Repeat Applications:

Any Grafton County resident who is actively engaged in an **agriculturally related college education** may apply for a scholarship each year that he/she is enrolled in college. Please provide your most recent semester transcripts, re-enrollment information, as well as the application. You do not need the three additional references nor the essay that is required of first-time applicants if you have received the scholarship previously. In place of the essay, your background or current involvement with agriculture, forestry or commercial fishing would help in the application process.

Successful Applicant:

The Grafton County Board of Directors will choose the award recipients as soon as possible after the application deadline. The successful applicant or applicants will be notified by sometime in June either directly or through the school. ***To receive this disbursement you must, after the end of your first semester following winning the award, submit proof of completion of the semester of college to the Grafton County Farm Bureau via email (ashyoungheim@gmail.com). We suggest submitting either a copy of your grades for the semester or proof of registration for the next semester. If you have some other information that will prove to us that you completed the semester, we will consider it as well.***
