

New Hampshire Grange Foundation Educational Scholarships and Grants

The New Hampshire Grange was bequeathed a generous gift a few years ago to set up scholarships supported by earnings from the principal. These will be made to those pursuing an educational experience related to agricultural production, economics, or education in that order of priority. First preference will be given to Grange members and their direct relatives and then open to non-members and New Hampshire residents.

Applications can be made in one of five categories of scholarships and grants: **Post secondary**- student enrolled in an accredited institution leading to a degree; **Continuing re-certification**- enrolled in a program to meet requirements of re-certification for a licensed position; **General equivalency diploma**- informal course of study leading to a diploma; **Adult education enrichment**- course, seminar, or program designed to improve skills; and **Farm internship and agricultural program**- an informal educational program related to farming or agribusiness.

The application is very simple, straight-forward, and one form covers all categories. It can be printed and mailed according to the instructions. The awards are usually a minimum of about \$1,000 each.

You can request an application by searching: **nhgrange.org; go to Grange Departments; click Grange Foundation; and at the bottom click Scholarship Application.** If you have any questions, call John Porter at 603-496-6430. Applications are due by April 15, 2026.
