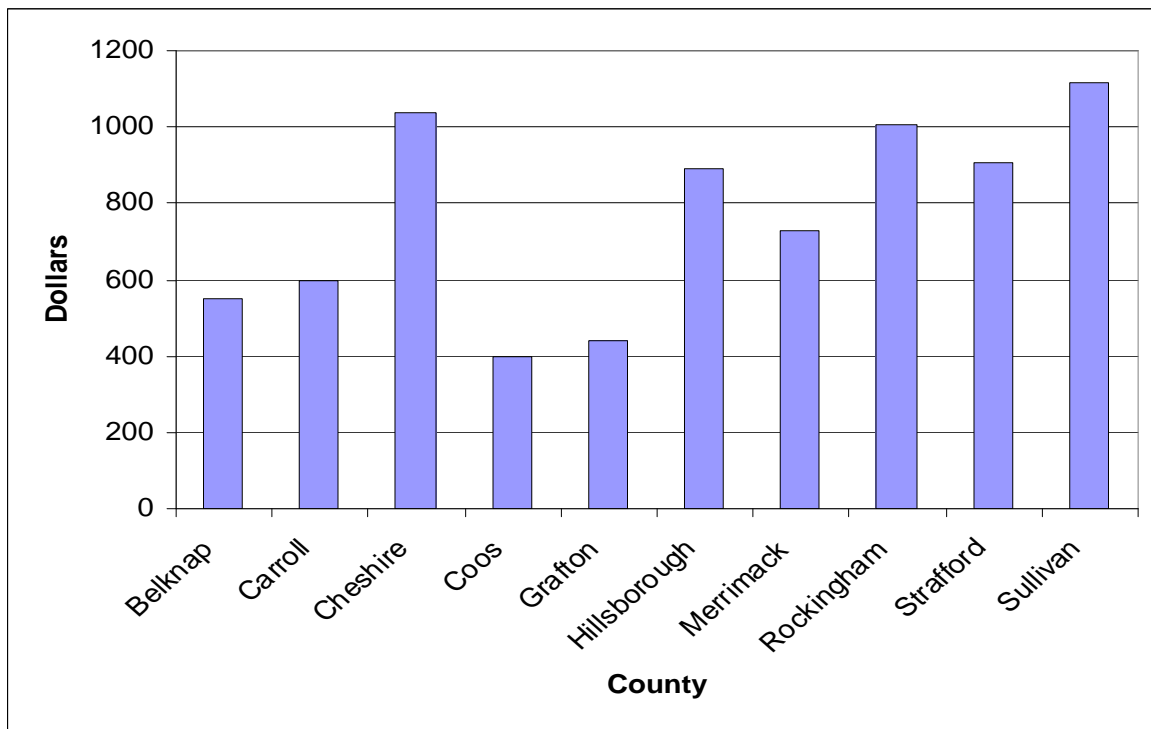

Figure 93 Average expenditures for supplements in the past 12 months, by county

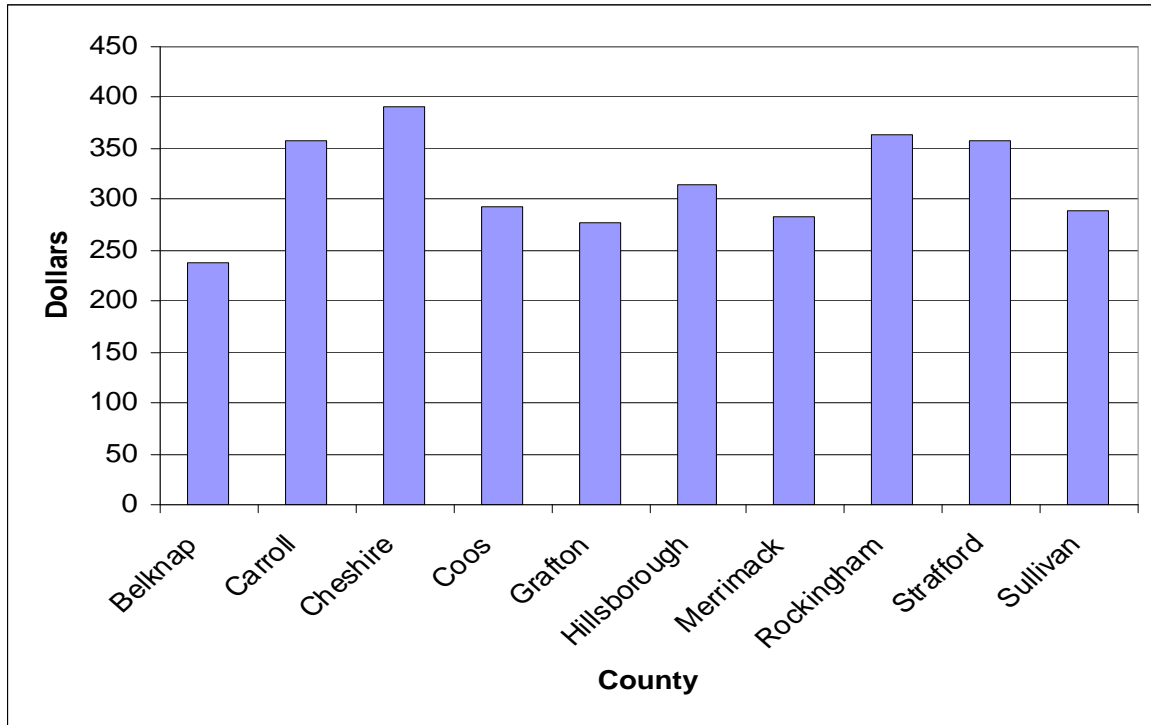

Figure 94 Average expenditures for deworming equines in the past 12 months, by county

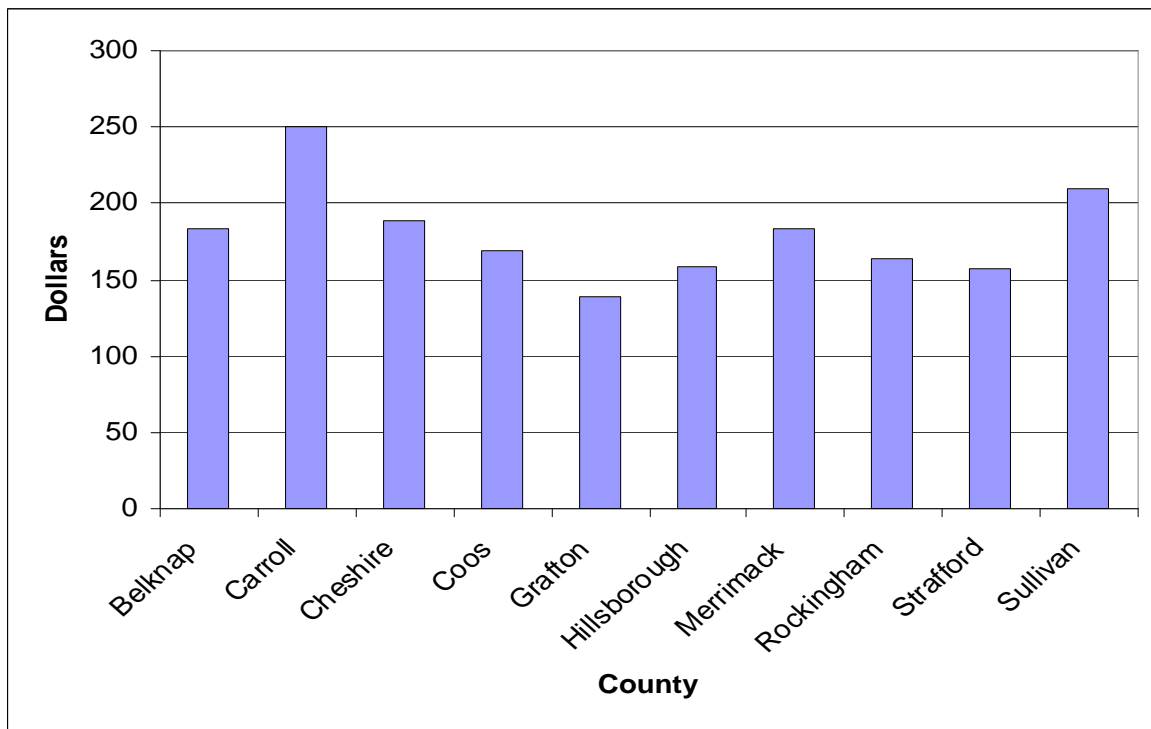

Figure 95 Average expenditures for equine vaccinations in the past 12 months, by county

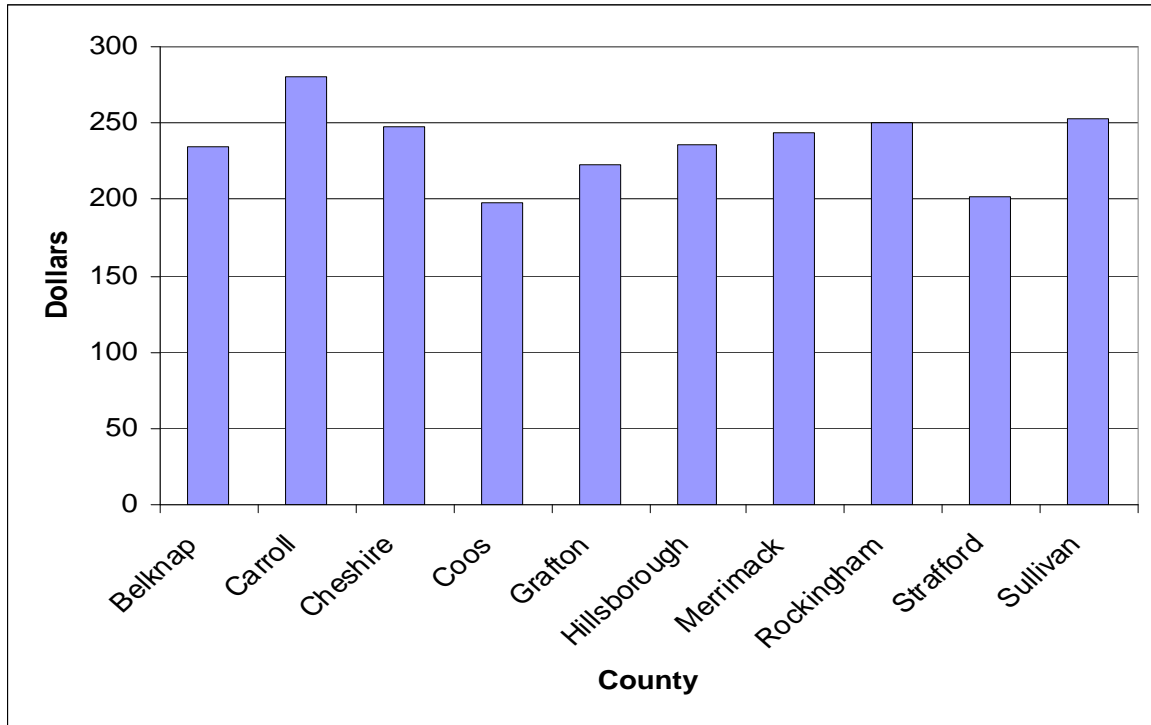

Figure 96 Average expenditures for Coggins Test in the past 12 months, by county

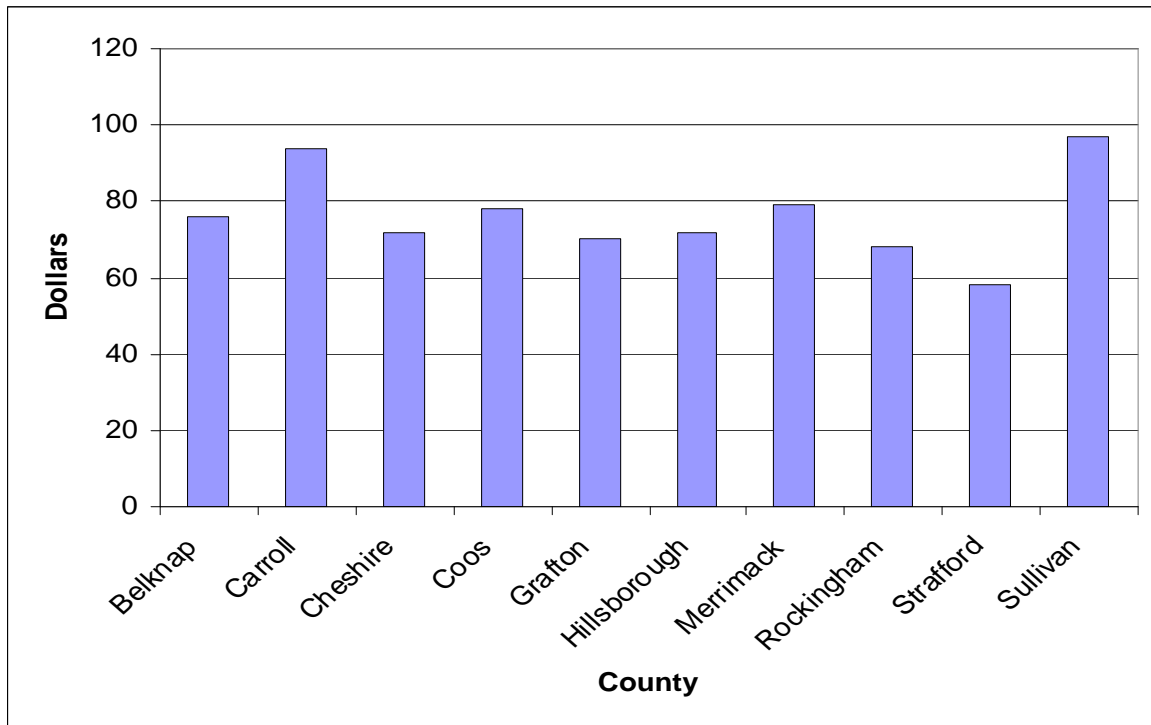

Figure 97 Average expenditures for equine dentistry in the past 12 months, by county

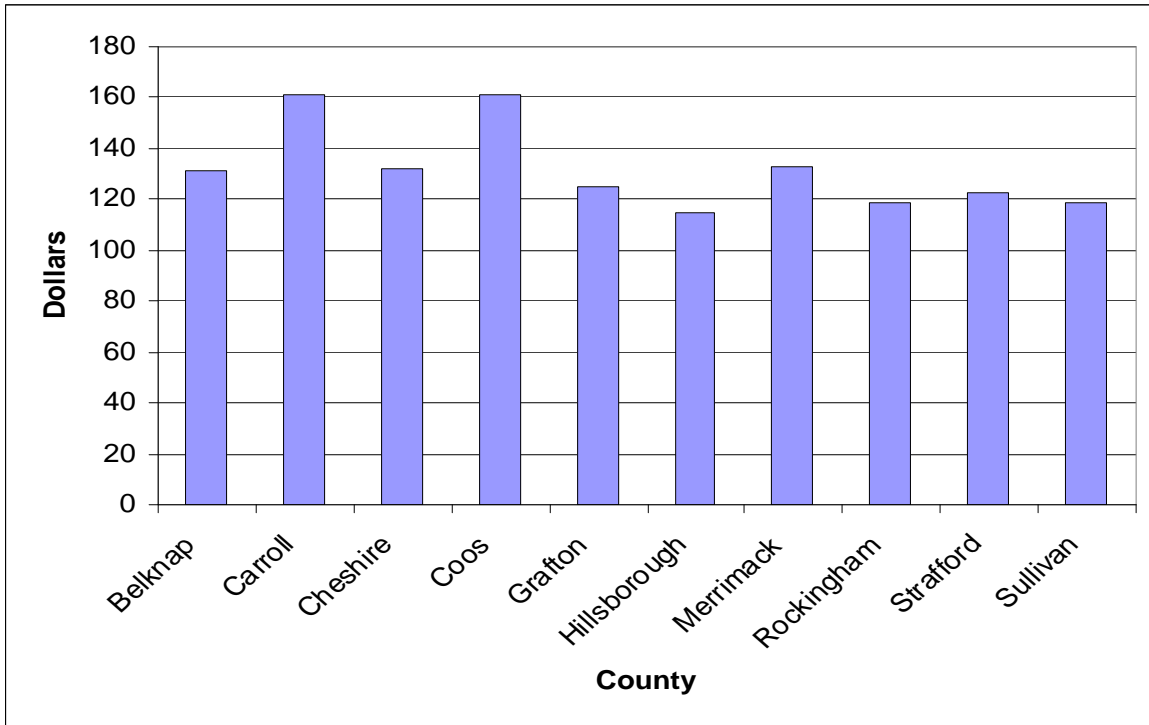

Figure 98 Average expenditures for equine health emergencies in the past 12 months, by county

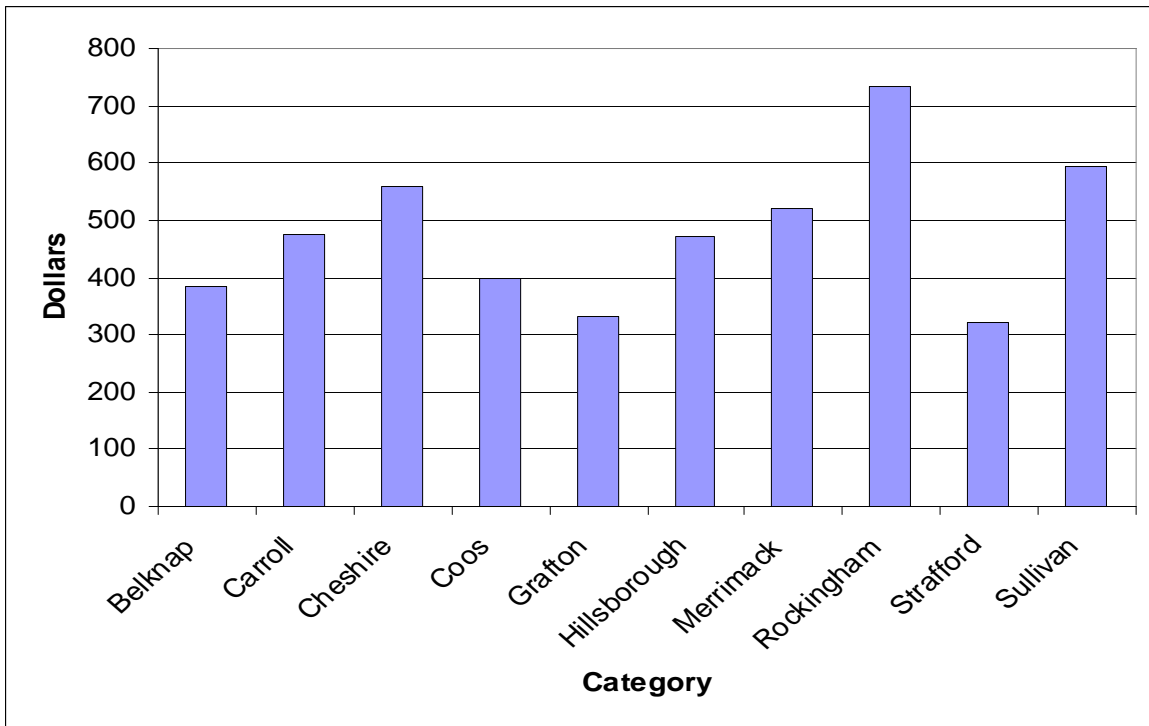

Figure 99 Average expenditures for tack in the past 12 months, by county

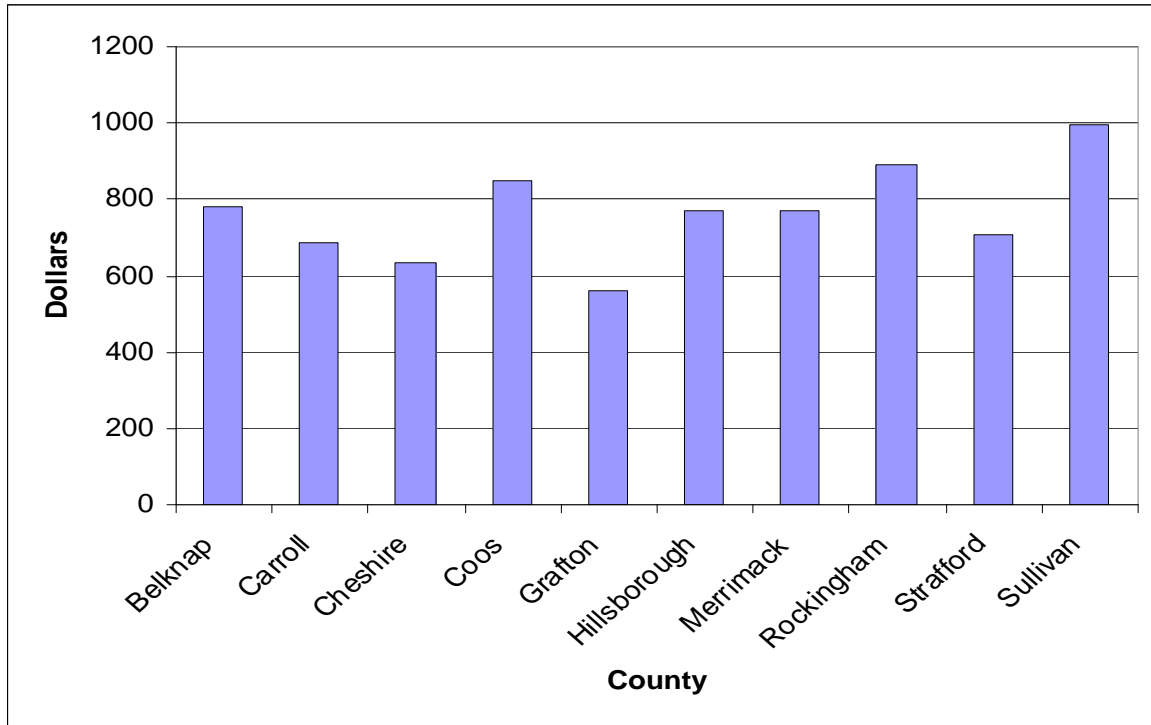

Figure 100 Average expenditures for equine-care supplies in the past 12 months, by county

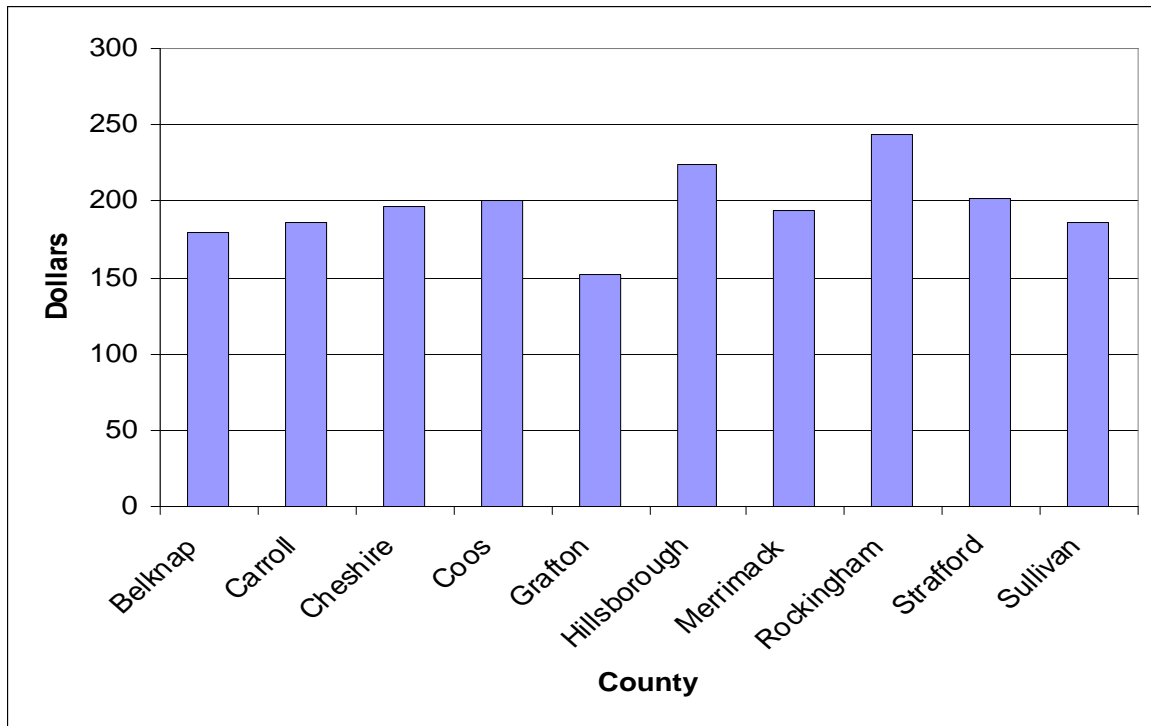

Figure 101 Average expenditures for farrier services in the past 12 months, by county

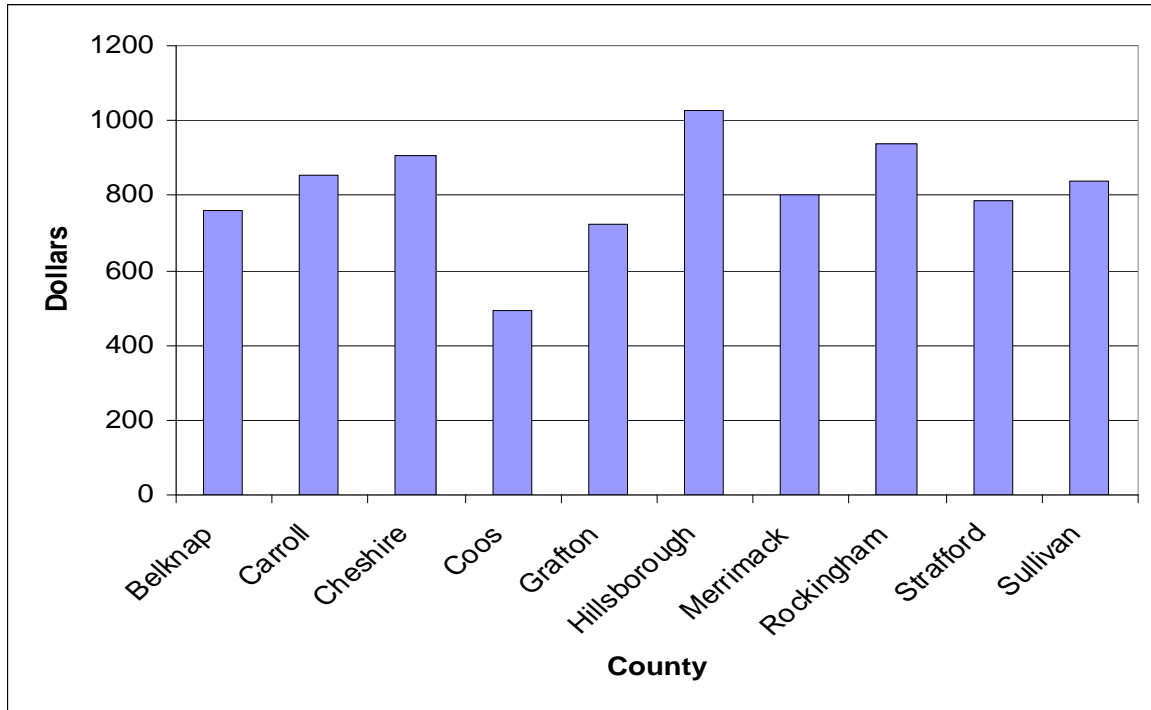

Figure 102 Average breeding fees paid in the past 12 months, by county

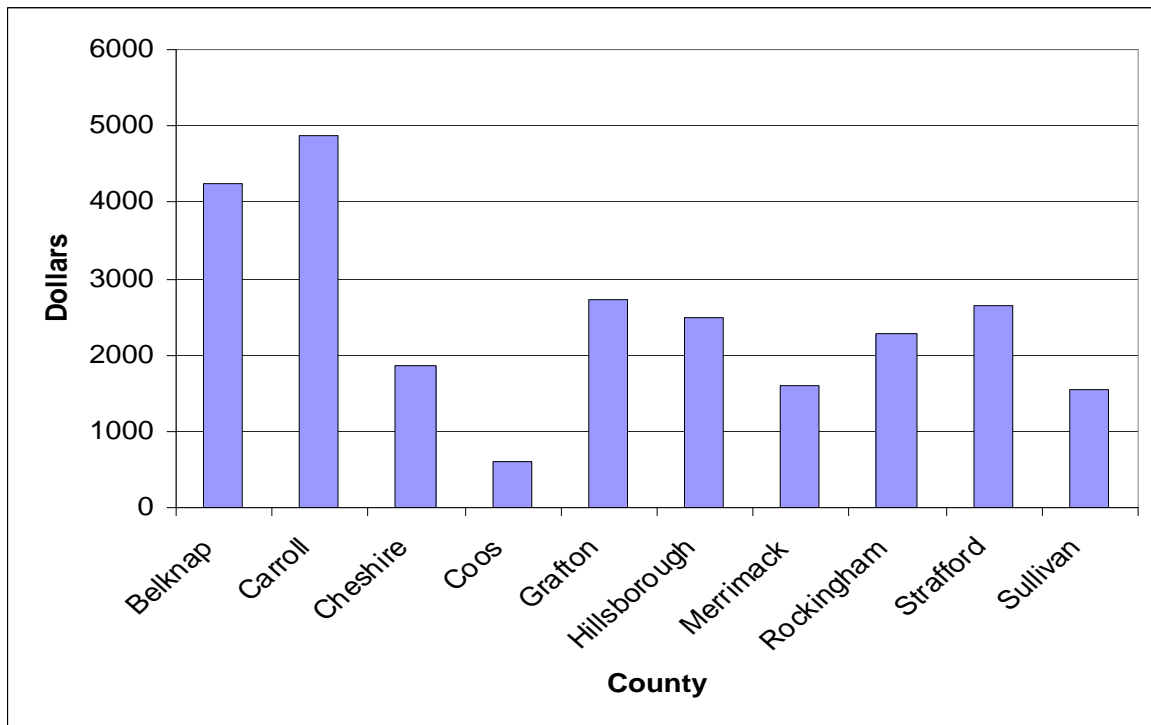

Figure 103 Average expenditures for maintenance/repair in the past 12 months, by county

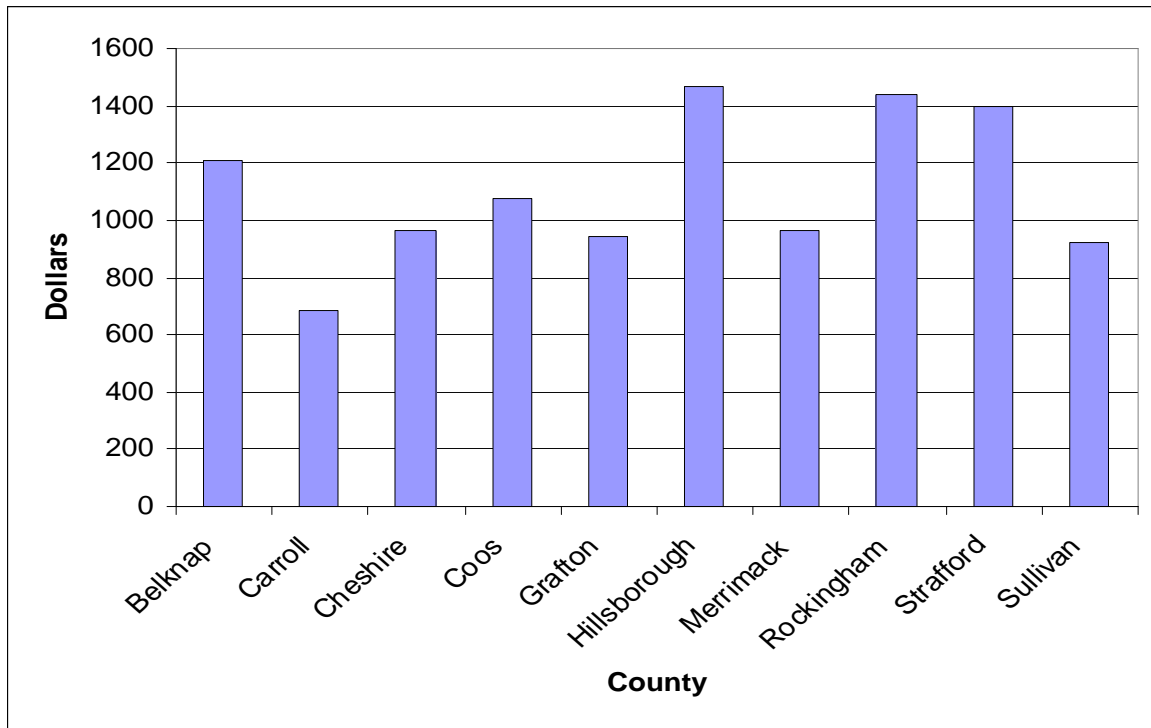

Figure 104 Average equine-related insurance premiums paid in the past 12 months, by county

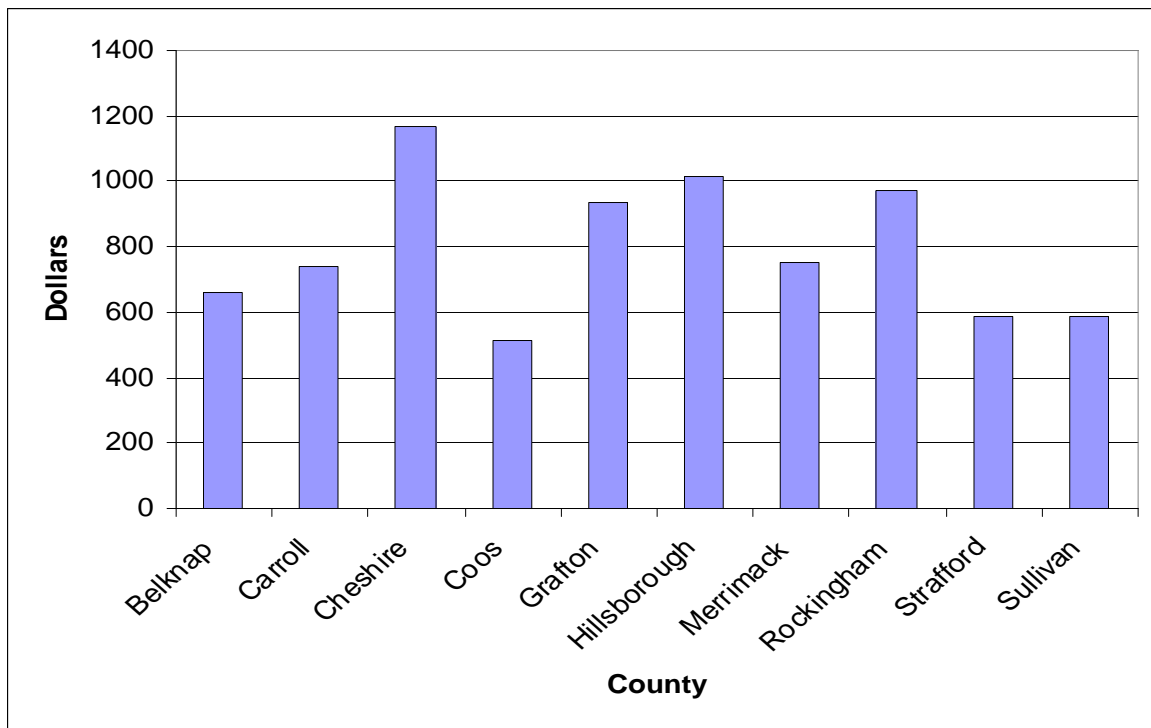

Figure 105 Average expenditures on equine-related utilities in the past 12 months, by county

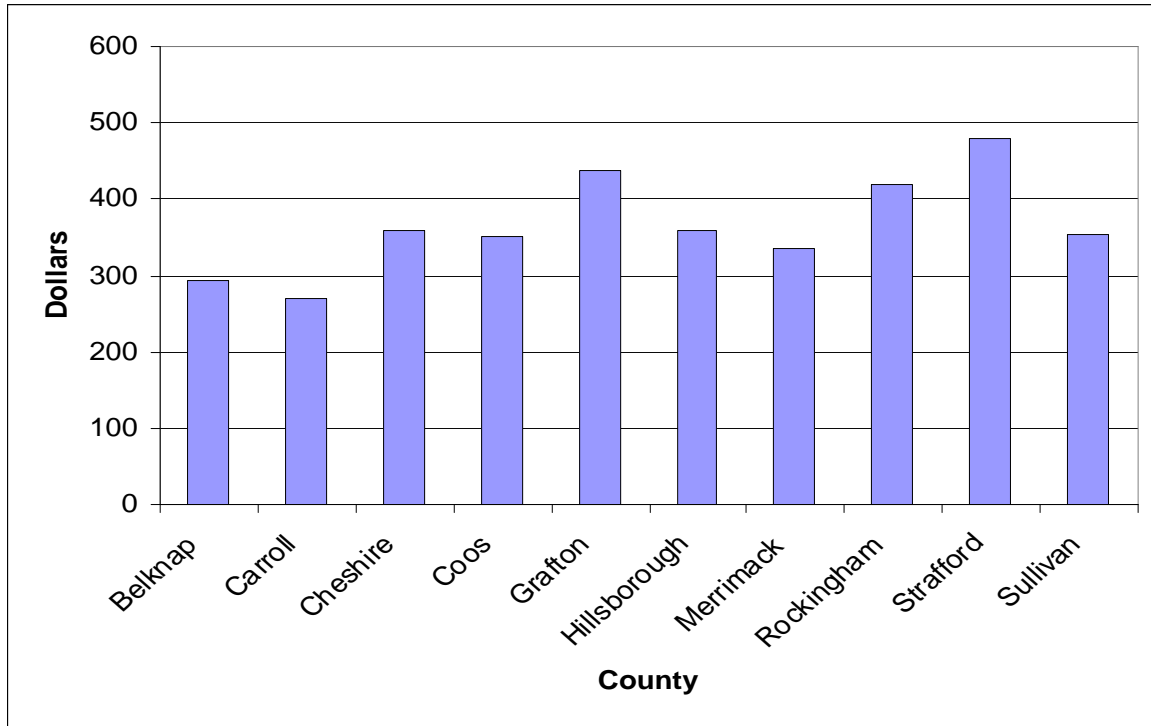

Figure 106 Average taxes (including property tax on equine-related land) paid in the past 12 months, by county

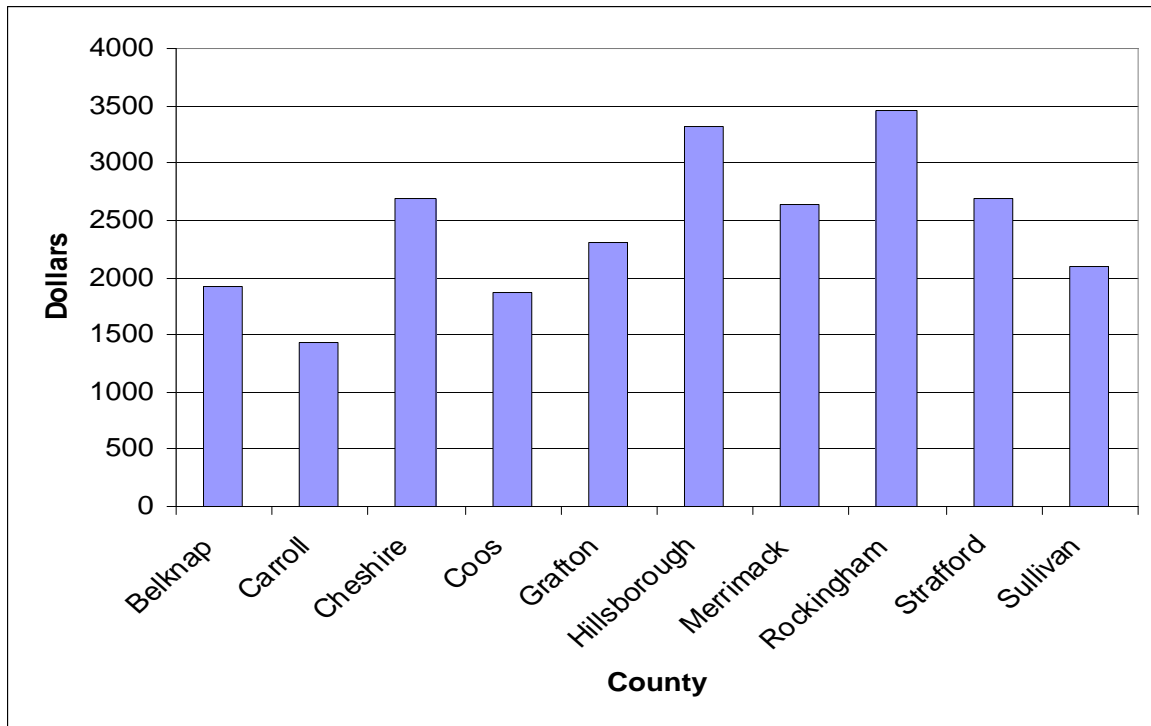

Figure 107 Average expenditures for fuel used in keeping and transporting equines in the past 12 months, by county

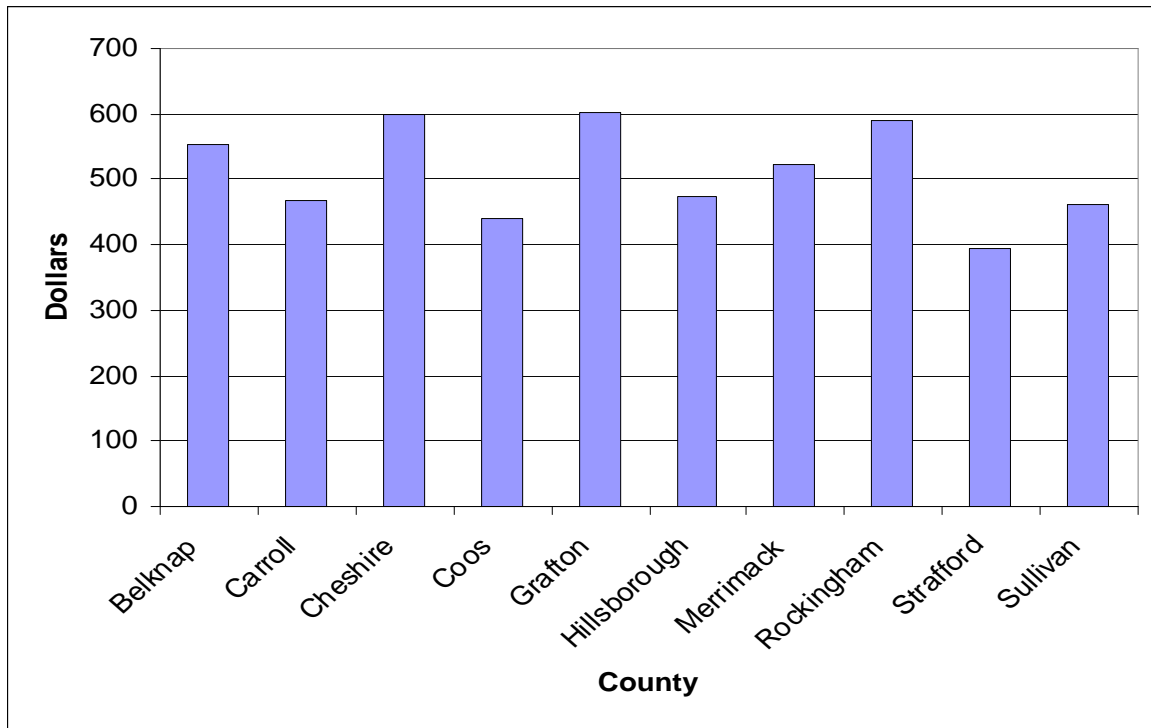

Figure 108 Average equine registration fees paid in the past 12 months, by county

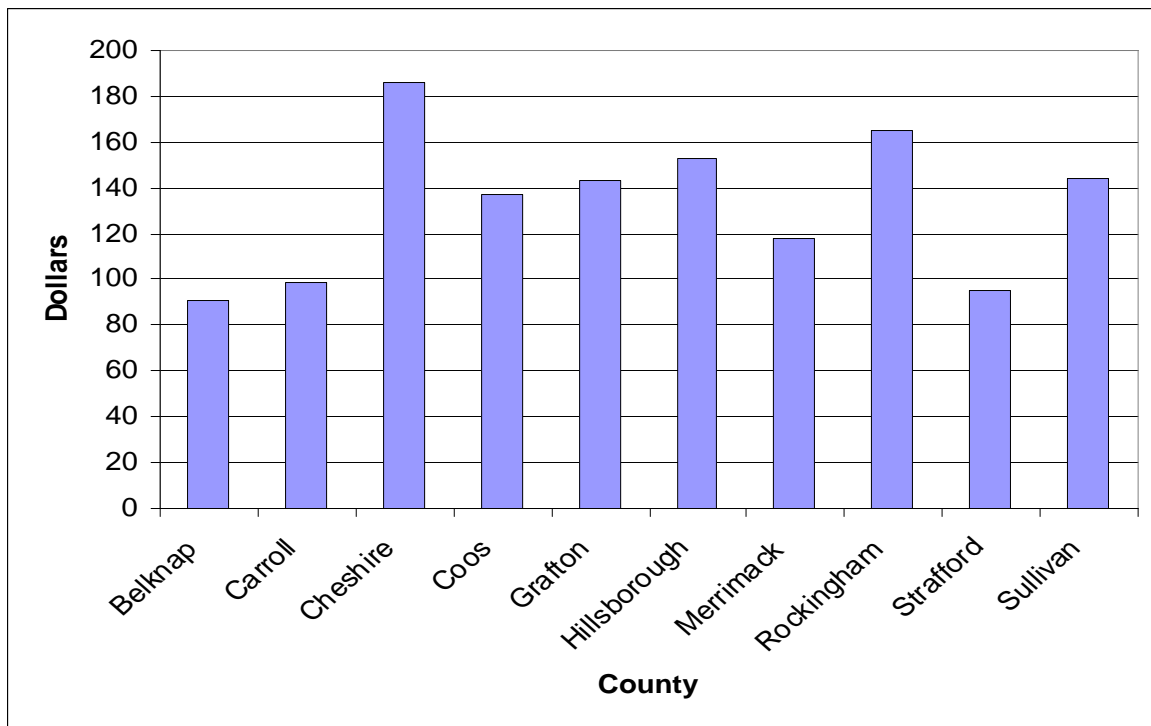

Figure 109 Average competition entry fees paid in the past 12 months, by county

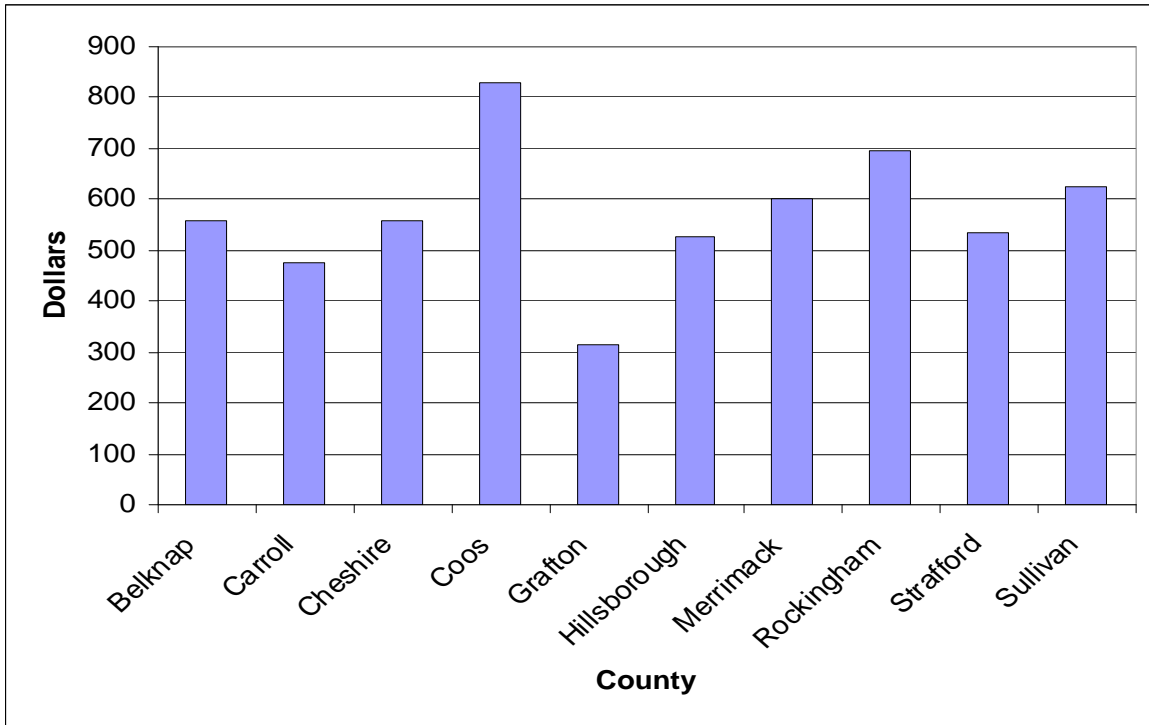

Figure 110 Average association/club membership fees paid in the past 12 months, by county

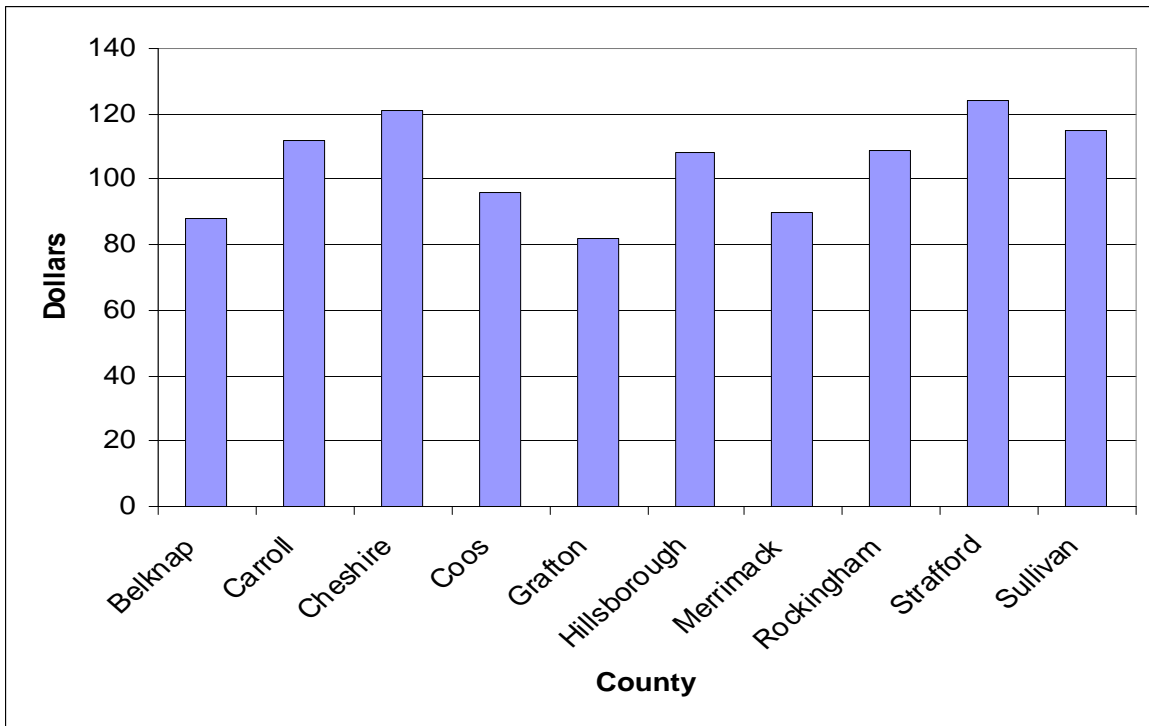

Figure 111 Average training fees paid in the past 12 months, by county

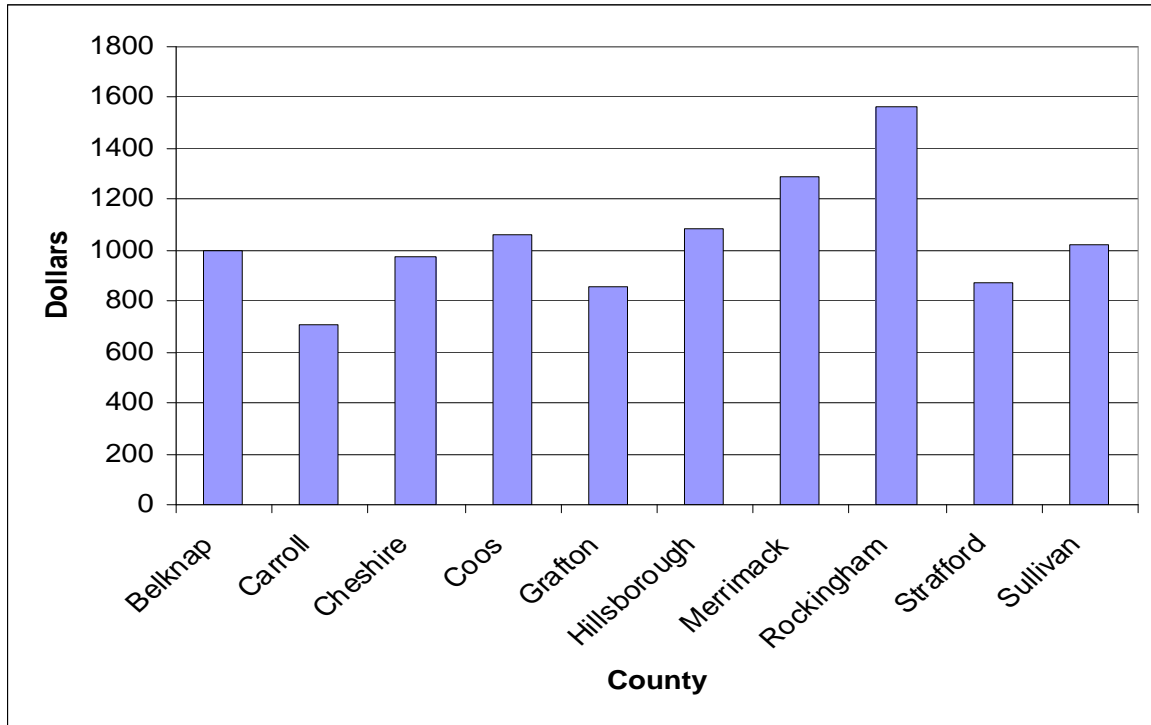

Figure 112 Average riding-lesson fees paid in the past 12 months, by county

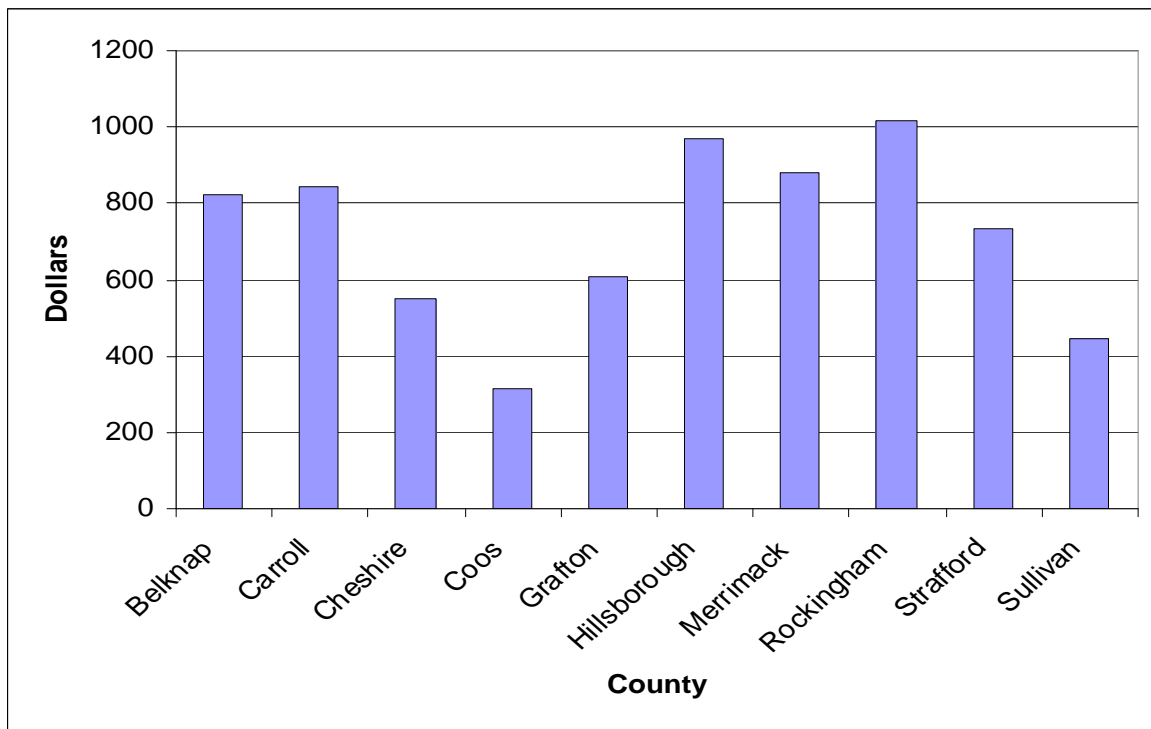

Figure 113 Average expenditures for travel and shipping in the past 12 months, by county

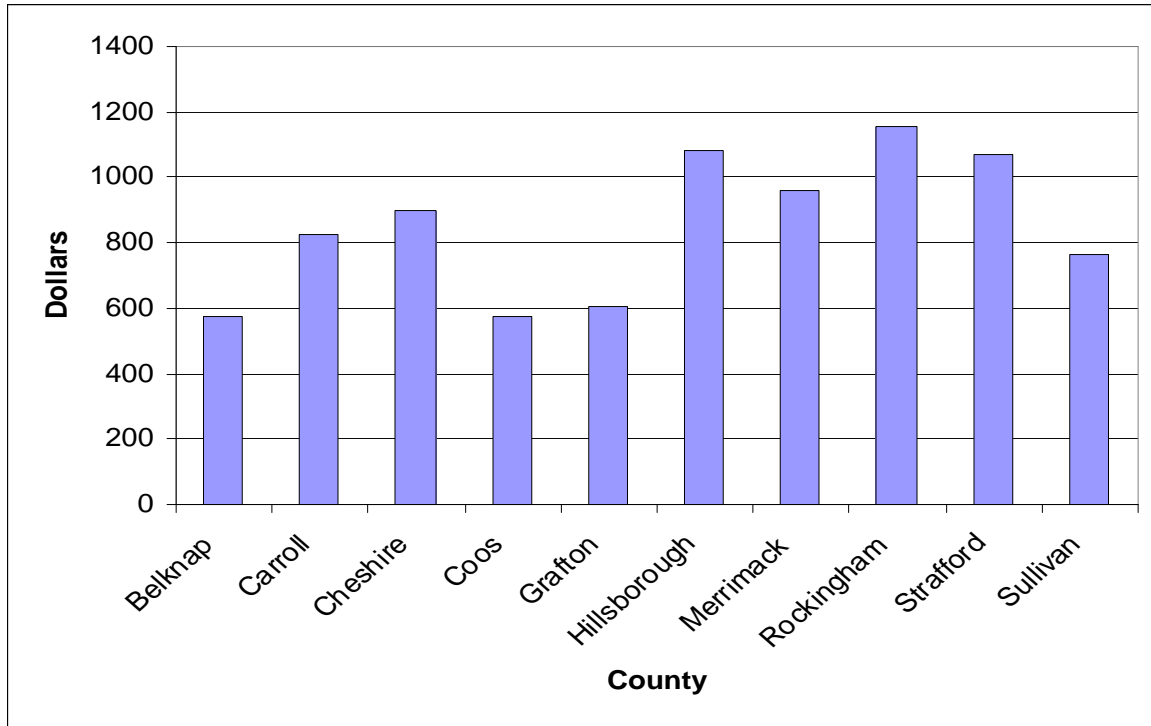

Figure 114 Average expenditures for books in the past 12 months, by county

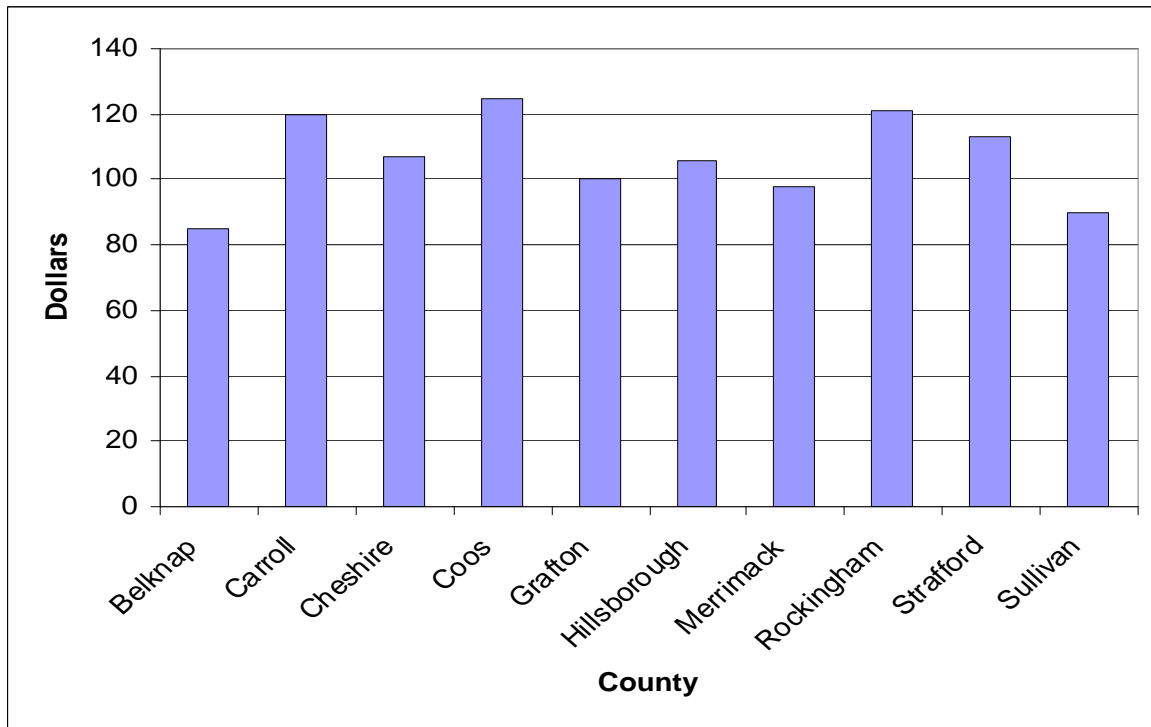

Figure 115 Average expenditures for magazine/journal subscriptions in the past 12 months, by county

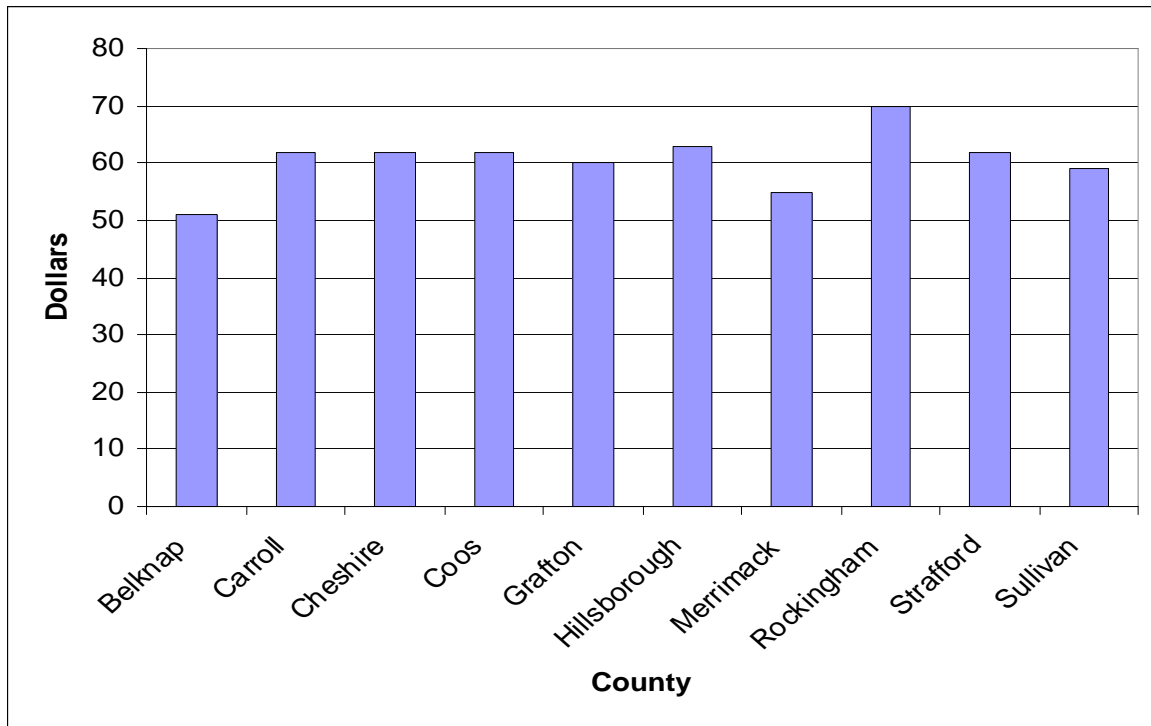

Figure 116 Average expenditures for equestrian clothing in the past 12 months, by county

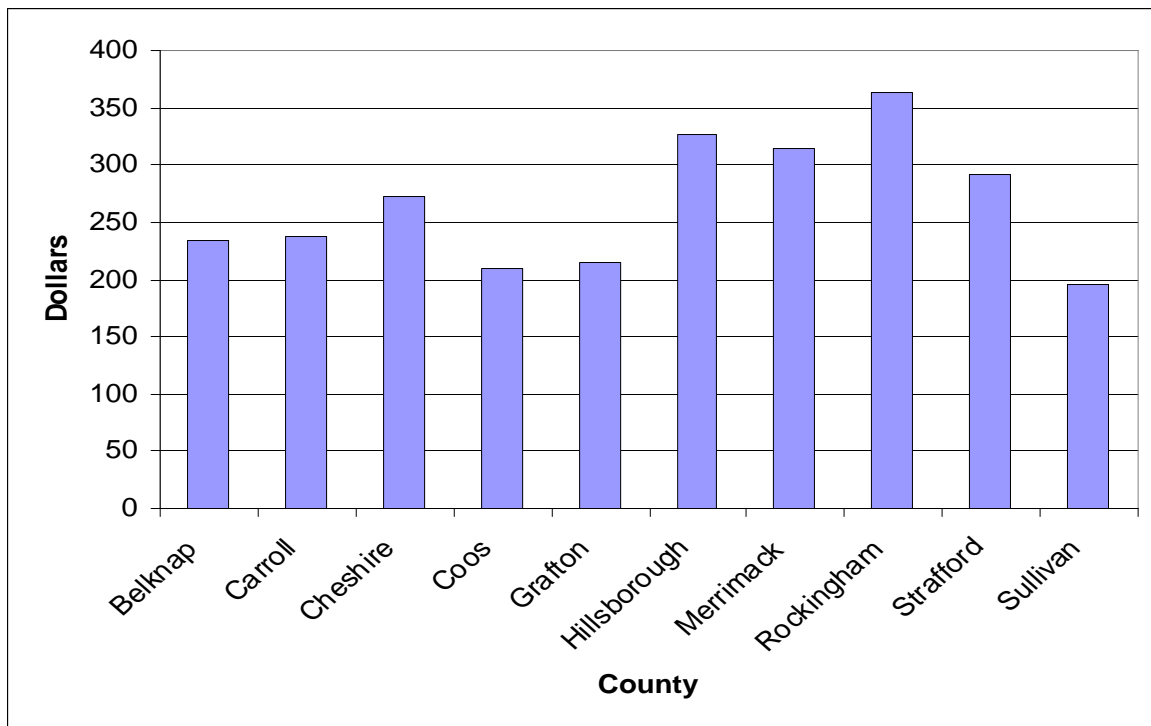

Figure 117 Average expenditures for gifts for people and horses in the past 12 months, by county

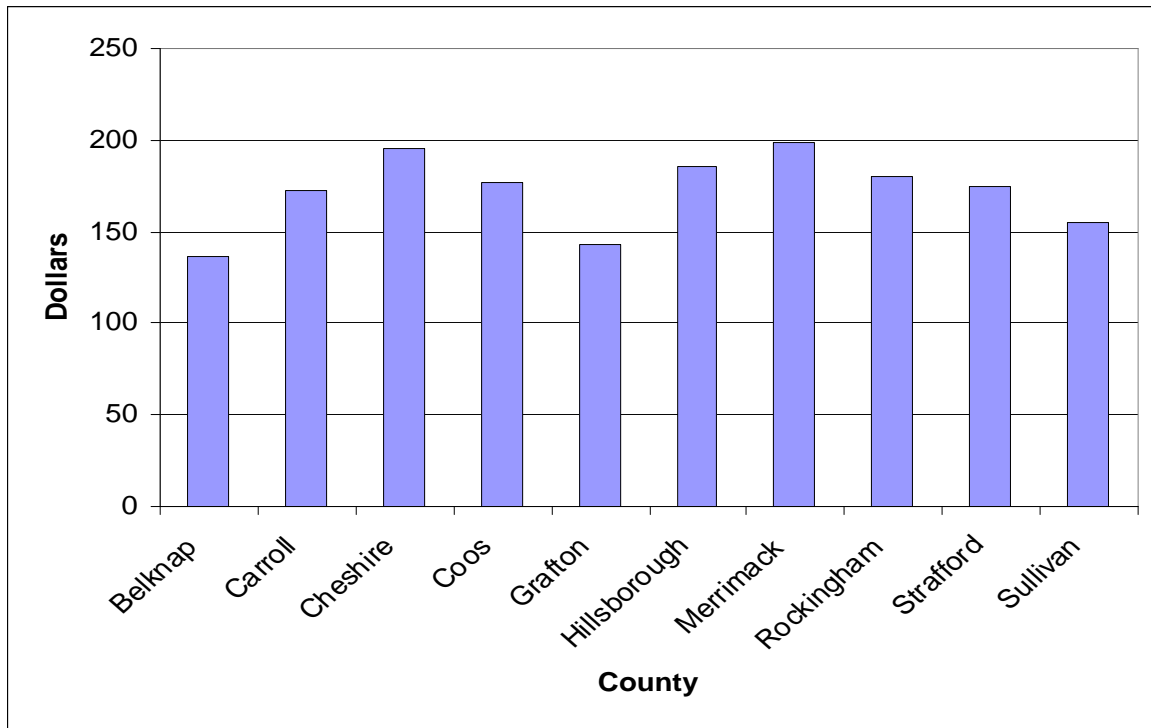

Figure 118 Average expenses for the purchase of equines incurred in the past 12 months, by county

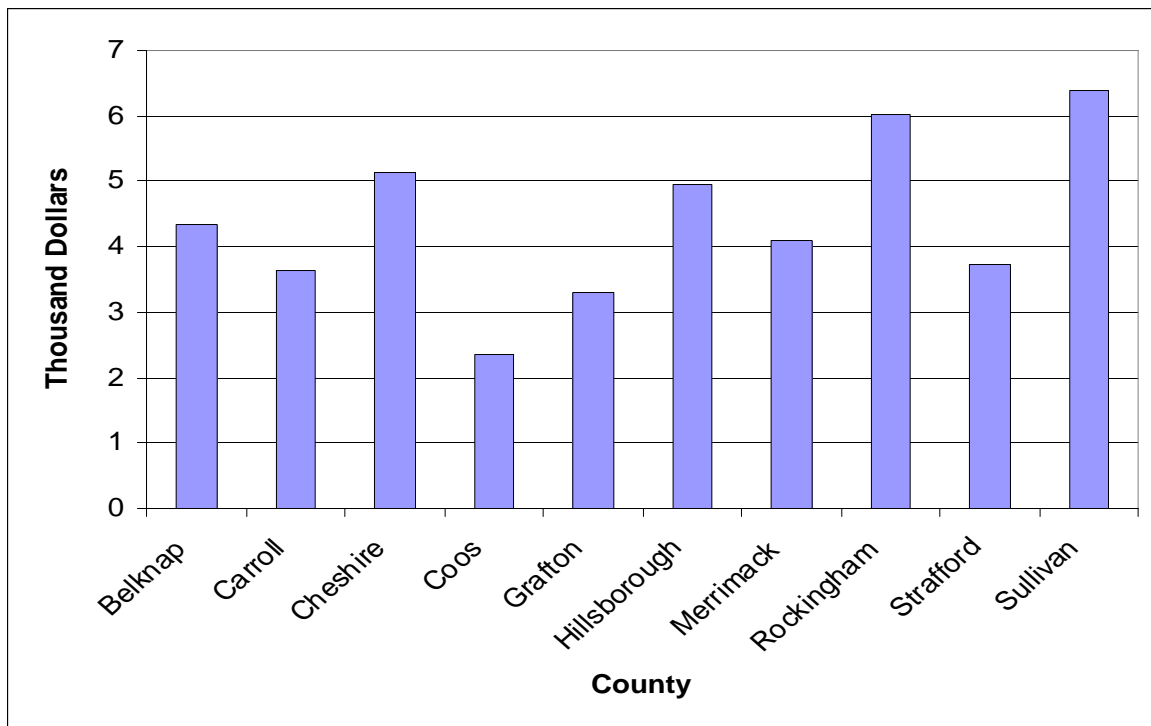

Figure 119 Average expenses for real estate purchases and improvements incurred in the past 12 months, by county

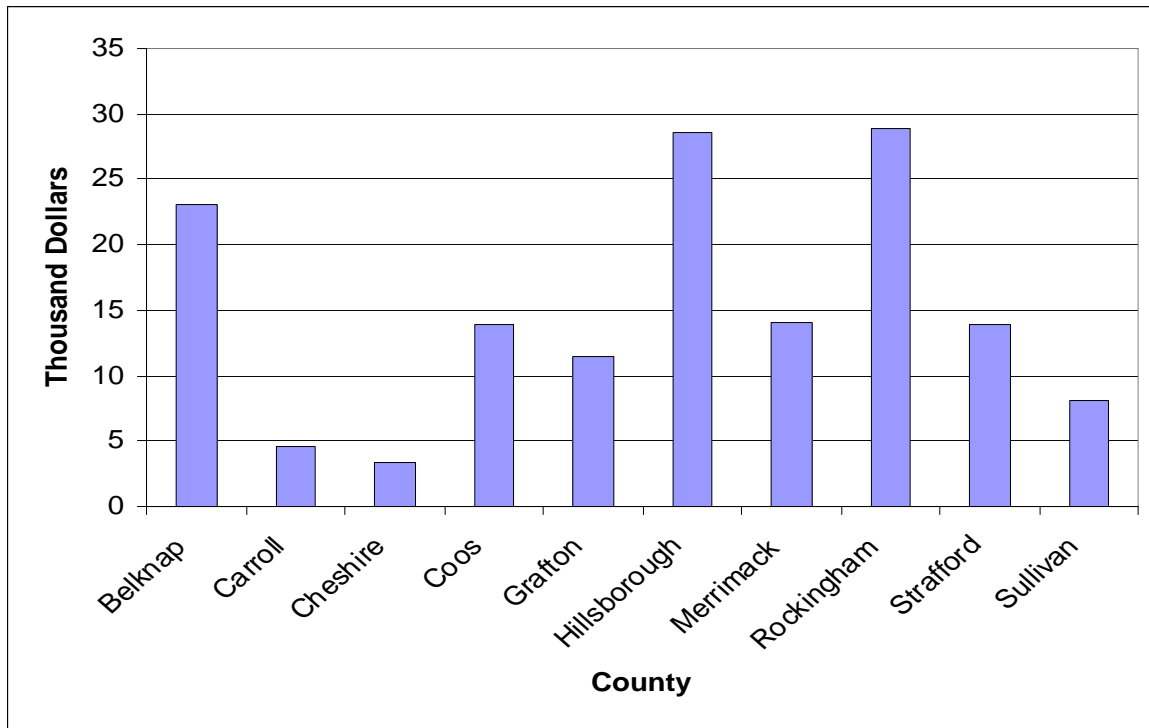

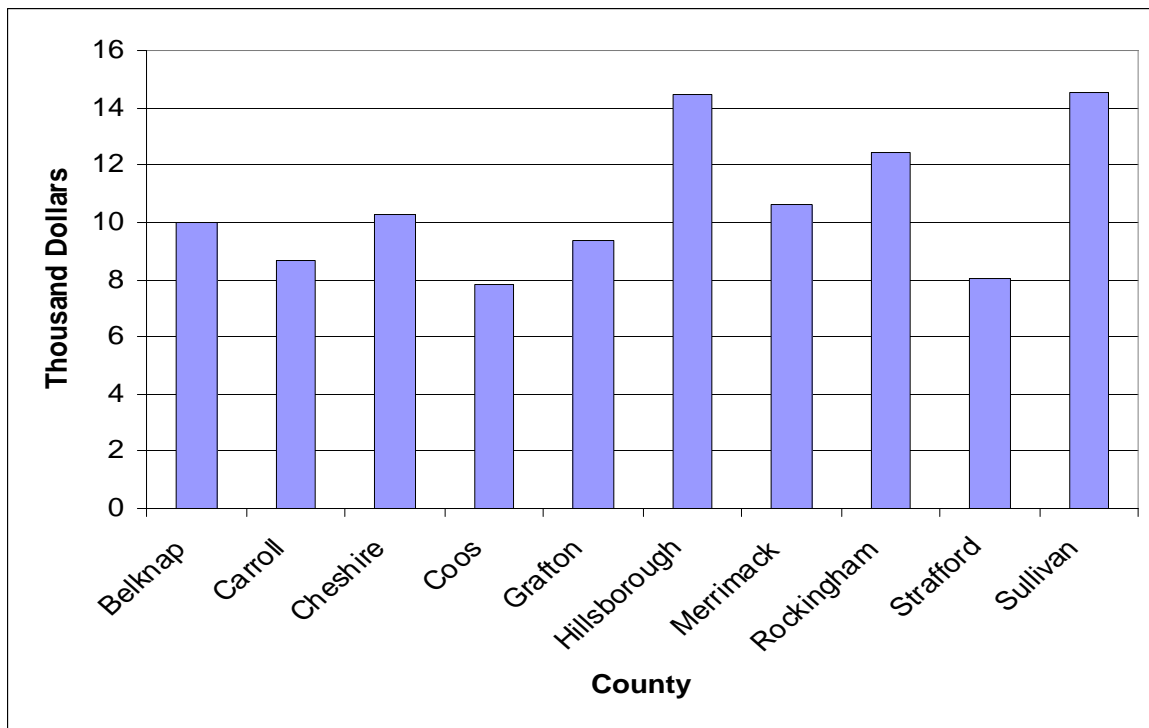

Figure 120 Average expenses for equipment purchases incurred in the past 12 months, by county

## N. Equine-Related Businesses

|                             |                     |
|-----------------------------|---------------------|
| N1. Types of Businesses     | Figures 121 to 126  |
| N2. Employees of Businesses | Figures 127 and 128 |

Figure 121 Respondents who operated commercial boarding, training, riding lessons, etc. businesses, by county

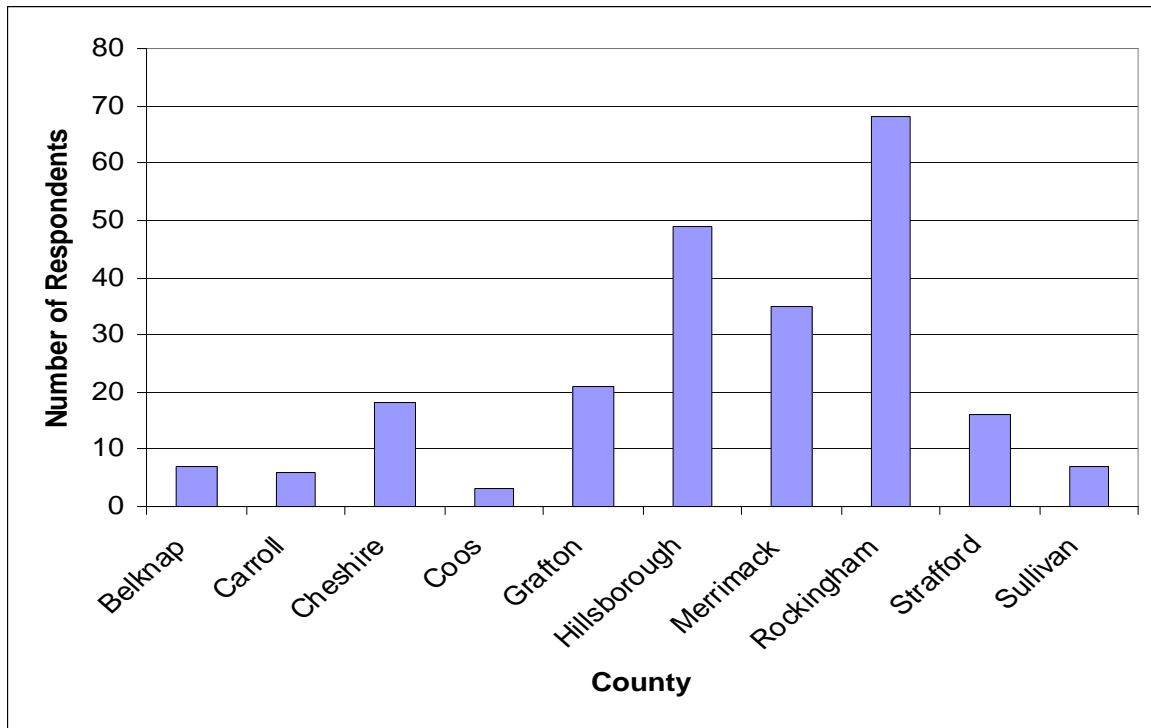

Figure 122 Respondents who operated farms, by county

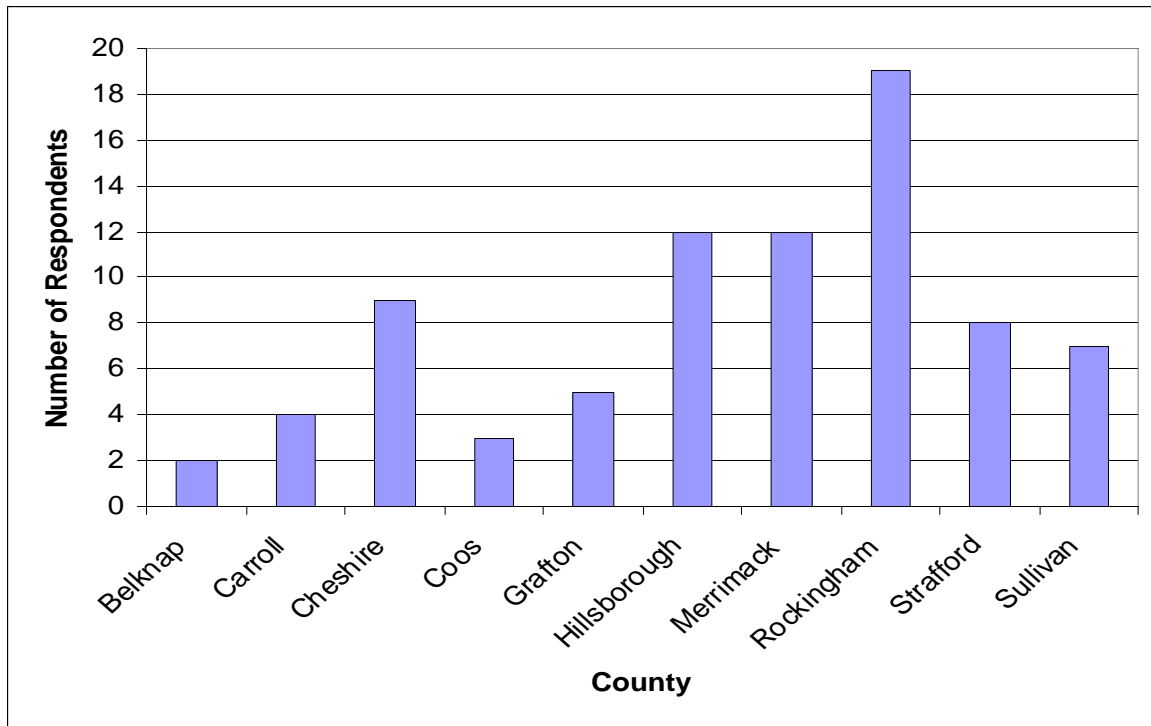

Figure 123 Respondents who operated tack shops, by county

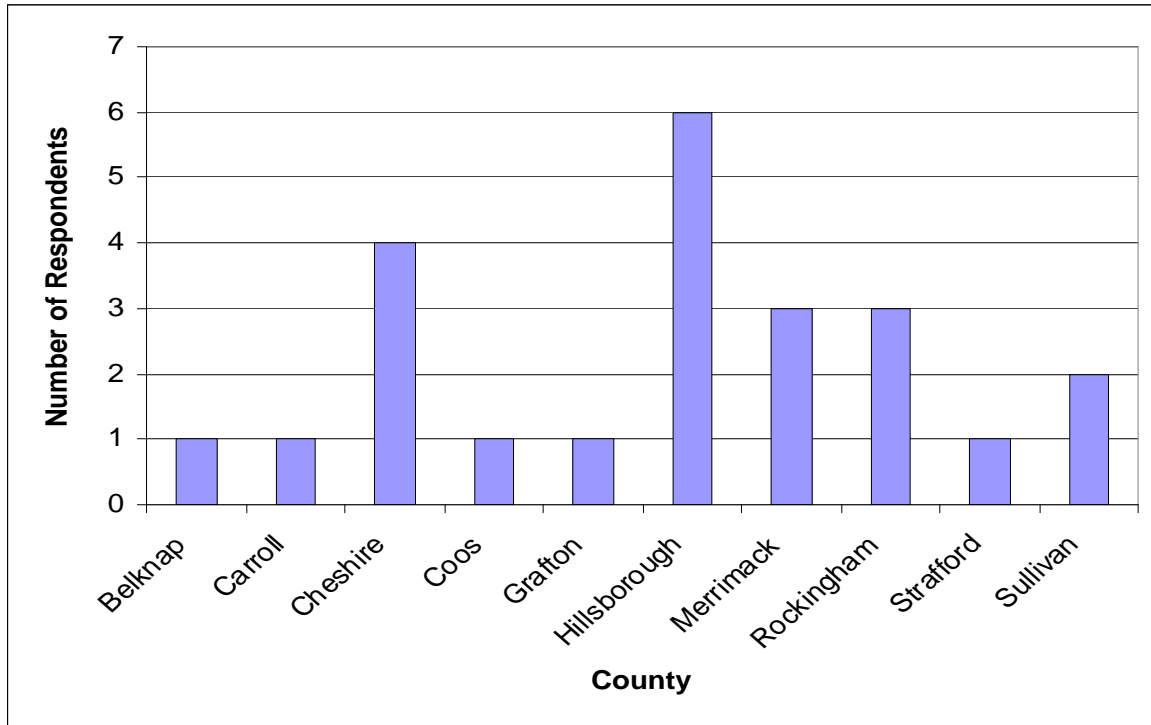

Figure 124 Respondents who operated feed stores, by county

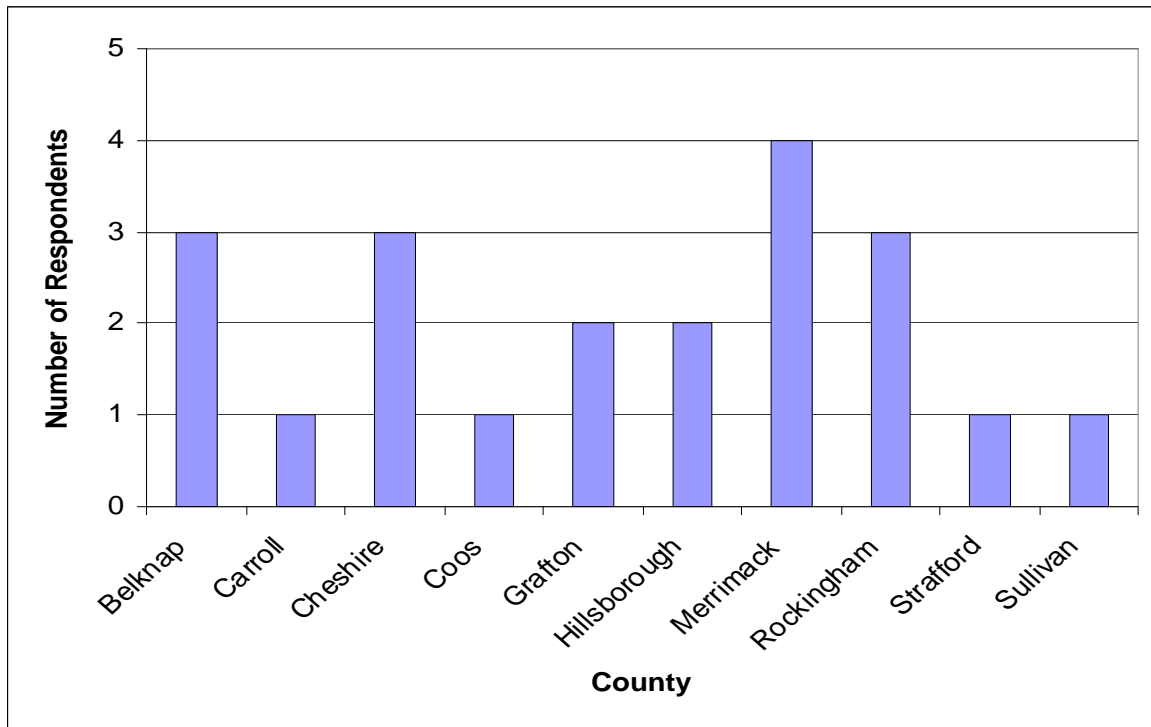

Figure 125 Respondents who were veterinarians, by county

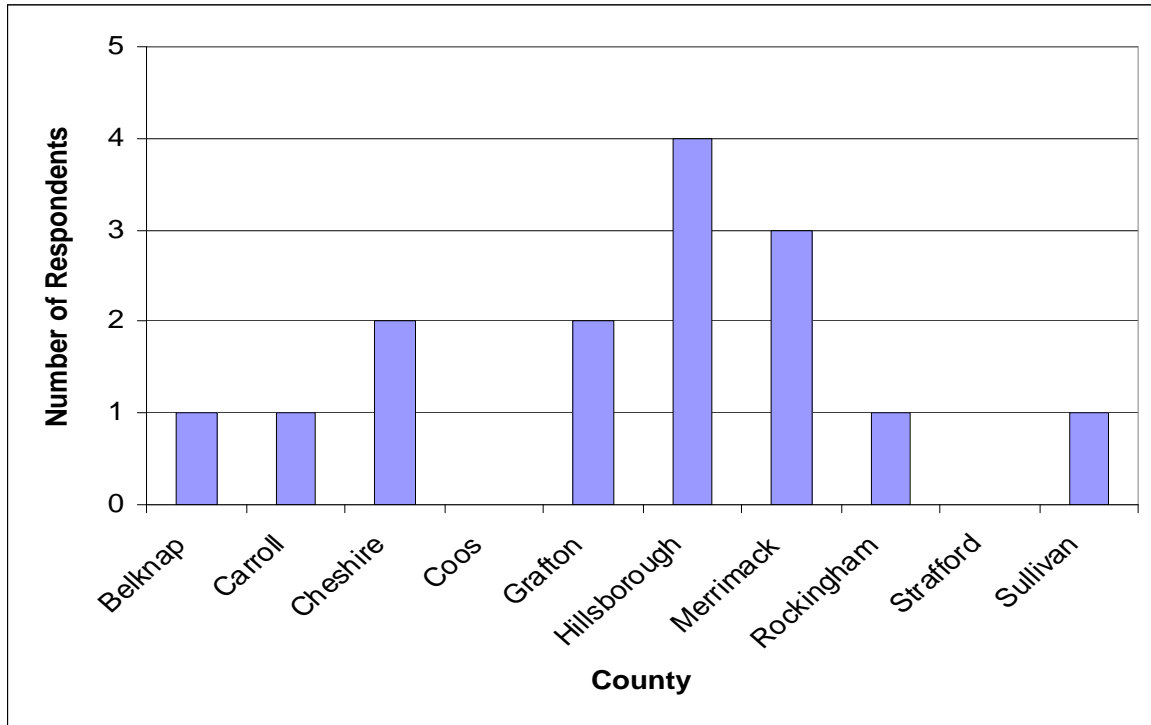

Figure 126 Respondents who were farriers, by county

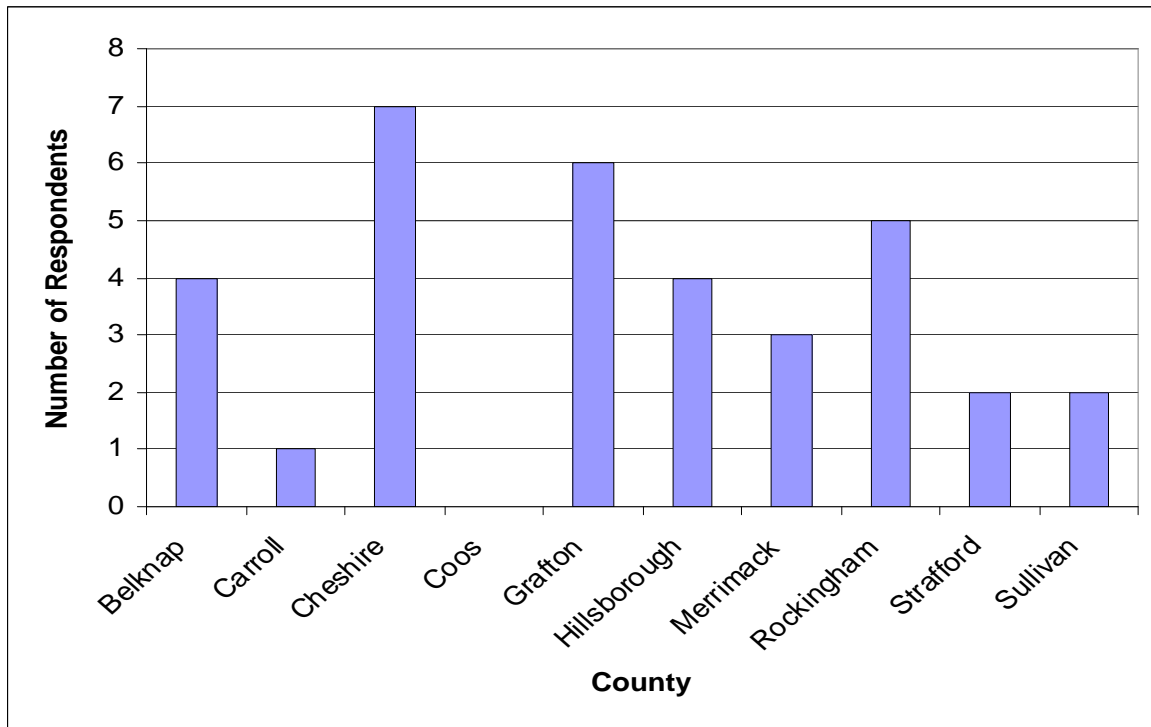

Figure 127 Full-time employees of equine-related businesses, by county

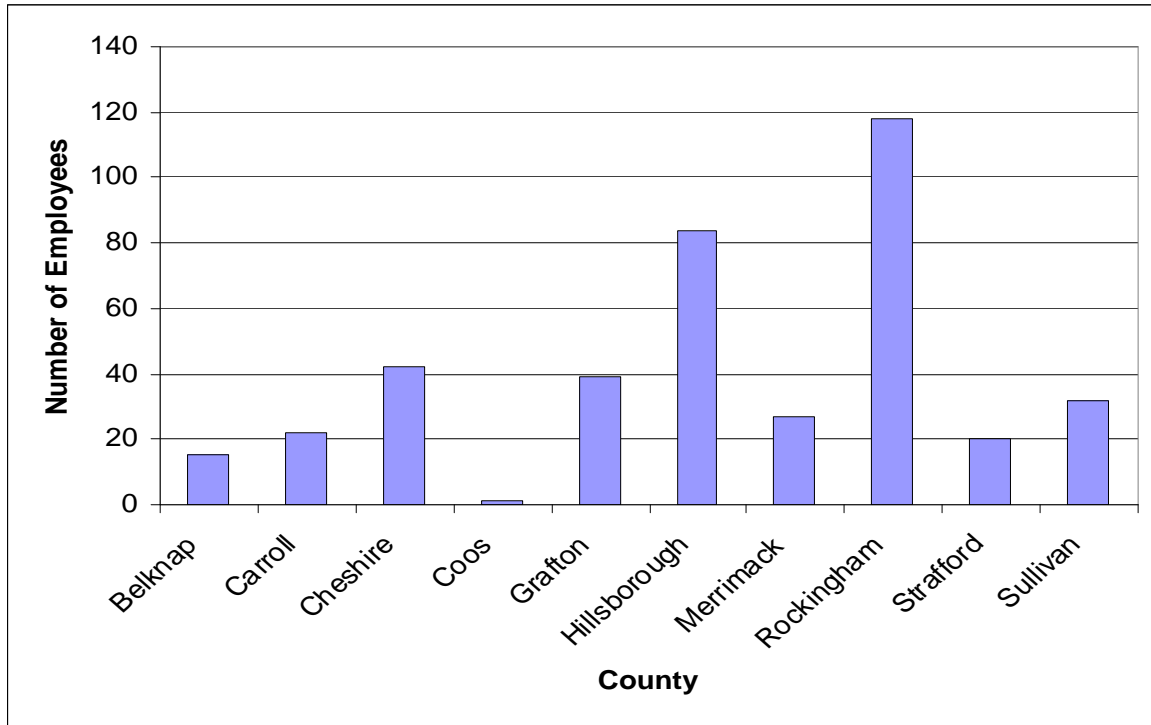

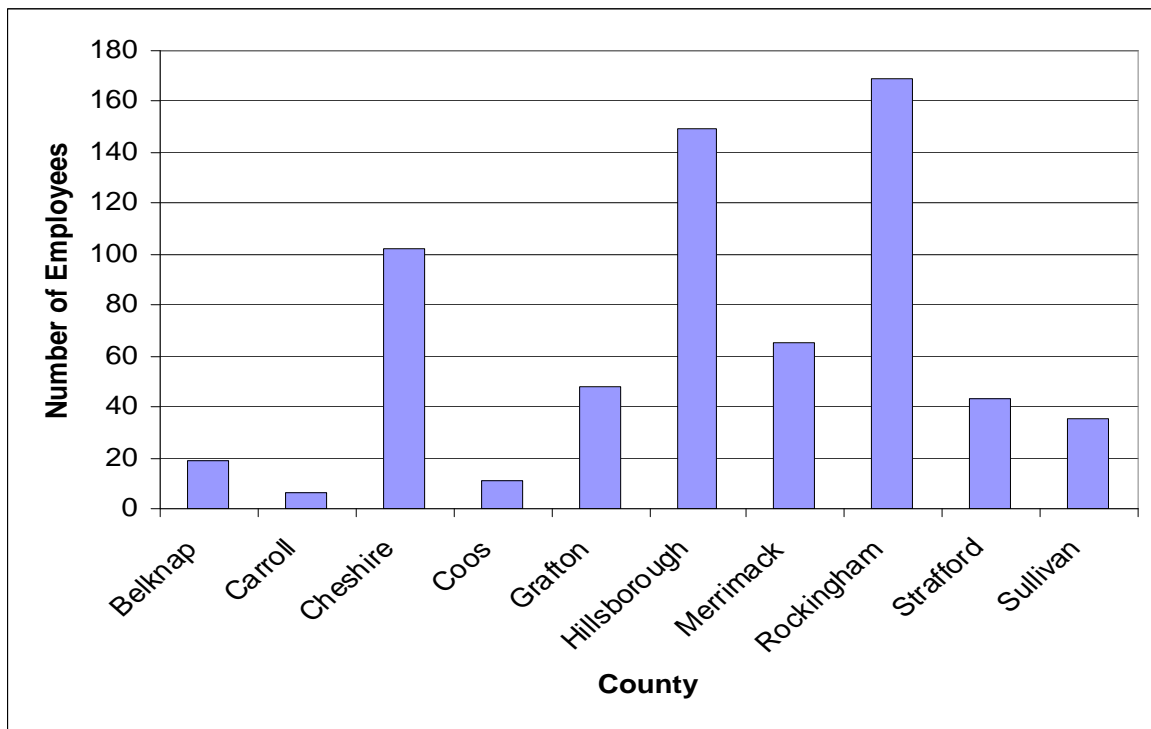

Figure 128 Part-time employees of equine-related businesses, by county
